THE REGENCY AUCTION 48

OCTOBER 27 & 28 • THE OMNI HOTEL • SAN DIEGO, CA

Dear Friends,

Welcome to Regency Auction 48! This two-day extravaganza will take place October 27th and 28th at the Omni Hotel in downtown San Diego in conjunction with the PCGS Members Only Show.

On day one, Wednesday, October 27th, we will start the auction with our Half Dollar Day. This night begins with part III of the impressive Boylston Collection of proof and mint state Seated Liberty Half Dollars. This collection will be followed by the rest of the half dollars, including the amazing Young-Madison Collection, the number two PCGS CAC Registry set of Proof Walkers.

Day two on Thursday, October 28th, will follow with all other denominations. This sale is loaded with spectacular highlights. Listed below are just a few -- there are far too many to list. Please take the time to peruse these pages; you will not be disappointed as this is a sale where there is something for everyone!

As always, the LRCA team is here to work with you and answer any questions you might have. With so many fantastic opportunities in this sale, please do not hesitate to let us know ASAP if you need special payment terms, would like to phone bid, or if you have any questions at all.

Warm regards,
Julie Abrams

TERMS AND CONDITIONS

This is a public auction, conducted in accordance with these Terms and Conditions of Sale, by Legend Rare Coin Auctions (hereinafter referred to as “LRCA”). By bidding on any lot offered by LRCA, the bidder indicates acceptance of the following Terms and Conditions of Sale. Bidders are to comply with the Terms and Conditions of Sale, posted on LegendAuctions.com, at the time of the auction in which they are participating.

BUYER'S PREMIUM

A 17.5% buyer's premium will be added to all successful bids, and is payable by the winning bidder as part of the total purchase cost.

SALES TAX

All sales are subject to applicable state and local taxes. Any lots that are picked up and/or delivered in the state of The Regency Auction are subject to applicable state and local taxes.

PAYMENT

All merchandise must be paid for within TEN (10) days of the date of sale. We reserve the right to cancel any unpaid order after that time and to ban the bidder from future sales. Credit cards (Visa, MasterCard and Discover) are accepted for auction payments up to \$2,500.00 per invoice. Invoices and/or balances over \$2,500.00 must be paid via personal or certified check, money order, or wired funds. Personal checks, money orders and cashier's checks may be held for up to 10 business days in order to allow time for them to clear appropriate banking channels. Please email info@legendauctions.com for bank-wiring instructions and/or to provide numismatic references.

E-CHECK PAYMENTS

E-check payments now available. Please email form to info@legendauctions.com

INTERNATIONAL BUYERS

Foreign buyers, unknown to us, are required to deposit 25% of their anticipated expenditures before bidding. Please contact us in advance of bidding for bank wiring instructions.

EXTENDED PAYMENT TERMS

For all items \$15,000.00 and over, LRCA is now offering Extended Payment Terms. Please advise us at least 48 hours before bidding or purchasing the item in question. Pre-approval is required.

RETURN POLICY

All lots are sold “as is.” Lots graded by PCGS, NGC or other third-party grading services, or any lot viewed by the buyer or anyone on buyer's behalf prior to the auction, may not be returned. This is not an approval sale. All sales of lots to the highest bidder are final. Bidders are strongly advised and encouraged to research any lots upon which they plan to bid, and to determine bids, based upon their own evaluation. Bidders assume all risks concerning and related to the grade, quality, appearance, condition, history and origin of any lot. Bidders acknowledge that coin grading is not an exact science, that it can be subjective and inconsistent and that it is possible that two parties might assess or grade the same coin differently. LRCA makes every effort to accurately describe all items offered in its sales. All items will be available for preview prior to the auction.

SHIPPING

Shipping costs will be billed separately and are non-refundable. Items will usually ship within 5-10 business days after payment has been received and/or funds have cleared. Coins will be shipped via Fed Ex or USPS or transported via armored carrier.

The shipping charge includes fees for our third-party insurance coverage, as well as any costs incurred through the USPS or Federal Express. Any shipments made via armored carrier (Brinks, Dunbar, etc.) will be calculated and assessed at the time of shipment.

INTERNATIONAL SHIPPING

It is not possible for LRCA to ship to some countries. Please email questions to info@legendauctions.com. Payment for all

international orders is required in US funds. Please contact julie@legendauctions.com for bank wiring instructions. Customs requirements for each country are the responsibility of the buyer. All packages shipped outside of the United States will include the required customs declaration and full value of the invoice.

BIDS VIA TELEPHONE

An absentee bidder may also participate live, during the auction, via telephone. Requests for phone bidding must be received at least three days prior to the auction date. Please fill out our phone bidding request form online or call 732-935-1168 to request a call from one of our representatives during the live auction. LRCA cannot guarantee phone lines, but will make every effort to accommodate those who wish to participate via this method.

RIGHTS & RESPONSIBILITIES

The auctioneer will determine the highest bidder. The auctioneer, alone, has the right to reopen the bidding for an item, if deemed necessary. LRCA and its representatives reserve the right to remove any attendees who impede the preview and/or the auction. Title to all merchandise shall pass to the winning bidder after receipt of good funds by LRCA. Bidders will be held responsible for their bids, including those bids placed incorrectly. PLEASE VERIFY BIDS BEFORE SUBMITTING THEM. In order to have a bid removed or corrected, bidder must contact LRCA prior to start of the auction. Bidder waives auctioneer's responsibility and holds LRCA harmless for failure to recognize, accept, receive or execute any lost or missing bids by internet, telephone, email, floor bid, fax, mail or other means. LRCA reserves the right to postpone or cancel an auction without notice. Lots may be withdrawn at LRCA's discretion, without prior notice. Lots may carry a reserve. A reserve is a price below which the auctioneer will not sell an item, or will re-purchase the item on behalf of the consignor or for LRCA. LRCA permits bids to be placed by the auctioneer, or an employee of the auctioneer, up to the pre-determined reserve set by the consignor. Legend Rare Coin Auctions' partner, Legend Numismatics, reserves the right to bid on items, for its own account and for the accounts of its clients.

DISCLAIMER AND WARRANTIES

No warranty of merchantability or fitness for a particular purpose is made or implied on any lot. No warranty, whether expressed or implied, is made with respect to any lot except for warranty of title, and in the case of title, auctioneer is selling only that right or title to the lot that the consignor may have as of the auction sale date. All lots are sold "as is" and with all faults. Purchaser hereby assumes all risks concerning and related to the grading, quality, description, condition, authenticity, and provenance of a lot.

- a. Coins and currency listed in this catalog graded by PCGS, NGC, or any other third party grading service or examined by the buyer prior to the auction sale may not be returned for any reason whatsoever by any buyer, except for claims related to authenticity.
- b. For non-certified coins that have not been examined by the Buyer prior to the Auction Sale: if it is determined in a review by LRCA that there is a material error in the catalog description of a non-certified coin or the LRCA no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by LRCA, in their original, sealed containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.
- c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.
- d. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges.
- e. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of LRCA. LRCA shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.
- f. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.

g. All oral and written statements made by LRCA and its employees or agents (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of LRCA has authority to vary or alter these Terms and Conditions of Auction Sale. LRCA reserves the right to vary or alter the Terms of Sale, either generally or with respect to specific persons or circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of LRCA authorized to do so.

h. LRCA is acting as an auctioneer. Title to the lots purchased passes directly from the Consignor to the Buyer. Accordingly, LRCA is not making, and disclaims, any warranty of title.

i. Bidder acknowledges that the numismatic market is speculative, unregulated and volatile, and that coin prices may rise or fall over time. LRCA does not guarantee or represent that any customer buying for investment purposes will be able to sell for a profit in the future.

j. Bidder acknowledges and agrees that neither LRCA, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be liable for such events.

WAIVER AND RELEASE

Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges LRCA, and its respective affiliates, parents, officers, directors, shareholders, agents, subsidiaries, employees, managers and members and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, tort or otherwise, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale.

DISPUTES

If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, LRCA reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. LRCA reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither LRCA nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from LRCA. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Legend Rare Coin Auctions to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the commercial arbitration rules of the American Arbitration Association, with any arbitration hearing to occur in Monmouth County, New Jersey. Absent an agreement of the parties, the arbitrator shall limit discovery to that which is necessary to enable the hearing to proceed efficiently. The arbitrator shall not have the power to award punitive or consequential damages, nor alter, amend or modify any of the terms of this Agreement. The award by the arbitrator, if any, may be entered in any court having jurisdiction thereof. Each party shall pay one-half the costs of the arbitration. Bidder acknowledges and agrees that the competent courts of the State of New Jersey shall have exclusive in personam jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Monmouth County, New Jersey; and any court proceeding shall be in the Monmouth County Superior Court, in the State of New Jersey, and in each case waive any claim of Forum Non Conveniens. Bidder agrees that any arbitration or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale.

Auction participants expressly waive any right to trial by jury.

LISTED BID INCREMENTS

Bid increments are to serve as a general guideline. Actual increments are at the auctioneer's discretion.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

PRINCIPALS

Laura Sperber
Partner

Laura was raised in Highland Park, NJ. During high school, the coin bug hit her hard. Her trip to the 1976 NYC ANA left a lasting mark and huge desire for her to own and handle the greatest rarities. While attending Monmouth University, Laura attended coin shows more than classes. After college, she started LSS RCI, a wholesale coin company. In 1986, she realized the need for a “better” coin retailer and teamed up in 1986 with George Huang to form Legend Numismatics.

In 1996 Bruce Morelan became a partner and since then Legend has exclusively built or assisted in assembling this generation’s greatest collections. In 2012 Laura saw the need for a smaller, boutique auction firm, and created Legend-Morphy with Dan Morphy, whom she split with in 2014. Today, Laura is also a leading consumer advocate for coins. The passion has never subsided, and she keeps a beautiful Proof Walker on her desk to this day.

Bruce Morelan
Partner

Bruce started collecting coins when he was only six years old and by the time he was in high school his dream was to be a coin dealer. But life intervened and instead, Bruce went into business. By chance, he became Legend Numismatics’ financial backer in 1996. His great grandmother had given him three coins when he was young, one of which being a Trade Dollar, so he set out to build the finest Trade Dollar set. After a few years with ultra rarities, Bruce returned to his love of dollars and completed both a set of Gobrechts and a set of Seated Dollars.

After selling those sets, Bruce recently returned to dollars with a new Gobrecht set and a spectacular early dollar set capped by his dream coin, the Amon Carter 1794 Dollar. Not many collector’s can say they have completed not only the finest 1794-1885 Dollar Sets and have over the years owned such coins as two 1913 Liberty Head Nickels, an 1894-S Dime, 1876-CC Twenty Cent piece, 1827 Original and Restrike Quarters, 1838-O Half Dollar, two 1885 Trade Dollars and four 1884 Trade Dollars!

Julie Abrams
President

Julie Abrams started in numismatics in 1986 when she joined up with Bernard Rome and launched Teletrade, the first computerized auction company. As President of Teletrade, Julie helped expand the company, increasing the frequency of auctions and expanding annual sales to \$24 million within a few years. In 1999, GMAI, a publicly traded company, purchased Teletrade and Ms. Abrams became Executive Vice President of Sales for the parent company, as well as continuing her role as CEO for Teletrade.

In 2004 she joined Stacks-Bowers, she worked to develop an online bidding platform for the firm. She also marketed Stacks’ programs to secure consignments from dealers and institutions such as banks, museums and universities.

Julie is a member of the American Numismatic Association, the Central States Numismatic Association and Florida United Numismatists.

THE BOYLSTON COLLECTION PART III

Legend Rare Coin Auctions, in conjunction with Elizabeth Coggan Numismatics, is honored to offer Part III of the extensive Boylston Collection of Seated Liberty half dollars. Like the previous two offerings we auctioned in April and May, Part III is full of finest knowns, famous pedigrees, early Proofs, and patterns.

The Boylston Collection was formed over the past two and a half decades or more. Most coins feature a similar look, being lustrous and generally untoned or lightly so. However, in this selection, there are a number of richly toned Proofs.

Like the previous two parts of the Boylston Collection, there is something for everyone and something to fit any budget. Estimates range from under \$1,000 to coins that could break the six figure level.

The present offering of 108 lots is highlighted by GEM Mint State examples of the 1840 Rev. 1839; 1847; 1847-O; 1849;

1852; 1853 Arrows & Rays; 1855/4 Arrows; 1856-O; 1859-S; 1863; 1865; 1866-S No Motto; 1867-S; 1871-S; 1873-S Arrows; 1874-S Arrows; 1875-CC; 1876; 1880; 1885.

Proof highlights include the 1839 No Drapery. PCGS PR62; 1841 PGCS PR64; 1847 PCGS PR63 CAC; 1848 PCGS PR64; 1856 PCGS PR66 CAM CAC; 1857 PCGS PR66 CAC; 1867 NGC PR66 Ultra Cameo; 1869 PCGS PR66 CAM CAC; 1872 NGC PR68 CAM; 1873 Arrows. PCGS PR66 CAM; 1874 Arrows. NGC PR67 CAM; 1888 NGC PR68 Ultra Cameo.

Patterns include: 1858 J-222. PCGS PR63; 1863 J-342. NGC PR67+* CAM; 1870 J-929A. PCGS PR66 RD CAM CAC.

On behalf of Legend Rare Coin Auctions and Elizabeth Coggan Numismatics, we wish you all the best of luck in bidding and congratulations in advance to the winning bidders!

**LOT 1****25C 1888-S NGC MS65**

A frosty lustrous GEM. Crisply struck devices stand out boldly on this untoned 88-S. The surfaces are generally clean and free of distractions, this coin was likely dipped ages ago, mentioned for the sake of full disclosure. A cool variety with the mintmark boldly repunched.

PCGS 6, NGC 12. The most recent NGC MS65 sold in October 2018 for \$1,800 and the current Collectors Universe value is listed at \$3,000. NGC has graded just five examples finer. Bound for a neat set.

PCGS# 5521 | EST: \$1,800+

**LOT 2****50C 1840 REVERSE OF 1839. PCGS MS65 CAC**

What an impressive GEM example of this early date Seated Liberty half dollar. Intensely lustrous surfaces radiate boldly with a strong cartwheel brilliance. A precision blow from the dies imparted razor sharp definition to the devices that stand out against high end GEM quality surfaces. This is a blush of olive-russet on the left obverse field. This coin has been off the market for ages and is a wonderful early date in this portion of the Boylston Collection. Ex. Silbermunzen Collection, Heritage, May 2008, lot 652, where it realized \$12,650. Housed in the same old green tag holder.

PCGS 8, NGC 2, CAC 4. The most recent PCGS/CAC example sold for \$6,924 in August 2019. The current PCGS Price Guide value is \$8,500 and the CAC CPG value is listed at \$10,800. Just a half dozen examples have ever graded higher, making this a superb example for any GEM Seated half dollar set.

PCGS# 6234 | EST: \$7,000+

**LOT 3****50C 1843-O PCGS MS62**

The 1843-O, despite a decent mintage of 2,268,000, is quite challenging to find in any Mint State grade. This is a neat example that has strong claims to a higher grade (no promises). A rich satiny brilliance gleams all over the surfaces highlighting a softly shimmering golden hue. A well struck early New Orleans half, the grade is limited by a smattering of scattered marks, mostly seen on the reverse above the eagle, but this coin is quite nice, even for its modest grade.

PCGS 7, NGC 12. The most recent example sold for \$1,560 in November 2019 and the current PCGS Price Guide value is \$2,000. RARE finer, this is a lovely example for the budget minded collector.

PCGS# 6244 | EST: \$1,500+

**LOT 4****50C 1845-O PCGS AU58**

In the old days, this coin might have been called a BU, as even with strong glass any wear is essentially invisible. A pearly brilliant silver surface shimmers with a wonderful nearly full luster. The devices have a full, crisp strike with razor sharp definition. The wear is limited to some minor friction lines in the open fields, but the eye appeal is still quite nice.

PCGS 11, NGC 19. While the PCGS Price Guide value is \$1,000, a lower grade AU55 sold in December 2020 for \$1,200. RARE in Mint State, this is perfect for an “everyman” set, such a great collector grade piece.

PCGS# 6249 | EST: \$1,000+

**LOT 5****50C 1845-O NO DRAPERY. PCGS MS64**

Among the FINEST KNOWN of this variety, WB-101, Die Pair 12. This was the 3rd usage of this obverse die, and the repeated polishing of the surfaces removed the drapery folds under Liberty's elbow. This is a scarce variety, rated as Rarity-4, but in this lofty state of preservation, it is VERY RARE.

Pearly silver and pewter-dove gray patina has a hint of antique gold over a vibrant satiny frost. The strike is very sharp and the surfaces show just a hint of contact. Overall the surfaces are very clean and attractive, as close to GEM caliber as you can ever hope to get for this rarity.

PCGS 2, NGC 3. NONE ARE FINER at either service. This coin sold half a decade ago, realizing \$5,053 in a weak market. The current Collectors Universe value is \$7,000. Really attractive and eye appealing, this coin is bound for a fantastic set of Seated halves.

PCGS# 6250 | EST: \$5,000+

**LOT 6****50C 1846 TALL DATE. PCGS AU55**

Warm, satiny luster clings to the surfaces of this lightly circulated early Seated Liberty date. Faint, pewter-silver and pearlescent hues. There are a couple of planchet roller lines seen in the lower reverse. Sharply struck, the eye appeal is quite nice.

PCGS 24, NGC 16. Recent auction prices range from \$504 to \$576 and the current Collectors Universe value is \$800. Again, this is an early date that is quite difficult to find in any Mint State grade. Another nice collector grade example.

PCGS# 6252 | EST: \$550+

**LOT 7****50C 1846 TALL DATE. NGC MS61**

Frosty and brilliant untoned silver surfaces show no wear and just some minor marks scattered about. Well struck, the devices are bold. The eye appeal is decent for a coin of this grade with no serious marks of any kind to be singled out.

PCGS 1, NGC 7. No NGC-graded piece has sold in nearly five years, the last one realizing \$882 in February 2017. The current Collectors Universe value is listed at \$1,750.

PCGS# 6252 | EST: \$1,000+

LOT 8

50C 1847 NGC MS65 CAC

A wonderful and totally original GEM graded example of this early date Seated Liberty half dollar. Indeed, between PCGS and NGC fewer than a dozen have graded MS65 or finer in all their years of grading coins.

Richly frosted satiny luster blooms all over this lovely GEM. The faintest splashes of iridescent toning can be seen on both sides as you rotate the coin in a light. Very sharply struck devices stand out with a crisp definition on both sides. There is

minimal contact seen anywhere, and any trace you see, you need a strong glass to find it. The eye appeal is excellent.

PCGS 7, NGC 2, CAC 2. No NGC-graded example in MS65 has sold in auction since Bowers and Merena's March 1998 Boys Town Sale. The only CAC-approved MS65 to sell was the Richard Jewell Collection coin, sold in July 2013 for \$10,575. The current CAC CPG value is \$8,270 and the current Collectors Universe value is listed at \$8,500. Just a single MS66 is graded finer at NGC, and it has never sold in auction. This is an important opportunity for the advanced Seated Liberty half dollar collector and we expect strong bidding.

PCGS# 6257 | EST: \$6,500+

LOT 9

50C 1847-O PCGS MS65 CAC

This is one of the FINEST 47-O half dollars extant, with just a single MS65+ graded finer at PCGS. While the mintage of 2,584,000 was sizable for the era, these went right into antebellum commercial channels where they would remain for a long time. Any Mint State example is an important rarity, especially so in MS64 or finer.

A rich, satiny mint frost glows boldly on both sides. Well struck from a shattered pair of dies. Pearly silver hues mingle with some scattered golden accents. The dies shows some evidence of rusting from the hot, humid New Orleans climate. Along with the interesting die cracks on both sides, the 7 is boldly repunched to the south. A neat coin for the advanced collector.

PCGS 1, NGC 3, CAC 2. No PCGS MS65 has ever sold in auction. The current PCGS Price Guide value is listed at \$15,000 and the CAC CPG value is listed at \$15,000. The single finer MS65+ GOLD CAC is currently being offered for sale for \$40,000! This GEM is worthy of a sensational collection of Seated halves. Good luck

PCGS# 6259 | EST: \$12,000+

LOT 10**50C 1849 PCGS MS61**

A nice, Mint State grade early Seated half dollar. Light lines are noted from some ancient gentle wiping is all that keeps this coin from a higher grade. Platinum color graces both sides and a glass reveals some ancient toning dots on the reverse.

PCGS 2, NGC 1. Only one other PCGS example has been sold prior, in January 2017, and it brought \$881. The current PCGS Price Guide value is listed at \$1,250.

LOT 11**50C 1849 NGC MS65**

A wonderful GEM, tied for FINEST KNOWN for the date! This is such a special coin, deeply and originally toned example. Deep blue patina mingles with violet, teal, and hints of olive on the obverse and amber gold toward the central reverse. Sharply impressed on both sides, the details are fully and crisply defined. A strong glass reveals a few very minor ticks and ancient marks well hidden below the thick layer of toning, but these have little impact on the outstanding visual allure.

PCGS 2, NGC 3. This GEM was last sold in a weaker market, at the 2015 FUN auction, realizing \$8,813. More recently the Newman coin sold in our April 2021 offering of the Boylston Collection, Part 1 for \$13,513. The current Collectors Universe value is listed at \$12,500. With NONE FINER at either service, and no MS65 approved by CAC, you will likely not find another high end example anywhere, making this GEM worthy of the finest of collections.

WOW, this lovely, near-GEM survivor from an original mintage of only 77,130 were struck, and this impressive Mint State piece is among the dozen FINEST graded at PCGS.

A satiny, incandescent luster blooms with a vibrant golden-tinged brilliance on both sides. Sharply struck in the centers, the peripheral devices show some minor bluntness, from an uneven striking pressure, or uneven thickness of the planchet. A glass fails to reveal anything more than the most minor scattered ticks, but they have little impact on the fabulous eye appeal.

PCGS 6, NGC 5. The most recent PCGS-graded example sold for \$5,760 in February 2018 (was CAC approved). This coin sold over five years ago for \$4,888, The current Collectors Universe value is listed at \$6,000. VERY RARE finer, there are 5 in MS65 and one in MS66 at PCGS higher. This remarkable GEM is the second highest graded example for this lower mintage date. Only 77,130 were struck for commerce and precious few were saved at the time of issue. There are just two graded higher at NGC, and there is nothing finer than MS66 at PCGS.

Distinctive splashes of gold on the obverse will serve to identify this GEM beauty. Sharply struck, the details exquisitely executed and enlivened by bold satiny brilliance. The eye appeal is excellent in every way.

PCGS 0, NGC 1. There is only a single MS67 graded finer at NGC, which has not sold since 2009. This coin was in the Gardner sale, October 2014 for \$12,338 as NGC MS66. We expect strong bidding when this GEM comes up for sale.

50C 1853 ARROWS AND RAYS. PCGS MS65+ CAC

What a gorgeously lustrous example of this one year only type! WOW! This coin looks like it just came off the dies. In the early 1850s, as huge amounts of gold were flowing east from the California Gold Rush, the value of silver rose against the value of gold, and silver was hoarded. In 1853, Congress passed a law reducing the weight of half dimes, dimes, quarters and half dollars to keep the ratio of gold to silver even, and allow silver to circulate again. To differentiate the new weight standard, arrows were added to the date and rays were added to the reverse of the quarter and half. In 1854, the rays were removed from the reverse, mint officials citing striking difficulty. Arrows remained at the date until through 1855.

Possessing a blisteringly brilliant, radiating cartwheel brilliance on the obverse and a rich, satiny frost on the reverse. Both sides show spidery die cracks and die clashes that add to the character and charm of this PQ GEM. Essentially untoned and only a few minor ticks are seen with the aid of a strong glass. The eye appeal is AMAZING for this issue, which often comes dull and lackluster.

PCGS 15, NGC 15, CAC 6. This is the ONLY MS65+ graded by either service. The current Collectors Universe value is listed at \$25,000. The last PCGS/CAC MS65 sold for \$21,150 back seven years ago, and we sold the last PCGS MS66 CAC in December 2017 for \$67,563. This stunning GEM is bound to sell somewhere in that range. Satiny mint luster is nearly unbroken with just a slight hint of a rub at the highest points of the design elements. Modest surface marks are consistent with the grade and a curiously located nick can be noted at the top of the 1 in the date. Overall, a pleasing example of the short-lived Arrows and Rays type.

PCGS 107, NGC 178. The PCGS price guide lists the value at \$1,500. Good value for the type collector or Seated Half specialist.

This is the FINEST graded example of this very popular overdate variety. RARE in all Mint State grades, this is the sole POP TOP piece! PCGS CoinFacts estimates a total of 400 in all grades with 18 in Mint State.

Abundant satiny mint frost radiates boldly on both sides. Pearly silver surfaces gleam with accents of pale gold. Sharply struck interior devices and generally bold peripheral details. There are some minor planchet rolling lines that appear in areas where the design elements were not 100% struck up. A strong glass reveals a few very minor ticks and marks, but they have little to no impact on the great visual allure!

A lovely GEM New Orleans mint half. Exceptionally lustrous surfaces are aglow with a brilliant swirling luster which captivates the eye. The fields are particularly flashy. Wonderfully preserved surfaces show only the most insignificant scattering of microscopic ticks. The design types are sharply struck up and have a wonderful semi-glossy finish. Mostly untoned, there is a delicate splash of dappled iridescent toning at the upper obverse and lower reverse periphery.

This example has a boldly repunched date, the 1 was punched too low and the 56 were punched too high and then they were corrected, without effacing the original punches. Repunching is boldest at 1 and 6.

PCGS 24, NGC 15. The most recent PCGS MS65 sold in August 2019-- the market has changed dramatically in those two years. In the recent ANA auction, a different repunched date variety graded by NGC brought \$3,600. The current Collectors Universe value is listed at \$5,750. 50C 1875-CC NGC MS62 CAC

Luminous frosty white surfaces are above average for the assigned grade and worthy of the CAC designation.

It would not be at all surprising to envision this coin designated with a higher numerical grade (no guarantees). Despite a generous mintage of \$1 million, relatively few have survived, and the date is rather scarce in mint state. This is the only MS62 coin stickered by CAC.

PCGS 18, NGC 12, CAC 1. The PCGS price guide lists the value as \$3,000 and the CAC price guide value is \$3,160. The most recent record at auction was in the recent ANA auction at \$5,880 (PCGS graded) No NGC-coin has sold since 2013. A prize for the Carson City specialist or collector of better Seated Halves.

50C 1875-CC PCGS MS64

A lovely, very CHOICE 1875-CC half dollar! Frosty, with a brilliant luster that glows vividly all over this virtually untoned near-GEM. Well struck, the surfaces gleam with an attractive silver brilliance. There is a light spot at star 10 and a few minor scuffs that are noted for full accuracy, but the eye appeal is certainly bold.

PCGS 31, NGC 17. The most recent example to sell was in January 2019 for \$3,840. The current Collectors Price value is \$5,000. RARE finer, this is a great coin for the Carson City mint specialist or Seated half collector. Good luck.

PCGS# 6350 | EST: \$3,500+

LOT 46

50C 1875-CC PCGS MS65+ CAC

This is a really high end GEM 75-CC half! Amazingly satiny mint frost gleams brilliantly throughout on the pearly-silver and pale golden surfaces. The definition is sharp throughout, with boldly struck up drapery lines and eagle feathers on both sides. There are a few minor traces of contact that are hidden throughout, but the surfaces seem to be cleaner overall than the Battle Born PCGS/CAC MS65. Struck from a shattered reverse die that shows extensive die cracks. What an impressive example that is a sensationally attractive example.

PCGS 9, NGC 4, CAC 4. This is the ONLY MS65+ at either service and it has never sold in auction. The current Collectors Universe value is listed at \$12,500. There are just two finer at PCGS. The last PCGS/CAC MS65 coin to sell in auction was the Battle Born piece that brought \$8,625 back in August 2012, and a non-CAC MS66 sold in June 2014 for \$35,250. This "+" grade GEM will see very strong bidding and is bound for a fantastic set.

PCGS# 6350 | EST: \$12,000+

LOT 47

50C 1876 PCGS MS65

Full mint frost and attractive peripheral blue-violet-russet toning are highlights of this Gem. An interesting die break encircles the lower reverse, and a scattering of modest markings are noted for accuracy.

PCGS 21, NGC 12. The PCGS price guide value is \$2,750. Despite a generous mintage of 8.4 million survive in Gem Mint State, making this a pleasing specimen of interest.

PCGS# 6352 | EST: \$1,800+

LOT 48

50C 1876-CC NGC MS63

Glowing satiny luster beams from mostly white central devices that are surrounded by delightful golden toning. Moderate contact marks are consistent with the grade. Housed in an older generation NGC holder.

PCGS 30, NGC 17. Listed in the PCGS price guide at \$3,500. Last auction record for a similarly graded coin was \$1,880 in January 2017, and there have been only 8 examples of this date in MS63 sold at auction since 2013. Clearly the buyer should take advantage of this seldom occurring opportunity to acquire this scarce Carson City half dollar date in mint state.

PCGS# 6353 | EST: \$1,800+

**LOT 49****50C 1877 NGC MS62 PL**

Dazzling mirrored surfaces highlight this noteworthy Mint State Prooflike Seated Half Dollar. Untoned and impressively detailed with scattered surface marks due to handling and storage that are quite moderate. From a mintage of 8.3 million a mere 9 coins have been designated MS PL by NGC with a single MS62+PL at PCGS.

PCGS 0, NGC 4. One of only 10 MS PL examples, with only 3 finer (62+, 63, 67). Unlisted in the PCGS price guide, there are no auction records for prooflike coins in mint state. Surely worthy of a 4-figure bid - a rare chance to purchase an attractive PL Seated Half.

PCGS# 86355 | EST: \$1,000+

**LOT 51****50C 1877-S PCGS MS64 CAC**

Since no silver dollars were struck for domestic commerce, the half dollar reigned as the largest silver denomination, and over 5.3 million half dollars fell from the dies in San Francisco in 1877.

This VERY CHOICE example has the initial visual impact of a GEM, but with close inspection using a strong glass some very minor bag marks are visible. The fields are satiny and have a strong cartwheel brilliance. The devices are sharply struck and they stand out boldly against the smooth, generally clean fields. There is just the faintest trace of iridescent russet-gold that adds to the allure and attests to the originality of this near-GEM.

PCGS 88, NGC 66, CAC 26. The last PCGS/CAC coin sold for \$1,320 three years ago. The CAC CPG value is \$1,310 and the PCGS Price Guide value is \$1,300. Both values more than double in MS65.

PCGS# 6357 | EST: \$1,200+

**LOT 50****50C 1877 PCGS MS64 CAC**

From the obverse this VERY CHOICE Mint State 1877 half dollar looks like a GEM Proof, that is how reflective the brilliant lustrous surfaces are. The reverse is more evenly textured with a bold untoned satiny frost. Generally well struck, this coin is beautiful and has a great look!

PCGS 50, NGC 42, CAC 9. No PCGS/CAC coin has sold in over 3 years, and the most recent examples sold between \$1,058 and \$1,293. The current PCGS Price Guide value is listed at \$1,300 and the CAC CPG value is \$1,310. Good luck, this coin has a great look and will see very strong bidding!

PCGS# 6355 | EST: \$1,000+

**LOT 52****50C 1880 PCGS MS64**

Here is a choice example of this low mintage half dollar issue; only 8,400 were struck. Like many low mintage issues, this coin was struck with much of the original die polish intact, leaving the surfaces with a bold reflective luster in the fields and a decent frost on the devices. The surfaces are very clean for the grade, even a glass fails to find any serious imperfections, but we believe this coin may have been professionally conserved years ago, resulting in an interesting dove-gray, lilac-silver patina that evenly covers both sides, but this scarcity retains a bold eye appeal.

PCGS 23, NGC 19. The current Collectors Universe value is \$2,000 and the most recent sold in the 2021 ANA auction for \$2,160. We think these late date, low mintage Seated halves make a neat short set for the collector, or a cool "side project" to work on.

PCGS# 6362 | EST: \$2,000+

LOT 53

50C 1880 PCGS MS66+ CAC

What an amazing, essentially PRISTINE GEM with bold claims to a SUPERB grade and even maybe a PL designation! Only 8,400 business strikes were produced and this is ONE OF THE FINEST, just two have ever graded higher. Blazing, and we mean BLAZING brilliant silver surfaces gleam and flash with a sensational luster. Sharply struck frosty devices give this GEM a nearly DCAM appearance. The eye appeal is otherworldly.

PCGS 24, NGC 11, CAC 8. There are 3 in MS66+ at PCGS, only a single 67 and single 67+ have graded finer. Back in July 2015, this coin realized \$9,124. Anything finer will easily cost into the five figures. This is bound for the FINEST of Seated Liberty half dollar sets. Good luck, bidding will be as intense as the brilliance.

Sharply impressed with excellent details and considerable mint luster intact. Prooflike reflectivity can be seen in protected areas of the design – although moderately circulated this was likely a monster coin when struck. Rich russet toning towards the rims.

PCGS 3, NGC 1. Listed in the PCGS price guide at \$900. Most recent auction appearance for the date and grade was in June 2021 for \$1,020. Relatively few survive from an original mintage of 4,400. Great piece for a type or date set.

LOT 55

50C 1882 NGC MS64+ PL

One of only 4,400 1882 half dollars struck for circulation, this is one of the precious few to ever attain the PL designation for highly reflective luster on both sides. This one is a fully blazing Prooflike example, with definite claims to a full GEM grade and were it not for a small slide mark on Liberty's thigh. The eye appeal is exceptional in every way.

PCGS 0, NGC 1. We sold a similar looking PCGS MS64 CAC in our May 2021 Regency Auction (Boylston Part 2) for \$4,348. This impressive near GEM should sell for that or more when the hammer finally falls. Good luck.

**LOT 58****50C 1885 PCGS MS67****SUPERB GEM 1885 SEATED DOLLAR**

Remarkable frosty luster and impressive strike are hallmarks of this superb gem. The reflectivity of the surfaces is stunning, and the coin is simply beautiful to behold. A modest number of coins survive in mint state from a low mintage of 5,200. Among the very finest known.

PCGS 5, NGC 0. Only a single coin finer (67+) at PCGS. Listed in the PCGS price guide at \$17,500.

The sole auction record for the date and grade was for a toned coin sold for \$9,300 in December 2018. The market is considerably stronger now for rarities such as this and competition is likely to be fierce for this prize.

Legend Rare Coin Auctions is honored to offer this EXCESSIVELY RARE and highly desirable early date Proof Seated Liberty half dollar. Perhaps only FOUR examples are estimated to have been struck, and today, PCGS CoinFacts enumerates five examples, one of which has a questionable Proof status.

Very flashy fields retain a bold mirrored reflection. There are a number of directional hairlines, lightly wiped perhaps ages ago. Steely silver coloration gives this nearly CHOICE specimen a nice look. Traces of pale gold can be found when rotating the surfaces in a light. Razor sharp in definition, the devices are crisp and have a rich frost.

Of the examples enumerated by PCGS CoinFacts, one has a questionable Proof status and one is permanently impounded in the Bibliotheque Nationale Library Collection in France. This coin is #4 on the Census and is Ex Stack's, October 1996, lot 300; George "Buddy" Byers Collection, Stack's, October 2006, lot 1113; Heritage, January 2015, lot 4141; Heritage, February 2016, lot 3238; Heritage, February 2019, lot 3615; our consignor. This is thought to be the coin that Marc Emory discovered in Europe in 1981.

PCGS 1, NGC 2. This coin is one of the NGC-graded coins having just recently been submitted for crossover. The current Collectors Universe value is listed at \$120,000 and A PCGS PR63 sold in 2002 for \$115,000. This is a VERY important coin, excessively RARE and worthy of a very advanced cabinet of Proof Seated Liberty half dollars. Legend Rare Coin Auctions is proud to offer this major early Proof Seated Liberty half dollar rarity! Only 10 are estimated to have been struck and there are about 6-8 pieces accounted for in all grades. The present near GEM is the SINGLE FINEST at PCGS!

The flashy mirrors are bold and brilliant, gleaming from under a dusting of classic, old time iridescent toning. Shades of antique peach-rose, apricot-gold, lilac, blue, and magenta violet hues really come alive at certain angles when rotated in a light. Every detail is sharply struck on both sides. The definition is razor sharp with crisp delineation all over. Both sides show minor

hairlines in the fields, which account for the assigned grade, but these are mostly toned over and have little impact overall.

Ex. Dr. H.R. Wilson; New Netherlands' 1952 ANA auction, August 1952, lot 310; Elliot Landau Collection, New Netherlands, December 1958, lot 575; Dr. James Sloss, Bowers & Merena, January 1999, lot 1137; intermediaries; Eugene Gardner Collection, via private treaty from

In the Heritage sale of the Gardner Collection, the catalogers accounted for 8 examples, including two permanently impounded in institutional collections and off the market, leaving just six available for collectors.

PCGS 1, NGC 3. This coin represents one of the NGC-graded examples, having been recently submitted for cross over. This coin sold for \$28,200 in October 2015 as an NGC-graded piece. We do not see why CAC did not bean it. The PCGS Price Guide value is listed at \$45,000 and we think this VERY CHOICE piece will sell for a very strong bid! LOT 61

50C 1847 PCGS PR63 CAC

This is indeed a VERY RARE coin for the advanced collector, as are all pre-1858 Proof coins. It is reported that 10 Proofs were struck in 1847, though perhaps 10-12 examples are thought to survive for collectors. The current PCGS and NGC Population and Censuses show a total of 17 graded in all grades, no doubt including duplication of submissions in hopes of a higher grade.

The fields are flashy and bold with liquid mercury like reflection in the fields on both sides. Every detail is crisply struck with razor sharp definition. Wonderfully CHOICE surfaces show just some minor lines and a dusting of the faintest silver-white iridescence with gentle golden accents. There are no serious contact marks or breaks in the bold reflection or on the devices. The eye appeal is exceptional and this RARITY is worthy of its CAC endorsement.

Only 10 Proofs were struck. PCGS 2, NGC 3, CAC 1. The most recent PCGS-graded example sold for \$20,125 back in the 2008 FUN auction; that coin was NOT CAC. More recently a PCGS/CAC PR64 sold for \$28,800 in November 2017. The current CAC CPG value is listed at \$23,500 and the PCGS Price Guide value is listed at \$26,000. According to the PCGS Population Report there are just 3 finer, including the above mentioned example sold in November 2017. An incredible early Proof Seated Liberty RARITY in a wonderful state of preservation. Boasting one of the most important pedigrees of all of numismatics, this near-GEM caliber specimen is a coin that is so infrequently offered, it is clearly undervalued and under appreciated in the market place today! Only about half dozen are estimated to have been struck.

Boldly reflective mirrored fields beam with a flashy watery brilliance. Razor sharp in strike with a rich frost giving this high end example a near-CAMEO like visual impression. A delicate iridescent overtone is brought to life by the deep reflection that catches the light. As appropriate for the assigned grade, as strong glass reveals a minor line or two, but the eye appeal is quite nice.

Ex Louis E. Eliasberg Collection, Bowers & Merena/Stack's, April 1997, lot 1944; Sundance Collection, Heritage, September 2008, lot 2246; The Bay State Collection, Part II, Heritage, August 2009, lot 1126; unknown intermediaries; our consignor.

Perhaps only five or six were struck. PCGS 1, NGC 0. There was another PR64 at one point, last sold in the June 2014 sale of the Gene Gardner Collection. That was so long ago! The current PCGS Price Guide value is listed at \$48,000. Just two are finer, both PR65. A coin like this is much rarer than six and seven figure classic rarities like the 1894-S dime, 1804 dollar, and the 1884 Trade dollar. Like we said these are so rare they are unfortunately overlooked, leaving them to be undervalued relative to their absolute rarity! Ex Eliasberg, as noted on the insert.

An exceedingly brilliant and reflective near-GEM example of this VERY RARE early Proof. While the mintage is not known, it was extremely small, with approximately 25 estimated to have been struck (though PCGS CoinFacts suggests a total of 35 known in all grades, which likely comes from the total number graded between PCGS and NGC and there is lots of duplication, with crossovers, upgrades, etc).

The mirrored fields have a blinding reflection with deep, bold clarity. The razor sharp devices have a thick, rich, creamy white frosty texture that stands out in stark contrast to the surrounding mirrored fields. A few ancient lines are noted with the aid of a powerful glass, but have little impact on the overall outstanding visual quality.

Ex. Dixie Land Collection, Geoffrey Charlton Adams, November 1906; John H. Clapp; Clapp Estate, to Louis E. Eliasberg, Sr. via Stack's en bloc in 1942; Louis E. A wonderful and totally original GEM Proof example of this low mintage RARITY. Perhaps 20-25 are estimated to survive from an extremely low mintage of about 25. This coin is TIED FOR FINEST graded in the designation with just a single PR67 CAM graded finer at NGC.

Ultra reflective underlying mirrors beam from below the rich teal, blue, and rose patina on both sides. The surfaces are icy brilliant and flawless. The devices are sharply struck up with razor sharp precision. A lint mark and a raised lump in the field by star 13, combined with the pattern in the rich patina serve to identify this GEM as the Philip Kaufman coin.

Only around 25 are estimated to have been produced. PCGS 0, NGC 2. The other PR66 sold in the 2013 FUN auction for \$19,975, and this coin, sold in the 2007 ANA auction (14 long years ago) for over \$37,000! Whoa! Take a look at this AMAZING GEM 1856 Proof half! The FINEST Cameo graded by PCGS, this coin is truly on the cusp of a SUPERB grade and the eye appeal is off the charts! WOW!

The mirrored fields are fully brilliant and flashy with deep reflection and clarity. The devices show complete, crisp strikes with needle sharp precision and a thick mint frost that creates a bold CAMEO contrast against the mirrors. A faint blush of the clearest gold and olive tone, is relegated to the peripheries imparting a sensational halo. A strong glass reveals some die polish lines that are mint made and resulted in the bold mirrored finish. The eye appeal is SUPERB!

50C 1865 NGC PR66 CAM

Blazingly brilliant beaming mirrors dance boldly on this blast white untoned borderline SUPERB GEM.

Struck during the last year of the Civil War, this date is EXTREMELY RARE any finer.

The contrast is amazing on this PQ GEM. Richly frosted devices stand out in stark contrast to the surrounding deeply mirrored fields.

Aside from a stray line or two, the surfaces are essentially flawless. The eye appeal is excellent.

50C 1867 NGC PR66 ULTRA CAMEO

What an AMAZING GEM! Premium quality all the way and bordering on a SUPERB GEM grade, this coin is simply out of this world! Really all we can say is WOW!

The mirrors are incredibly deep and offer the epitome of clarity and cleanliness. Icy and sleek, the glassy mirrored fields are in a wonderful state of preservation. The fields show only some minor lint marks and some planchet flakes located with a glass, there are no real post mintage issues of any kind. The eye appeal is excellent!

Only 625 Proofs were struck. PCGS 1, NGC 1. The PCGS-graded coin, last sold in 2005 may be the NGC PR67 UCAM that last sold in June 2014. This coin does not appear to have ever sold in auction. The current Collectors Universe value is listed at \$20,000. Back in 2005 the PCGS coin sold for \$35,650. Worthy of another world class collection. Bidding will be intense when this one crosses the block!

Lacteal toned over highly reflective watery-mirrored fields. Well struck with sharp definition throughout the devices. The coin is unmarred, save for some very minor lines, which are more apparent on the obverse through the soft mist of silver, and accounting for the assigned grade. Overall a delightful example for the collector.

Only 600 Proofs were struck. PCGS 53, NGC 17. The most recent NGC example sold back in 2012 for \$999. The current Collectors Universe value is listed at \$875.

50C 1870 PCGS PR65 CAM

A stunning CAMEO GEM! Extremely bold and deep mirrors beam from all over the fields. Essentially untoned, the fields show a few very minor hairlines, which are common on the delicate mirrored finish but are taken into consideration in the assigned grade. Perhaps dipped ages ago, there is a blush of soft gold at the extreme peripheral devices. The strike is bold and the contrast wonderful imparting a cool Cameo eye appeal.

Only 1000 Proofs were struck. PCGS 2, NGC 0. The most recent non-CAC sale from November 2018 brought \$4,140, with a PCGS Price Guide of \$5,500. Just a single PR66 CAM is graded finer at PCGS in the designation, this is an extremely important opportunity for the collector who demands condition census Cameo Proof Seated halves.

Flashy mirrors beam all over on this nearly CHOICE quality Brilliant Proof. Likely dipped professionally ages ago, there are some minor traces of antique patina remaining on the highly reflective watery fields. Light lines are scattered about and the devices have a trace of gloss on the high points which accounts for the assigned grade.

Only 960 Proofs were struck. PCGS 51, NGC 29. The last three examples sold back in 2018, realizing between \$780 and \$1,020 and the current Collectors Universe value is listed at \$875. This coin retains a decent look and will find itself in strong demand when it crosses the block.

Legend Rare Coin Auctions is honored to offer the SINGLE FINEST Cameo Proof that exists for the date graded by either service! Simply sensational, deeply beaming, bold, clean, and awe inspiring mirrored fields are blindingly reflective. The highly polished finish from the dies shows up in the form of some minor polish lines in the fields, but they are natural from the minting process. The surfaces are unimpeded by any haze or toning and the devices offer a thick, creamy white frost that creates a stunning Cameo contrast between the devices and the fields. The eye appeal is awesome.

In 1873, the weight of silver coins was increased, and in the case of the half dollar, went from 12.44 grams to 12.50 grams. To signify the new weight standard, like in 1853-55, arrows were added to the obverse die flanking the date.

50C 1888 NGC PR68 ULTRA CAMEO

Another SPECTACULAR SUPERB GEM DEEP CAMEO Proof in the Boylston Collection. No question this beast ranks as the FINEST KNOWN!

This coin's eye appeal and quality is simply stunning! Rare in this classification, PCGS and NGC combined have graded seven in the Deep/Ultra Cameo designation, this one is the FINEST by a wide margin! Stark black and white DEEP CAMEO contrast is eye arresting and is nearly blinding. The deeply beaming mirrors are exquisitely well preserved and offer bold clarity and cleanliness. The fields are icy sleek with a bold, flashy reflection. The devices are thickly frosted and stand out in 3D effect like an iceberg above the surfaces of a deep ocean. As expected for this amazing high grade, the surfaces are PRISTINE and the eye appeal is amazing.

Only 800 Proofs were struck. PCGS 0, NGC 1. Off the market since July 2003, this coin is absolutely amazing and worthy of a world class set. Since PCGS has graded nothing finer than PR65+ DCAM, there is no Collectors Universe value for such a high grade, and no D/UCAM examples in any grade have sold in auction since 2005. If you are building a top pop set, a Type set, or just buy neat coins, this is one you need! It is a once in a life time opportunity. One of Anthony Paquet's famous half dollar Patterns.

This Seated Liberty design was also employed as a concept for a double eagle design. Liberty sits upright one hand holding up a union shield, the other a fasces.

This design embodies a strong national bearing, as does the perched eagle reverse design, with ribbon inscribed E PLURIBUS UNUM, seen on the J-222 rarity offered in the previous lot. Listed as Rarity-6, struck in silver with a reeded edge.

A brilliant intensity of the reflective untoned mirrors are a delight to behold. Virtually untoned the surfaces are clean and free from distractions, save for the mint made die polish lines. The design elements are sharply impressed and nicely frosted, contrasting nicely against the fields. The eye appeal is bold.

in silver with a reeded edge, the Judd-342 is listed as a Low Rarity-7, with perhaps 7-12 known in all grades.

This black and white deeply mirrored and contrasted Cameo Proof is SUPERB in its quality and eye appeal. The fields are blindingly reflective and possess a bold, depth of clarity that is simply stunning. The devices, with a sharp strike and thick mint frost stand out in stark contrast to the essentially flawless mirrors.

The eye appeal is amazing!

PCGS 0, NGC 1. While this coin sold in the 2017 ANA auction for \$14,100, in our opinion, this coin is nicer than the Simpson coin that sold in January 2021 as a PCGS PR67 CAM CAC for \$20,400. The current Collectors Universe value is listed at \$22,500. **LOT 109****50C 1807 LARGE STARS, 50 OVER 20. PCGS AU58 CAC**

This is a lovely O-112 in a great collector grade. Nearly full, satiny mint luster glows vividly on the obverse, with a nice steely-silver in the centers and light blue-gray at the rims. The reverse is awash in a similar blue-gray tone with delicate golden-apricot tones. Sharply struck up on both sides, the dies were clashed and the reverse was cracked. There are some very minor contact marks that blend in and are of little import to the great eye appeal of this very nice AU58 early Capped Bust half dollar.

PCGS 40, NGC 24, CAC 19. The last one sold for \$5,520 in November 2020. Prior to that, examples have sold between \$5,040 and \$8,327. The current PCGS Price Guide value is \$6,500 and the CAC CPG value is listed at \$6,470. Rare in Mint State, this is a perfect coin for the collector, AU58 is the most popular grade for this always popular series.

O-101. Wow do we wish all AU55s looked like this!

Retaining more than 60% of the original luster that radiates boldly all over with a shimmering silver vibrance. Sharply struck from cracked and clashed dies, this coin has only a hint of friction from a very brief stay in commerce. A blush of pale gold accents the brilliant original silver surfaces. This gorgeous near-Mint State 08/7 is housed in an old green tag holder.

PCGS 22, NGC 18, CAC 6. The last one sold in January 2018 in a Mail Bid auction for \$3,300. The CAC CPG value is \$3,160 and the PCGS Price Guide value is listed at \$3,000. Scarce finer, this is an excellent example for the collector.

A Condition Census O-107a, easily identifiable by the dramatic die cracks on the obverse. Gorgeous original gold, olive, and slate-blue toning on both sides. Boldly lustrous and very attractive. We are not sure what kept this near-GEM piece from getting CAC-approval, the eye appeal is bold and the quality is all there.

PCGS 90, NGC 106. The last two examples sold in the recent 2021 ANA auction, realizing \$5,760 and \$4,560. This O-107a does not appear to be listed in the AMBPR's list of prices realized. Scarce finer, this is a great type coin!

50C 1887 PCGS MS67 CAC

A truly remarkable SUPERB GEM that ranks near the very apex of the PCGS Population for this extremely low mintage late date Seated Liberty half dollar. Only 5,000 were struck for circulation as the mint continued to focus its efforts on churning out millions of Morgan dollars.

This is a gorgeous example, a coin whose quality defies what could logically be expected to exist; that a single MS67+ is graded higher is a shock! The quality of this luster

GEM is as struck and mint fresh!

50C 1888 PCGS MS67 CAC

This is an AMAZING survivor from a low mintage of just 12,000. It is tied for FINEST GRADED at PCGS and is a marvelous example! Incredible, essentially flawless surfaces are bold and brilliant with a thick, satiny mint frost. Pearly silver surfaces gleam with just a hint of golden iridescent toning at the peripheries. Generally sharp in strike with virtually complete details all over. Struck from clashed dies, the clash marks are all you see with the aid of a glass. The eye appeal is wonderful!

50C 1860 PCGS PR66 CAM CAC

We love this high end GEM. Last selling in our July 2018 Regency Auction, where we described it as:
“Why in the world did PCGS not + this coin? We unhesitatingly grade it a PR66.8+. Its closer to a 67 than a 66 for sure!

Incredibly deep mirrors are really close to ultra status. The mirrors are remarkably clear and are exceedingly clean. We used a strong glass and found nothing even tiny to report. When you twirl the coin the mirrors look like a watery sheet of aluminum. Pretty neat. We do believe this coin is totally original. The contrast is above average and is bold. Both sides have identical and original gorgeous rim toning of blue/violet/gold bands by the rims. Some light violet/gold bleeds into the parts of the centers. The eye appeal is stunning!”

Only 1,000 Proofs were struck. PCGS 6, NGC 3, CAC 5. The current PCGS Price Guide value is listed at \$18,000 and we think this coin will end up bringing around that level, it is that high end! This is the SINGLE FINEST GRADED 1860 Proof half dollar in the non-CAM designation and is the FINEST with CAC approval in any designation.

An immaculate ultra high end and PERFECTLY preserved SUPERB GEM. The mirrored fields are icy and glassy with bold, brilliant, ultra reflection. The devices are incredibly sharp and frosty with a near CAMEO contrast seen on both sides. Marvelously toned surfaces are awash in majestic royal purple, soft azure, peachy-rose, and hints of sage-green at the periphery. The reverse has splashes of fuchsia in the central areas. The smooth, glassy fields are extremely clean and devoid of any flaws of any kind! What a MONSTER!

WOW, was PCGS conservative when they graded this near-GEM. Do not just take our word for it, but CAC's gold bean clearly is justified on this marvelous turn of the century Barber half dollar. It would not be a shock if this coin came back MS65 (no guarantees, but the surfaces are clean and sleek, we will let you be the judge). Richly lustrous with a lovely pearly silver-gray and pale gold overtones. Sharply struck and very clean, this coin, housed in an old rattle holder has a great look.

**LOT 125****50C 1908-O PCGS MS65 GOLD CAC**

An incredible GEM, SUPERB in quality and eye appeal, this 1908-O Barber half is stunning in its PCGS Generation 1.0 "rattler" encapsulation, meaning that it was graded in the very first few days of coin grading at PCGS. These holders are VERY RARE and highly desirable in today's market, even common coins bring HUGE premiums. A scarce Gem type coin, that is very conservatively graded, as seen by CAC's coveted GOLD bean.

The surfaces offer an impressive satiny frost and billowing mint brilliance. The gleaming luster accents the mottled golden-olive, russet-tan, and pearly-silver surfaces. Generally well struck with bold definition throughout, save for some minor weakness in the central reverse. A couple of very minor ticks are seen with a strong glass, but they do not detract. While we cannot guarantee it, we have seen MS67 examples that match this SUPERB GEM's quality and visual allure.

PCGS 43, NGC 36, CAC GOLD 1. In MS67, the CAC CPG value is \$15,600 and the PCGS Price Guide is \$14,500. For the Barber half dollar collector, this GEM offers a superb look and quality. For collectors who covet CAC gold stickers, this is the only GEM 08-O half that has been awarded that honor. Finally, for those who collect early and RARE generation slabs, you know how hard these are to find! One look at this AMAZING SUPERB 1936 and you can clearly see why this coin was chosen for this WORLD CLASS collection. Everything about it screams quality and eye appeal.

The fields are exceptionally brilliant and flashy. The mirrors are boldly reflective and are sheer perfection to the naked eye, and the cleanliness stands up to intense magnified scrutiny with a strong glass. The devices are razor sharp and stand out boldly with wonderful semi-glossy frosted texture. Head on this SUPERB GEM has an untoned, brilliant silver coloration, but as you rotate it in a bright light, a hint of pale iridescent toning can be seen near the rims. From a technical quality, this coin is incredible, and from the stand point of eye appeal it is beyond excellent.

After a hiatus of 21 years, the mint began striking 5-coin Proof Sets for collectors. In 1936 for the first year of issue saw a mintage of 3,901. Most of these were not stored well and took on ugly, hazy toning, been mishandled, etc. These are RARE in PR67 and finer, with much duplication seen in the Pops in hopes of getting an upgrade.

PCGS 68, NGC 91, CAC 28. There are just 9 graded PR67+ at PCGS and a single example graded higher. The most recent example of this date and grade to sell in auction brought \$55,200. 50C 1937 PCGS PR68 CAC

What an AMAZING coin! Intensely powerful silver white mirrors offer a delicate dusting of light iridescent white tone near the peripheral devices. The fields and devices are immaculate, free of any sort of contact or distraction, and the sole sign of age is the delicate patina. Tied with a handful of others near the top of the population with just a single coin graded finer by PCGS and practically unsurpassed in eye appeal as well as quality! A delight that will satisfy any collector who demands the absolute best there is!

PCGS 18, NGC 35, CAC 3. The most recent example to sell in auction brought a record \$60,000 in October 2020; that had been the first CAC-approved example to sell since our October 2015 Regency Auction. The current CAC CPG value is listed at \$24,000. This impressive beauty will see strong bidding and is worthy of any TOP TIER Registry Set. Good luck.

50C 1938 PCGS PR68 CAC

An EXTRAORDINARY quality Proof 1938 Walker! This SUPERB PR68 is tied for second FINEST graded at PCGS, with just two in PR68+ finer.

Extremely well preserved, the surfaces are essentially FLAWLESS! The mirrors are deep and watery, beaming all over with a liquid mercury, chrome-like brilliance and reflection. Even with the assistance of a strong glass the quality stands up, flawless and pristine; we can find no flaws anywhere. Peripheral greens, golds, purples, and brilliant yellow really scream when the light hits the extremely brilliant mirrored surfaces. This coin has the most stunning visual allure, a coin that has to be among the absolutely most beautiful example we have seen or handled.

PCGS 21, NGC 58, CAC 8. The most recent example sold for \$26,400 in October 2020; this coin has been off the market since the May 2015 sale of the Eugene Gardner Collection, where as an NGC PR68 CAC it sold for nearly \$10,000. The Price Guide values are all out of whack, but this marvelous survivor will see really strong bidding. This coin is simply amazing, no words can adequately portray its quality and eye appeal, but once you lay your eyes on it, you will know how special it is! Bid accordingly.

50C 1939 PCGS PR68 CAC

While not rare in an absolute sense, the 39 Proof Walker is very rare in such a lofty state of preservation and they rarely come with attractive toning. This SUPERB GEM is tied for second HIGHEST graded at PCGS, with just two in PR68+ graded higher.

Virtually perfect! The quality is OUTSTANDING in every way! Deeply reflective mirrors beam boldly from all over and have a great flash. Totally original, this beauty offers a pale iridescent toning on both sides. Unlike many “original” examples this beauty is not all hazy and dull. Pale yellow-gold, soft pink, delicate green, and iridescent pastel hues are brought out boldly by the STUNNING mirrors. The surfaces are flawless and the eye appeal is otherworldly! WOW!

PCGS 53, NGC 103, CAC 21. The most recent PCGS/CAC coin sold in our April 2021 Regency Auction for \$7,638; prior to that, one sold for \$7,800. Clearly the price guide values are not correct. Only two have ever graded finer, and one sold in April 2020 for \$40,800! This amazing coin seems like a great value to us! Good luck!

Tied for FINEST graded at PCGS and this is an old friend, last sold in our May 2018 Regency Auction, where it was described as:

“There are no words to describe how wild the WOW factor is here! Of the thousands of Proof Walkers that exist, this coin is by far one the VERY BEST that exists in terms of color, quality and eye appeal. BOTH PCGS and CAC agree! Glassy deep mirrors beam boldly from all over. The mirrors are not just clean, they are flawless. They have great clarity and reflection. Mother Nature could not have created a more killer coloration. Incredible and totally original tissue paper type colors of gold/golden brown/violet/amber/pearl green and blue swirl all over. Miss Liberty and every detail are needle sharp in strike and stand out. The eye appeal is not only jaw dropping but is one you will never forget!”

An incredible quality SUPERB GEM, one of the FINEST KNOWN examples of this popular and final Proof Walker date.

Blinding, chrome-like mirrors beam with a quick-silver, liquid mercury brilliance and reflection. The mirrors are deep and offer the utmost clarity and are the epitome of cleanliness! Neon gold and blue iridescent toning is dusted across the surfaces deeper at the peripheries and more untoned on the centers. The flashy fields really bring out all the beautiful colors, especially as you twirl the coin in a light. The sharply struck devices are glossy and stand out boldly. The eye appeal is jaw dropping gorgeous and is probably the nicest example we have handled!

PCGS 88, NGC 209, CAC 48. There are 10 in PR68+. This is not the one we sold in April 2019 for \$19,388. The current Collectors Universe value is listed at \$20,000. We are NOT out of line comparing this MONSTER to the wildly toned Simpson coin that sold for \$60,000 in August 2021. Just a single PR69 is graded finer at PCGS, a coin that has been off the market for over 16 years making this one of the FINEST you can ever hope to obtain! Legend Rare Coin Auctions is proud to offer this extreme example of a 1950 Proof Franklin. Experts agree this coin has some of the deepest mirrors possible!

Anyone who collects Proof Franklin half dollars knows how hard these early dates are to find in Cameo and especially Deep Cameo. The dies were given a polish at the beginning of production, and they continued to be used until all the reflective finish on the fields and frosty texture on the devices was worn away. Only the earliest of strikes retained any kind of contrast. Compounding on the quality of striking that limits grade and designation is the original mint packaging which often imparted hairlines or hazy toning.

The present DCAM GEM has the most amazing mirrors in the fields. They are truly superb in their flashiness and brilliance, with the utmost in depth, clarity, and cleanliness. There is a blush of peripheral toning framing the obverse, but it really is invisible to the naked eye, blending into the blackness of the mirrors. The thickly frosted devices stand out in the boldest contrast you will likely see on any 1950 Proof half dollar. The surfaces are essentially flawless, with an icy, glassy smoothness that cannot be beat.

**LOT 181****50C 1961 NGC PR68 ULTRA CAMEO CAC**

This is an essentially PERFECT SUPERB GEM Proof with bold, deep beaming CAMEO contrast on both sides. Flawless glassy mirrors are deep and smooth with crystal clear reflection and the devices are richly frosted, providing a bold black and white contrast. The eye appeal is dramatic!

PCGS 102, NGC 101, CAC 31. The most recent NGC PR68 UCAM CAC sold in January 2021 for \$1,500. The current Collectors Universe value is listed at \$1,400 and the CAC CPG value is listed at \$1,800. RARE finer, so this SUPERB example is worthy of a strong bid.

PCGS# 96702 | EST: \$1,250+

**LOT 182****50C 1962 NGC PR67 UCAM**

A beautiful Ultra Cameo contrasted SUPERB GEM that has a lovely golden halo that frames both sides. The eye appeal is amazing in every way.

PCGS 492, NGC 701. The current Collectors Universe value is listed at \$225, but with its stunning eye appeal it would not be a shock if this beauty sold for more!

PCGS# 96703 | EST: \$250+

**LOT 183****50C 1962 PCGS PR68 DCAM CAC**

A stunning Black and White DCAM SUPERB GEM. Incredibly deep mirrors beam all over the place, contrasting against the bold, frosted devices. The eye appeal is amazing!

PCGS 260, NGC 296, CAC 76. The most recent example to sell in auction brought \$1,225 in April 2021. We sold one in October 2019 for \$1,234, both these APRs are way above published levels. Bound for a great set of SUPERB GEM Proof Franklins. Good luck.

PCGS# 96703 | EST: \$800+

**LOT 184****50C 1962 PCGS PR68 DCAM**

Exquisite deep mirrors have a bold depth of clarity and sheer perfection. The devices are thickly frosted and stand out in stark contrast to the deep flashing brilliance of the mirrors. The eye appeal is great!

PCGS 260, NGC 296. The most recent sold for \$432 in January 2021 and the PCGS Price Guide lists a value of \$550. A great coin for a really neat DCAM set that won't break the bank.

PCGS# 96703 | EST: \$400+

**LOT 185****50C 1962 PCGS PR69 DCAM**

Sheer PERFECTION! This high end, high grade Proof Franklin is tied for FINEST GRADED! A visually impressive example with ULTRA DEEP CAMEO contrast. Exceptionally bold, exquisitely deep mirrors beam all over and provide a sumptuous contrast against the highly frosted, razor sharp devices. The eye appeal is spectacular and the quality is visually perfect.

PCGS 28, NGC 51. Twice this coin sold for over \$5,500, and the current PCGS Price Guide value is listed at \$4,750. There are none finer, clearly. Bound for a top ranked set.

PCGS# 96703 | EST: \$4,000+

**LOT 186****50C 1963 NGC PR68 W ULTRA CAM**

This coin is sheer PERFECTION! Extremely deep, sleek mirrored fields contrast against the highly frosted white reliefs. Totally UNTONED, resulting in NGC's old "W" designation. The eye appeal is amazing!

PCGS 292, NGC 242. There is a wide range of APRs, and the current Collectors Universe value is \$650 and we have no doubt this SUPERB GEM will bring that or more!

PCGS# 96704 | EST: \$600+

**LOT 187****50C 1963 PCGS PR68+ DCAM CAC**

Here is another virtually PERFECT Franklin half dollar! Tied for second HIGHEST graded at PCGS, this one is of unimpeachable quality in every way! Boasting the utmost in flawless, deep cameo glory. The mirrors are boldly flashy, beaming brilliantly against the frosted devices. The pristine surfaces are flawless and the eye appeal is amazing.

PCGS 302, NGC 248, CAC 66. PCGS has graded just 10 in PR68+ DCAM. The current PCGS Price Guide value is listed at \$1,500 and the most recent example sold two years ago for \$3,525 in our October 2019 Regency Event auction. Bid accordingly!

PCGS# 96704 | EST: \$1,500+

**LOT 188****50C 1936 ALBANY PCGS MS65 CAC**

A lovely GEM Albany half dollar in a first generation PCGS "rattler" holder. Bold frosty silver luster yields to a touch of peripheral toning. The eye appeal is quite nice.

PCGS 1614, NGC 1235, CAC 188. The most recent PCGS/CAC example sold for \$504 in May 2021. Worthy of a premium bid to add this coin to your Classic Commem set.

PCGS# 9227 | EST: \$350+

LOT 189**50C 1935/34-S BOONE. PCGS MS67**

Only 2,004 examples of the 1935-S with small 1934 on the reverse were struck, making it one of the LOWEST mintage issues of the 20th century! Needless to say, in this lofty state of preservation this is a rarity. Wonderfully satiny in brilliance, the surfaces glimmer with mint luster. Frosty, iridescent white toning with hints of gold at the periphery. The eye appeal of this sharply struck classic commemorative is great.

realizing \$1,920. The current PCGS Price Guide value is listed at \$2,400. There are a mere seven coins graded finer. This SUPERB early commem is worthy of a fantastic set and that is where we expect this to end up.

PCGS# 9264 | EST: \$2,000+

finer at PCGS, making this a great example for the commemorative collector. Good luck.

LOT 190**50C 1937 BOONE. PCGS MS67 CAC**

A wonderful SUPERB GEM Boone! Fewer than 10,000 were struck and this date is rare any finer. Soft golden accents are brought out by a thick frosty satin luster. Speckled iridescent pastel toning in the fields adds to the delightful, original eye appeal of this lustrous, well struck beauty.

PCGS 130, NGC 59, CAC 54. The most recent example of an MS67 CAC brought \$528 in March 2020. The current CAC CPG value is \$1,030 and the current PCGS Price Guide is \$675. Just 28 are graded

PCGS# 9270 | EST: \$700+

LOT 191
50C 1925-S CALIFORNIA. NGC MS67 CAC
WOW! As pretty an example of this perennially popular design as one might hope to see. Immaculate surfaces infused with an iridescent patina no doubt account for the CAC designation. Issued for the Diamond Jubilee of California's statehood following the discovery of gold in 1849.

PCGS 140, NGC 1437, CAC 81. Collectors Universe lists the value as \$1,850 and the CAC price guide value is \$2,250. An NGC CAC coin sold at auction for \$1,560 in August 2021. A candidate for a top set of original silver commems.

PCGS# 9281 | EST: \$1,500+

**LOT 192
50C 1892 COLUMBIAN. PCGS
MS67+ CAC**

What a STUNNING example of this first commemorative half dollar type!

Tied for second HIGHEST graded at PCGS, there is just a single MS68 graded finer.

A beautifully toned and spectacularly preserved SUPERB GEM. Both sides are awash in aqua, azure, lilac, violet, sky blue and amber-rose gold on both sides. The devices stand out boldly with sharp strikes and virtually flawless surfaces. The luster is incredibly vibrant, accenting the colorful surfaces. What a GORGEOUS example!

PCGS 49, NGC 50, CAC 25. There are 13 in MS67+ at PCGS and just a single MS68 graded finer. The current PCGS Price Guide value is \$9,000. The most recent example to sell was in our September 2019 Regency Auction, realizing \$7,050. The MS68 does not appear to have sold in auction, but carries a PCGS Price Guide value of \$35,000. This beauty is worthy of a top notch Registry Set, a coin that is a contender for the #1 set! Good luck.

PCGS# 9296 | EST: \$7,000+

**LOT 193
50C 1893 COLUMBIAN. PCGS MS66+**

An exceptionally vibrant and brilliantly lustrous example of this first commemorative type. Bordering on a SUPERB grade. The obverse displays an exciting palette of swirling purples, tangerine, teal, peach, and pale sea-green coming together on lustrous surfaces. While the reverse has a softer crimson-rose and pale gold patina. Well struck devices and minimally marked surfaces define this wonderful GEM.

PCGS 59, NGC 14. This coin is special because of the obverse toning, so we suspect it will sell in excess of its published PCGS Price Guide value of \$1,150. Very scarce finer, this coin will fit nicely in a superb colorful toned set of classic commemoratives.

PCGS# 9297 | EST: \$1,000+

**LOT 194
50C 1936 GETTYSBURG. PCGS MS67**

Commemorating the 1863 Civil War Battle of Gettysburg is this well-defined superb gem coin. Peripheral blue-gold toning accentuates the obverse while the reverse is blanketed in pale iridescence.

PCGS 174, NGC 99. The PCGS price guide value is \$1,800. Most recent PCGS auction price was \$1,500 in March 2021. A high-end example of this popular design for the collector of original silver commems.

PCGS# 9305 | EST: \$1,400+

LOT 195

50C 1922 GRANT. PCGS MS67+ CAC

What an AMAZING high end Grant half dollar! Tied for FINEST graded, this coin is right up there with the one we just sold in September as one of the best quality examples we have ever seen!

originality of this impressive example. The eye appeal is incredible.

PCGS 89, NGC 42, CAC 27. PCGS has graded 14 in MS67+ and NONE FINER. The only one to sell realized \$9,694 in our September 2021 Regency Auction. This wonderful coin will certainly see fierce bidding when it crosses the block. Bound for a superior quality set, and a premium bid will be required to take this one home!

PCGS# 9306 | EST: \$7,500+

LOT 196

50C 1935 HUDSON PCGS MS67

What a GORGEOUS SUPERB Hudson half dollar! WOW is this a SPECTACULAR and beautifully preserved toned GEM! Did we say WOW yet?

Stunning sunset-orange and magenta toning mingles with accents of iridescent rainbow that forms a frame along the majority of the obverse rim. The silver surfaces shimmer and gleam with a warm, rich silvery satiny sheen. The eye appeal is SUPERB in every way.

PCGS 29, NGC 35. There is a wide range of APRs recently from \$3,360 to \$5,520. The current PCGS Price Guide value is \$6,500. VERY RARE any finer, just 7 are graded finer at PCGS only one of which has ever sold in auction which brought \$22,913 in our September 2018 Regency Auction. Do not let this beautiful GEM pass you by! Good luck.

PCGS# 9312 | EST: \$4,000+

LOT 197

50C 1936 LONG ISLAND. NGC MS66 GOLD CAC

What a FABULOUSLY toned SUPERB GEM Long Island half dollar. Everything about this coin is simply amazing and high end. Even CAC agrees, awarding this undergraded beauty its coveted GOLD bean. Both sides are bathed in the richest tangerine-gold and violet toning we have seen on one of these in quite some time. Totally original and fresh to the market, this SUPERB GEM is still housed in an old NGC "fatty" holder and has not been submitted for upgrade or cross over.

PCGS 517, NGC 373, CAC Gold 1. We sold a similar toned PCGS MS66+ CAC in Regency Auction XVI for \$1,821. This coin will likely sell for more. Good luck!

PCGS# 9322 | EST: \$1,600+

**LOT 198****50C 1936 LONG ISLAND. PCGS MS67 CAC**

Superb multi-colored iridescent toning that deepens towards the rims highlight this memorable gem. Popular with collectors of New York related historical designs as well as collectors of coins that depict sailing ships.

PCGS 95, NGC 80, CAC 60. Listed in the PCGS price guide at \$1,500. Among the top examples of this date with only 42 graded higher. Destined for a top set of original silver commemoratives.

PCGS# 9322 | EST: \$1,000+

**LOT 199****50C 1923-S MONROE. PCGS MS66+ CAC**

The 23-S Monroe half dollar is not a rare issue with a mintage of 274,077, but it is one of the more poorly made early commemorative issues and rarely comes nice. This borderline SUPERB GEM is the exception to that rule. Sharply struck for this notoriously weak issue and offering a bold luster, this coin has a strong visual allure. Pleasing antique peripheral toning frames both sides. The eye appeal is unimpaired by any of the very minor traces of contact that account for the assigned grade. For an issue usually lacking in eye appeal, the present coin is an outstanding example with bold visual quality.

PCGS 129, CAC 70, CAC 24. There are 17 at PCGS in MS66+ and just 14 graded finer. The most recent sold for \$3,120 in December 2019 and before that, one sold in October 2019 for \$4,560. The current PCGS Price Guide value is listed at \$3,500 and any MS67 will sell for five figures. Worthy of an AMAZING set of Classic Commemoratives and bidding will be intense.

PCGS# 9333 | EST: \$3,200+

**LOT 200****50C 1936 NORFOLK. PCGS MS67 CAC**

Satin luster graces this impressive SUPERB GEM Norfolk half dollar. This well struck example boasts a delightful blend of iridescent patina at the obverse rims, which features a lovely, vibrant pink hue near the date. The tall ship in the central obverse really stands out boldly against the essentially flawless surfaces.

PCGS 1195, NGC 732, CAC 436. The PCGS Price Guide and CAC CPG value are \$525. Worthy of a strong bid.

PCGS# 9337 | EST: \$500+

**LOT 201****50C 1936 NORFOLK. PCGS MS67 CAC**

An impressive SUPERB GEM with wonderful original tab toning. Wonderful luster blooms on both sides of this sharply struck Norfolk.

PCGS 1196, NGC 733, CAC 437. The current PCGS Price Guide value is listed at \$525. This one is very attractive and should see active bidding. An affordable low mintage type.

PCGS# 9337 | EST: \$500+

**LOT 202****50C 1936-S OREGON. PCGS MS67 CAC**

Lustrous and white with a hint of golden toning towards the rims, particularly on the reverse. Notable strike showcases the artistry of the United States Mint and a quintessential American design commemorating the westward expansion of the mid 19th Century.

PCGS 192, NGC 161, CAC 110. PCGS price guide value is \$900. Most recent PCGS CAC auction record was \$810 in September 2020. Sure seems like a good value for such a beautiful design in high quality. Bid strongly!

PCGS# 9346 | EST: \$850+

LOT 203**50C 1938-S OREGON. PCGS MS67+ CAC**

What a very high end and beautifully preserved SUPERB GEM! Every detail is boldly and crisply struck up with full, complete definition. The devices stand out with exacting precision; they look like they were chiseled by hand! An autumnal orange and gold hued coloration, combined with a rich, frosty luster makes the devices seem to stand out in even fuller relief. The eye appeal is wonderful!

PCGS 302, NGC 183, CAC 112. There are 31 in PCGS MS67+ and fewer than two dozen graded higher. A similar toned example sold in our September 2019 Regency Auction for \$1,704. This is a wonderful SUPERB GEM survivor of this low mintage, and ever popular commemorative type.

PCGS# 9350 | EST: \$1,200+

**LOT 204****50C 1938-S OREGON. PCGS MS68**

Only 6,006 examples were struck and this is one of the HIGHEST GRADED 38-S Oregon Trail halves seen by either service. The technical quality and visual allure are both sublime! Exceptionally sharp in strike and definition on both sides. The surfaces have a wonderful frosty, satin sheen that glows boldly on both sides, accenting the golden-olive patina that graces the lustrous surfaces and gives depth to the strike. The eye appeal is unmarred by serious contact, we really do not see what CAC saw that precluded approval. Regardless, this coin is exceptional quality!

PCGS 21, NGC 34. This is not the one we sold in October 2020 for \$5,288. Considering the infrequency of appearances, and the prices realized, we feel the Collectors Universe value is just not right. Only two in MS68+ are graded finer, making this SUPERB GEM a grand selection for a world class commem set! Good luck.

PCGS# 9350 | EST: \$4,500+

LOT 205**50C 1937 ROANOKE. PCGS MS67+ CAC**

High end and visually very impressive. This is a Roanoke truly worthy of its lofty grade, as it is in a beautiful state of preservation. Light tangerine-rose and winter-green overtones are dusted over the satiny lustrous surfaces. Sharply struck up devices stand out, Sir Walter Raleigh's collar is very bold and stands out in stark relief. The eye appeal is exceptional!

PCGS 494, NGC 276, CAC 210. There are 88 in MS67+. The most recent example sold for \$990 in May 2021 and before that, one sold for \$1,080 in January 2021. The current Collectors Universe value is listed at \$1,200. There are just 30 graded finer and a PCGS/CAC coin is worth between \$7,500 and \$10,000. This is a great example for a Classic Commemorative collector and worthy of a superb set.

PCGS# 9367 | EST: \$1,000+

LOT 206

50C 1926 SESQUICENTENNIAL. PCGS MS66+ CAC

We are honored to offer one of the FINEST Sesquicentennials that exists! There are none graded finer by PCGS and this coin is SPECTACULAR!

As a type the Sesquicentennial half dollar, with its dished fields often comes with shallow, soft strikes and lack luster surfaces. It really is interesting to consider that despite a generous mintage of 141,120, relatively few survive in GEM grade, and NONE have graded in the SUPERB grades. WOW!

This is the opposite of what a typical Sesqui looks like. An intense flashy semi-reflective luster is vivid and dazzles the viewer. A blush of iridescent and pearlescent pastel toning graces the surfaces mostly near the peripheries, but flowing in toward the centers also. The strike is sharp on both sides, particularly on the reverse, where the bell lines are full and crisp. The surfaces are delightfully free of all but the most microscopic of contact marks, none worthy of mention. This MS66+ is certainly closer to a 67 than a 66!

PCGS 21, NGC 36, CAC 9. There are 4 in MS66+ and NONE FINER. The only other one to sell in auction brought \$21,600 in August 2020. The current Collectors Universe value listed at \$24,000 and with its fantastic eye appeal and awesome quality, it may sell for more. Superb GEM Sesquis like this are GROSSLY UNDERvalued in our opinion-you won't. Try and find another. Bound for a WORLD CLASS collection of classic commemoratives!

PCGS# 9374 | EST: \$22,000+

**LOT 207****50C 1935 SPANISH TRAIL. PCGS MS67**

With a mintage of 10,008, the Spanish Trail commemorative half dollar is one of the lowest mintage types in the 50-piece type set, and its "cow head" design (a play on the name of Alvar Nunez Cabeza De Vaca) is always popular. Richly frosted and sharply struck this coin is worthy of its MS67 grade, devoid of any serious contact. Pearly silver with pewter and slight golden hues enhance the eye appeal of this GEM.

PCGS 186, NGC 114. The most recent example to sell in auction realized \$1,939 in our April 2021 Regency Auction. The current PCGS Price Guide value is \$2,250. RARE any finer.

PCGS# 9376 | EST: \$1,800+

**LOT 209****50C 1938-S TEXAS. PCGS MS65 GOLD CAC**

Clearly this undergraded GEM 38-S Texas stayed with its Philadelphia mint sibling since the time of issue; it is an exact twin to that coin in color, strike, cleanliness, and luster. The eye appeal is excellent. Only 3,814 were struck, and this GEM is housed in an old green tag holder.

PCGS 479, NGC 331, CAC GOLD 1. This coin sold in June 2021 for \$1,020, which is essentially MS67 money. Worthy of a close look, especially if you are working on a GOLD CAC Commem set. Good luck.

PCGS# 9396 | EST: \$800+

**LOT 208****50C 1938 TEXAS. PCGS MS65 GOLD CAC**

Richly toned, totally original and undergraded, as evidenced by the CAC Gold bean. Clearly this Premium GEM sat undisturbed for decades in the original holder, before being graded along with the 38-S that follows. Sharply struck devices stand out against the problem free surfaces. Satiny

brilliance radiates through a lovely rich sunset orange-tangerine toning. Accents of the rich original silver on the sharp details. Housed in an old green tag holder.

PCGS 458, NGC 336, CAC GOLD 4. This coin sold in June 2021 for \$900, which is about the level for a 66+, but we will let you determine what its worth.

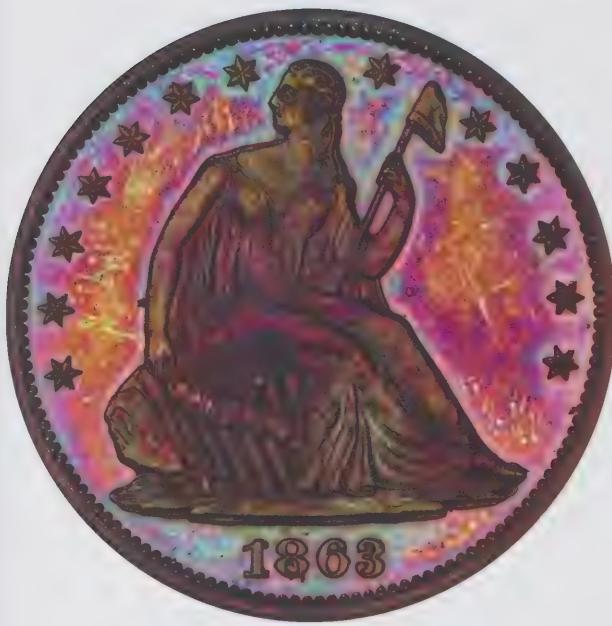

PCGS# 9394 | EST: \$800+

**LOT 210****50C 1952 WASHINGTON-CARVER. PCGS MS66+ CAC**

Totally original and very lustrous, this is a lovely, borderline SUPERB GEM Washington-Carver half dollar. Hints of iridescent, mottled toning can be seen when the surfaces are rotated in a light. The striking definition is bold and the conjoined busts of George Washington Carver and Booker T. Washington are crisply defined. Struck during the early Cold War era, at the height of Senator Joe McCarthy's hunt for communists in the United States, the Washington Carver half dollar was created in an effort to keep communism from spreading into the African-American community. This effort can clearly be seen in the reverse motto: AMERICANISM **FREEDOM AND OPPORTUNITY FOR ALL**. While the mintage was over 2 million pieces, there was no special care taken when these were sold and SUPERB grade coins are quite RARE.

PCGS 457, NGC 350, CAC 131. PCGS has graded 59 in MS66+. The current PCGS Price Guide value is \$475, but it would not surprise us if this beauty sold for more. Only 40 examples have graded MS67 or finer, inclusive of duplicates.

PCGS# 9434 | EST: \$450+

LOT 211

50C 1863 J-339. PCGS PR65 RB

A beautifully toned GEM example of this "transitional" pattern half dollar.

Struck from an 1863 obverse and reverse with a ribbon, similar to the adopted post 1866 with Motto type, but it says GOD OUR TRUST, not IN GOD WE TRUST. Struck in copper with a reeded edge, this is a scarce issue, listed as Low Rarity-6. Struck for collectors and sold in off-metal sets, there are about two dozen examples known in all grades, the present one being the finest graded in the RB designation.

VIVIDLY TONED, GEM surfaces have a bold underlying reflection that amplifies the wonderful violet, rose, blue, and olive-gold patina that covers a rich brick red underlying surface. Sharply struck up, the devices are frosty, giving it a near CAMEO look, especially on the obverse. The eye appeal is stunning!

PCGS 1, NGC 1, CAC 1. This is all one coin, the present coin last selling in the 2019 ANA auction for \$8,400 as an NGC/CAC coin. Not Priced in the PCGS Price Guide, this GEM will again see very strong bidding when this one crosses the block. More visually alluring than the Eliasberg-Simpson PR666+ BN. Good luck.

50C 1870 J-989. PCGS PR67+ RB CAC

Ex Larry Shepherd Collection, as noted on the insert.

WOW, WOW, WOW! This is by far the FINEST J-989 that exists, and is one of the HIGHEST graded Standard

Silver patterns regardless of Judd number! This coin is a BEAST! J-989 shows Liberty with her hair tied in a bun, with lower flowing locks at the shoulder. A ribbon with

LIBERTY and a single star at the front ties her hair back. Struck in copper with a reeded edge, this is a very challenging low Rarity-7 Standard Silver pattern half dollar. As one would expect for a coin in such a lofty state of preservation the surfaces are immaculate! Flawless, ultra reflective mirrored fields are flashy and brilliant with bold depth of clarity. Incredible RED color shows light violet overtones on the reverse. The edges of the razor sharp devices show fancy pull away toning that leaves the outlines in gold. Aside from a tiny planchet flake and a microscopic fleck or two, this coin is FLAWLESS!

PCGS 1, NGC 0, CAC 1. Keep this in mind, the world famous Bob R. Simpson Collection contained the former Bass coin, graded a full 1 1/2 points lower and there was not much red left on that iridescent toned PR66 RB and was not CAC. That coin is now on the market for \$10,000. The PCGS Price Guide value in PR67+ RB is \$15,000. If you are looking for one Standard Silver pattern, this coin should be it!

LOT 213

\$1 1776 CONTINENTAL, CURRENCY. PCGS MS63 CAC

Ex Donald G. Partrick Collection as noted on the insert.

This is an amazing, CHOICE MINT STATE example of this ever popular type, one of the nicest and most original we have ever seen in our decades of experience! This is one of those coin types that has always intrigued collectors of all experience levels as they flip through their Red Books.

Warm, even pewter-dove patina graces the surfaces of this semi-reflective and sharply struck Continental Dollar. Exceptionally well struck, all the details are boldly rendered. Even with the aid of a strong glass, we are unable to locate any serious marks or ticks, issues that often plague these soft metal coins. The eye appeal is truly sensational!

Struck from the Newman 2-C die pair, which is also listed as W-8455, Hodder 2-A.3, Breen-1092, is a Rarity-3 die marriage, but it needs to be noted that many of these are lower grade or have flaws that would preclude grading. This coin is so high end that Mr. Partrick's envelope noted "if not, then--one of the Finest Known!!" Struck in a pewter alloy of 81% tin, 16% lead, 2% antimony, weighing 253.6 grains. This variety has the word CURRENCY spelled correctly, and does not have E.G. FECIT below the sundial. The motifs are taken from contemporary Continental Currency banknotes, issued by the Continental Congress and had designs inspired by Benjamin Franklin. The obverse design of the sun shining down on a sun dial, with the words FUGIO (I fly in Latin) and MIND YOUR BUSINESS, is a metaphor, interpreted as Time flies so take care of your priorities. The reverse has 13 interlocking chain links with the names of each of the 13 newly united states. AMERICAN CONGRESS and WE ARE ONE fill in the central device.

Continental dollars as they are known come struck on three different planchet compositions, silver, brass, and pewter. The silver strikings are EXCESSIVELY RARE, with just 4-5 known in all grades. Brass examples are VERY RARE with perhaps a dozen known. Pewter specimens are represented by a few hundred or so in all grades and varieties. The traditional theory advanced for ages by Eric P. Newman was that these were struck in New York or Philadelphia to circulate alongside the Continental notes. However, modern research by David McCarthy and Erik Goldstein suggests that these were actually struck in Europe. Their theory is supported by the fact that no contemporary records exist of these coins being struck by authority of Congress, nor are there any surviving articles, letters, etc mentioning them in newspapers or correspondence of the era. Indeed the first published reference to Continental Currency coinage is from a 1783 German publication. Regardless of their actual origin, the Continental Dollar is long regarded as a classic piece of American numismatic history, and the inclusion of any example in any grade brings up the stature of any coin collection.

Ex. Donald G. Partrick Collection, Heritage, January 2015, lot 5841; earlier ex.Ted L. Craige, private purchase, May 18, 1971.

PCGS 7, NGC 3, CAC 4. The last PCGS/CAC example of this variety sold in June 2011 for \$115,000—that was a decade ago. Do not let the pops fool you! The current PCGS Price Guide value is \$140,000. PCGS has only graded 3 coins finer, all MS64, the most recent of those selling in August 2012 for \$223,250. A real prize, and a collection center piece worthy of the the finest of cabinets! circle of 13 stars make up a wonderful metaphor of God's all seeing eye watching over this new nation (constellation) of 13 states. The patina is warm and even, the eye appeal is exceptional for an example of this type.

PCGS 10, NGC 4, CAC 1. This coin last sold in November 2013 for \$1,293 and the current PCGS Price Guide value is listed at \$1,300. What a neat type coin, worthy of any colonial or pre-federal copper type set.

of dies, the rings from the reverse design boldly impressed along the periphery, especially on the right side. A die crack at the bottom of the reverse assists in the attribution of this variety. The lower portions of the design are slightly soft in strike which is common for the issue. The surfaces are hard and intact, free of any corrosion or planchet fissures that so often plague this series.

**FUGIO 1787 STATES UNITED, 4 CINQ. PCGS
MS64 RB**

Newman 11-X, W-6790, a Rarity-4 die pairing. What a great example of this type in VERY CHOICE Mint State grade. According to the Whitman Encyclopedia on Colonial Coins, about 132 were a part of the famed

Bank of New York Hoard in 1948. With its lustrous surfaces and ample original red in the protected areas and warm brown overtones this coin likely hails from that source.

This is a classic type, struck under authority of Congress in 1787. The design types, adapted from Revolution era Continental Currency paper currency were inspired by Benjamin Franklin. The obverse legends, FUGIO, MIND YOUR BUISNESS and the sundial in the center is interpreted to mean "time flies, so pay attention to your affairs." The reverse shows 13 interlocking links, representing the union of the 13 states.

PCGS 29, NGC 4. The most recent MS64 RB Fugio copper realized \$5,520 in April 2018. The current PCGS Price Guide value is listed at \$6,000. These historic coins are always popular, and as one of the few affordable colonial and confederation era types in Mint State, they are highly desirable. This CHOICE Fugio is worthy of a very strong bid.

LOT 216

**FUGIO 1787 UNITED ABOVE STATES. PCGS MS64 BN
CAC**

A VERY RARE Rarity-6 variety of the always popular Fugio copper series. The Newman 11-A, W-6780 variety is attributed by the UNITED over STATES on the reverse.

Tied for FINEST example of this important variety in the Brown category at PCGS. Glossy lustrous, hard mahogany surfaces have a strong mint brilliance that really brings the sharply struck devices to life. The details are wonderfully crisp. There are some minor hints of planchet slag, caused by impurities in the metal on the reverse, but they are not overly distracting to the naked eye. Minor die clashing is seen on the reverse, in the rings. The likely cause of the rarity of this Newman variety is the bisecting die crack across the reverse from 2:00 to 8:00. There are no serious marks or post minting issues of any kind, even the slag, which is mint made is not corroded or has any signs of any environmental issues. The surfaces are hard and glossy. The eye appeal is SUPERB!

This is a variety that usually only appears when important collections of colonial issues are sold. Prior auction appearances for Mint State examples include:

PCGS MS66 RB . Laird Park-Archangel Collection, Stack's Bowers, October 2018, lot 7142;
PCGS MS64 RB. Ted Craige, Stack's Bowers, January 2013, lot 11583; NGC MS64 RB. Eliasberg-Partrick, Heritage, April 2021, lot 3031; PCGS MS64 BN CAC. the present coin, sold in the 2017 ANA auction, no prior pedigree recorded; NGC MS64 BN. Eric P. Newman, Heritage, November 2017, lot 15056; PCGS MS63 BN. Lauder-Ayers-Poulos, Heritage, September 2019, lot 4583.

PCGS 6, NGC 1, CAC 1. The most recent MS64 BN Newman 11-A to sell was the NGC Newman coin, which sold in November 2017. This coin sold four years ago for \$30,550. We expect that level to be surpassed when it crosses the block. In the last few years there has been a "generational turnover" which has brought many important collections to market. Now that they are dispersed, collectors will have to wait long periods of time to get the chance to own one. Do not let this opportunity get away from you. Good luck!

Silver Restrike, Engrailed Edge. W-10380, Baker-3A, Musante
GW-1067. Considered to be Rarity-5, this is one of the FINEST KNOWN examples of this popular Washington piece. Struck circa 1860, this is a fantastic looking GEM!

Watery reflective silver surfaces gleam boldly under a wonderful mixture of violet, orange, blue, teal, and magenta toning. Razor sharp

in strike from rusted dies. The eye appeal of this GEM is simply amazing, a coin that clearly sat for ages in an old paper envelope where it was allowed to take on this sumptuous color. WOW!

PCGS 1, NGC 0. The current PCGS Price Guide value is \$9,500. A PCGS PR65 sold for \$10,575 in June 2017, and there is a single PR67 finer, a coin that has been off the market for nearly a decade (a coin that is dipped out white and cannot come anywhere near the wonderful originality of this GEM). Worthy of an AMAZING collection of Washington pieces.

A near-GEM Draped Bust half cent with a great look and fantastic pedigree. High end and boldly lustrous with a lovely satin gleam. Rich, original golden brown surfaces show accents of olive and steely-brown patina which blend with very subtle hints of faded original mint color. The devices are generally very well struck for an early copper. Close inspection does reveal a few scattered teeny ticks.

1/2C 1833 C-1. NGC PF66 RB CAC

Ex. H.P. Smith and Donald G. Partrick Collections, as noted on the insert.

This is a very interesting example of this very rare Proof half cent issue. Tied for FINEST graded by either service in the RB classification, this C-1 is struck from a very late die state, Breen State IV, Manley State 1.0. In the New Netherland June 1967 catalog, this coin was described as one of the last Proofs struck, produced from severely clashed and cracked dies. Despite the late die state, the fields retain bold reflective surfaces. There is NO question it is a Proof. The color is a warm brick red mellowing to a soft brown with violet and pale blue patina on both sides. The sharply struck devices are quite lovely. The die cracks that connect the stars on the left and die clashes at the central reverse add to the character and charm of this important Proof early copper.

Ex. H. P. Smith Collection, S.H. & H. Chapman, June 1906, lot 598; George Robling Collection, New Netherland's 59th Sale, June 1967, lot 1159; Donald G. Partrick Collection, Heritage, April 2021, lot 3721.

A remarkably well preserved and impressive example of this early semi-KEY date Lincoln. Tied for FINEST in the RB category by PCGS. Mostly brilliant original RED with just a hint of mellowing. Hints of gold and soft iridescent toning are brought to the fore by a vibrant original luster. The devices are sharply struck and the surfaces are essentially flawless!

PCGS 3, NGC 4, CAC 2. The current CAC CPG value is \$4,500 and the Collectors Universe value is listed at \$4,750. In late 2019 there were two PCGS MS66 RBs sold, one for \$3,840 and one for \$3,720. We think in this market it will sell for closer to the published prices. Good luck!

LOT 250**1C 1914 PCGS MS66 RB CAC**

An impressive PQ Red/Brown GEM that is mostly RED. The sharply struck devices stand out and are amplified by the amazing brilliant red luster. The eye appeal is unencumbered by any marks or flecks of any kind. Tied for FINEST in the designation.

PCGS 11, NGC 11, CAC 10. The most recent example sold in August 2020 for \$1,680 and the current PCGS Price Guide value is \$1,700. What a wonderful GEM worthy of a strong bid.

**LOT 251****1C 1914-D PCGS MS64+ RB CAC**

A classic example of this classic KEY date early Lincoln cent. High end quality and ultra close to a GEM Mint State grade, this coin has a sensational look.

At first glance you would think this coin was a full RED! Lustrous, radiant red surfaces have just begun to mellow with soft violet overtones. Well struck with bold definition on both sides. The surfaces are satiny smooth and devoid of any contact. A few minor blushes of tone can be seen at various angles attesting to the originality.

PCGS 259, NGC 41, CAC 36. There are just six in MS64+ RB. The most recent PCGS MS64+ RB CAC sold for \$6,900 way back in November 2011--essentially a DECADE ago. The current Collectors Universe value is \$5,750. Scarce finer, and VERY RARE in GEM RED, making demand for a 95% RED coin like this VERY STRONG! Do not let this beauty get away!

PCGS# 2472 | EST: \$5,000+

LOT 252

1C 1922 NO D, STRONG REVERSE. PCGS AU58 CAC

Only the Denver Mint struck Lincoln cents in 1922. A number of dies became filled with dirt and grease, filling in the D mint mark and obscuring other portions of the design (on some dies, the reverse was partially filled and have weak definition). The real No D has the strong reverse details. These are very scarce in all grades, VERY RARE in any Mint State grade, and is considered a formidable KEY date in the series.

This is a very pleasing AU58 with rich auburn toning and hints of soft powder blue clings to the periphery. Both sides show just the most delicate touch of friction on the highest points. The eye appeal is very nice.

PCGS 63, NGC 27, CAC 15. The last two PCGS/CAC examples sold in 2019, one for \$9,600 in March and the other for \$7,800 in October. The current CAC CPG value is \$9,750 and the PCGS Price Guide value is \$10,000. This near-Mint example belongs in a neat collection of KEY Lincoln cents.

1C 1940-D PCGS MS67+ RD CAC

Virtual perfection and bank roll fresh! WOW! This is a blazing, fiery red SUPERB GEM. Exceptional quality surfaces have a bold red luster that shines across the PRISTINE, flawless surfaces. There are no marks worthy of mention and we spotted only a couple of micro-flecks on the reverse, we needed a strong glass to do that! Every detail is crisply rendered by a strong blow from the dies, and the eye appeal is superb, as expected.

PCGS 434, NGC 476, CAC 40. There are 42 in MS67+ RD and just four finer. In June 2021 two sold for \$840 and the current PCGS Price Guide value is listed at \$1,500. None of the four MS68 RDs have ever sold via auction, but the published price guide value is in the five figures.

PCGS# 2689 | EST: \$800+

LOT 254

**1C 1955 DOUBLED DIE OBVERSE. PCGS MS64+ RD
CAC**

What a sensational MS64+ RD example of this popular and important 20th century Doubled Die variety. An essential coin for the collector, a classic KEY date in the series. Approximately 20,000 examples were struck when a working die and working hub were struck together, creating the dramatic doubling at LIBERTY, IN GOD WE TRUST, and the date. Many of the doubled dies were placed into the cellophane wrapping of cigarette packs in vending machines. At the time, a pack cost 23 cents, so vending machine operators would put the 2 cent change in the pack. Because of this, most survivors remain in Mint State grades, but ones with full, original RED coloration remain quite difficult to find!

The present coin has distinct claims to an even loftier grade, no promises. Brilliant, glowing red lustrous surfaces glow vividly in the satiny smooth surfaces. While a couple of microscopic toning flecks and a tiny contact mark or two can be seen with the aid of strong glass, none of these detract from the outstanding eye appeal.

PCGS 72, NGC 42, CAC 35. There are 13 in MS64+ RD and just 22 have ever graded finer at PCGS. The last three examples sold in the \$22,325 to \$33,600 range with the PCGS Price Guide value being \$30,000. Only 21 are in MS65 RD and just a single MS65+ RD is graded at the top of the Pop at PCGS. This beautiful coin is worthy of a fantastic Lincoln cent Registry Set.

LOT 256

1C 1909 V.D.B. MATTE PROOF. PCGS PR66 RB CAC

A truly special example of this VERY RARE and desirable KEY to the Matte Proof Lincoln cent series. While the 1916 is the lowest mintage, the VDB is rarer, with around 200 thought to exist in all grades. Its status as the first year of issue and its rarity create huge demand from collectors of this ever popular short series. This Premium grade GEM is bested by just two coins in the designation.

Essentially fully red, this coin was clearly lovingly cared for since the time of striking, and has just gentle mellowing of the satiny matte surfaces. The devices are razor sharp in strike and the fields are virtually flawless. Even the pickiest of collectors will certainly fall in love this high end GEM. It is worthy of the FINEST of collections.

PCGS 12, NGC 4, CAC 3. This is not the example we sold in July 2018 for \$55,813--this one has way more original red. The current Collectors Universe value is listed at \$50,000. There are just two graded higher at PCGS in the RB designation, the only one to sell was the famed John Story Jenks PR67+ RB GOLD CAC that brought over a quarter million dollars seven years ago! This is a SUPERB example for any GEM set. Bid accordingly!

PCGS 8, NGC 0, CAC 5. This SUPERB GEM sold in our August 2020 Regency Auction for \$12,925. Prior to that, one sold for \$13,513 in December 2019. The current PCGS Price Guide value listed at \$13,000 and the CAC CPG value is listed at \$14,400. Just four are graded finer at PCGS, and the values jump to \$31,500 in PR67+ RD and \$70,000 in PR68 RD. This is an incredible survivor worthy of the FINEST of Matte Proof Lincoln Registry Sets! 1C 1914 PCGS PR66 RD CAC
Oh Goodness Gracious! WOW! This is a stunning, totally original RED TONED GEM 1914 Matte Proof Lincoln. Clearly this coin sat for ages in the original tissue paper of issue and took on a sensational array of variegated RED hues from brilliant to brick, to magenta, orange, and golden-red. The palette of red colors are a real delight to behold. Aside from the stunning color, the surfaces are virtually PERFECT with no marks or breaks in the gently textured sandblast surfaces and they have a warm red brilliance.

PCGS 22, NGC 2, CAC 8. The current PCGS Price Guide value is \$4,000 and the CAC CPG value is \$4,380, though most recent PCGS/CAC example brought way more when it realized \$6,189 in our August 2020 Regency Auction. This gorgeous coin is worthy of a very strong bid indeed and will find itself in a very colorful set of Matte Proof Lincolns. Good luck!

1C 1916 PCGS PR67 RB CAC

Tied for the second FINEST graded in the RB designation, this coin SCREAMS SUPERB GEM! WOW, its quality is off the charts and absolutely amazing. Photos do this monster no justice, and you really need to look at it in hand to really appreciate its awe inspiring eye appeal, color, and luster.

First off, this coin is essentially full RED! We have a feeling (no guarantees) one day we might see this in a RED holder. The surfaces are satiny and gleaming with a fiery brilliance. The smooth fields and sharply struck devices give this incredible quality SUPERB GEM an awe inspiring look.

Only 1050 Proofs were struck. PCGS 4, NGC 3, CAC 2. Only a single PR67 RB CAC has ever sold, realizing \$24,000 in November 2020. The current CAC CPG value is \$28,800 and the Collectors Universe value is \$26,500. There is a single PR67+ RB graded higher, a coin that has not sold in auction and is valued at \$42,500. What an amazing coin, one that will bring a very strong bid. NOTE: PCGS has never graded a full red finer than PR66. Good luck.

3CS 1851 PCGS MS67+ CAC

Tied for FINEST graded, this coin is a wonderful piece well worthy of its lofty designation and is an exceptional example of the first year's mintage of this odd, obsolete denomination.

Prooflike texture around the star on the obverse. Deeper original golden brown toning is splashed around but does not fully cover both sides. There are also light hints of original sky blue on the reverse. The strike is incredible and is beyond anything we have seen for any Mint State trime. The eye appeal is fantastic!

PCGS 33, NGC 14, CAC 13. There are five in MS67+ and NONE FINER. This piece sold in September 2019 for \$9,988 and \$9,400 in August 2020. The current PCGS Price Guide value is listed at \$10,000. Worthy of a world class three cent silver collection or type set. Bid accordingly!

3CS 1865 NGC PR66+ CAM CAC

This is a wonderful, borderline-SUPERB GEM quality three cent silver Proof. Struck in the final year of the Civil War, only 500 were produced for collectors.

Deep beaming mirrors are generally without flaw and are wonderfully flashy with a bold watery reflection. The devices are thickly frosted and stand out with bold Cameo contrast on both sides. Obverse and reverse are both richly toned with wonderful blue and dappled iridescent shades. Exquisite eye appeal makes this GEM a wonderful example for the Civil War or three cent silver specialist.

Only 500 Proofs were struck. PCGS 6, NGC 5, CAC 3. NGC has graded 2 in PR66+ CAM. No CAC PR66+ CAM has sold in auction, but we sold two PCGS PR66 CAM CAC coins in 2020, realizing \$4,935 and \$8,225. The Collectors Universe value is listed at \$8,500 for PR66+ CAM. There are just six finer at NGC, all PR67 CAM. Bound for a wonderful set, and we expect strong bidding.

Tied for FINEST KNOWN! WOW! The last year this odd denomination was struck, and there are NONE FINER at either PCGS or NGC.

For any three cent nickel, this stunning GEM is a blazing ball of luster! Sharply struck up devices are frosty and stand out against the exceptionally brilliantly lustrous surfaces. The reverse die has a couple of minor die cracks (as made), but the surfaces are totally devoid of any marks or ticks of any kind. The technical and visual qualities are off the charts on this one! A real contender for the highest ranked PCGS Registry Set of 3CN or type coins!

PCGS 25, NGC 4, CAC 13. There are just 5 in MS67+ and NONE finer. The only one to sell brought \$7,050 in our September 2019 Regency Auction. The current Collectors Universe value is listed at \$7,500. This POP TOP SUPERB GEM is a real contender for the highest ranked PCGS Registry Set of 3CN or type coins! WOW! Spectacular DEEP CAMEO contrast is readily evident on this near-GEM! This is NOT one of those 3CN that you need to tilt it at an angle or squint or use your imagination to see the DCAM contrast! Deeply reflective mirrors are clean and have bold clarity, surrounding thickly frosted devices. The surfaces show some iridescent silvery white toning and some minor flyspecks, all attesting to the bold originality of this lovely obsolete type.

Only 500 Proofs were struck. PCGS 4, NGC 2, CAC 2. The last one to sell realized \$4,113 in the 2016 ANA auction, a weaker market. The current PCGS Price Guide value is listed at \$4,500 and the CAC CPG value is \$4,380. PCGS has graded fewer than two dozen finer in the designation, and this near-GEM has a great look, the initial appearance of a higher grade.

**LOT 272****5C 1866 RAYS. PCGS MS65 CAC**

This is a GEM first year of issue for the denomination. Sharply struck devices are nicely rendered despite being struck from a reverse die that was shattered when this piece was made. Indeed the Rays subtype lasted only in 1866 and partially in 1867 and were removed in hopes of making the dies last longer. The eye appeal is quite nice.

PCGS 174, NGC 175, CAC 49. The most recent three examples sold in the \$1,440 to \$2,340. The current PCGS Price Guide value is \$2,000. We expect this coin will achieve a price in the higher end of the range. Good luck.

**LOT 275****5C 1882 PCGS PR63 CAC**

Totally original! A very CHOICE, never dipped or conserved example with watery reflection under a layer of original pewter/dove gray patina with some golden accents and some minor toning spotting. Sharply struck. The eye appeal is nice.

PCGS 79, NGC 45, CAC 5. The only CAC-approved example was an old NGC holdered coin sold in 2019 for \$384. The PCGS Price Guide value is \$375 and the CAC CPG value is \$411. A very cool type coin for the budget minded collector.

PCGS# 3837 | EST: \$300+

**LOT 276****5C 1883 NO CENTS. PCGS MS67 CAC**

A wonderful example of this first year of issue, and popular one year only type without the word CENTS as part of the denomination. Borderline Prooflike lustrous brilliance in the fields and a somewhat creamy frost on the sharply struck devices give this a really Prooflike look. The surfaces are generally clean and exceptionally vibrant giving this PQ SUPERB GEM the ultimate look. VERY RARE FINER, this is perfect for a type or date set!

PCGS 53, NGC 62, CAC 21. Ignore the PCGS and CAC published prices, another CAC example sold for \$3,120 in June 2021, well in excess of the published levels and other APRs. There are only a dozen graded MS67+ finer, clearly some were saved at the time of issue as a first year of issue. NOTE: we sold a 67+ in April 2021 for \$4,818. Bound for a world class set of Liberty nickels and the bidding action among the top set contenders will be as intense as its luster!

NOTEWORTHY RAINBOW TONED GEM LIBERTY NICKEL

WOW! A riot of color blankets the obverse of this gem while the reverse is suffused with a delicate golden hue. Fairly well struck with some weakness noted in the detail of Miss Liberty's hair. An impressive coin.

PCGS 65, NGC 47. The price guide lists the PCGS value as \$1,250. We sold an untoned example of this date and grade for \$1,175 in March 2020. This rainbow toned gem is undoubtedly worth considerably more. Bid accordingly.

**LOT 280****5C 1883 WITH CENTS. PCGS PR67+ CAC**

WOW! Not only is this coin tied for second FINEST graded at PCGS, but it is also stunningly gorgeous! Swirling multi-hued iridescent pastel toning gets amplified by the bold watery nickel mirrors. The surfaces are essentially without flaw, and anything that is present you need a very powerful loupe to locate. The eye appeal is truly off the charts amazing!

PCGS 11, NGC 16, CAC 2. There are 2 in PR67+ and just a single PR68 graded finer in this non-CAM designation. This is NOT the PR67 CAC that sold in July 2021 for \$5,040, nor is it the PR67+ CAC that sold in June 2020 for \$2,280. The current PCGS Price Guide value is listed at \$4,000. We sold the sole FINEST PR68 in February 2020 for \$9,106, a record that stands as the highest for a non-CAM 1883 with CENTS nickel. If you seek only the FINEST CAC approved Proof Liberty nickels, look no further! Good luck!

**LOT 281****5C 1884 PCGS PR67 DCAM CAC**

WOW! Was this coin struck in 1884 or yesterday? With ultra smooth, flawless surfaces, blazing and blindingly brilliant reflective fields and thickly frosted white devices, this coin looks like it was popped out of a modern Proof set. WOW!

Incredibly deep, beaming mirrors are incredibly smooth with incredible chrome-like flash. The devices are well struck and have a thick, frost, imparting a sensational black and white deep cameo contrast. A minor planchet flake on the reverse rim is all that keeps this from an even loftier grade, but it is out of view and has little impact on the dramatically beautiful visual allure!

planchet flake on the reverse rim is all that keeps this from an even loftier grade, but it is out of view and has little impact on the dramatically beautiful visual allure!

PCGS 3, NGC 0, CAC 1. NONE ARE FINER at either service. As the only CAC-approved SUPERB GEM, this is likely the FINEST KNOWN. No PR67 DCAM has sold in seven years, so the APRs are of no help. 5C 1913 TYPE 1. PCGS MS68

Clearly this SUPERB GEM Type One Buffalo nickel was lovingly and carefully stored since it left the bank.

The surfaces are essentially without flaw! A bold satiny luster blooms with a rich frosty texture. Multi-colored pastel iridescent rainbow toning really pops in the light. The devices are sharply struck up on both sides and the surfaces are exceptionally clean and bold, devoid of any visible contact. The eye appeal is exceptional in every way.

PCGS 35, NGC 38. The most recent example to sell in auction brought \$7,638 in our October 2020 sale and the current PCGS Price Guide value is listed at \$8,500. Just five coins are graded MS68+ finer. A superb way to start any collection of Buffalo nickels. Bidding will be intense!

LOT 287

5C 1913 TYPE 1. PCGS MS68+ CAC

WOW! Having just sold another example of this TOP GRADE Type 1 Buffalo nickel for a WORLD RECORD price, we are honored to offer another WORLD CLASS example. Perhaps the FINEST KNOWN example, this coin is drop dead gorgeous! This is a MONSTER!

Incredible ancient album rainbow toning forms concentric circles of multicolored toning around the rims of this impressively preserved first year of issue SUPERB GEM. Razor sharp in definition, the devices stand out and are enhanced by a bold luster that really makes the bands of rainbow color at the peripheries pop. The surfaces are essentially FLAWLESS and impeccably preserved. The eye appeal is simply AMAZING!

PCGS 40, NGC 42, CAC 14. There are just five graded MS68+ and NONE FINER. The one we sold in April 2021 realized \$79,313 and this one is even more beautiful. We also just sold in September 2021 a beautifully toned and exceptional PR68+ for nearly \$100,000! If you are building the FINEST of sets, do not let this opportunity pass you by! Good luck!

**LOT 289****5C 1915-D PCGS MS65+ CAC**

This GEM 15-D nickel is incredible in terms of eye appeal and technical quality. Totally original, high end, and gorgeous. Both sides display a rich, satiny luster that blooms all over. The fields are clean and free of distracting marks, while the details are full and crisp from an exacting blow from the dies. Soft iridescent toning graces both sides. The eye appeal is incredible.

PCGS 162, NGC 73, NGC 37. There are just two PCGS MS65+s graded at PCGS. While the other coin graded 65+ sold in April 2017 for \$1,116, we sold a non-”+” MS65 CAC in our July 2021 Regency Auction for \$1,880. The current PCGS Price Guide value is listed at \$1,750. Very scarce any finer. This impressive GEM should bring a strong bid when the hammer falls.

PCGS# 3928 | EST: \$1,750+

**LOT 290****5C 1917-D PCGS MS65**

Soft glowing luster beams from untoned surfaces that are virtually mark free. Major design elements are well defined for this typically weakly struck date. Quite elusive in the higher mint states.

PCGS 167, NGC 49. PCGS price guide value is listed as \$2,000. Most recent auction recorded a price of \$1,620 in August 2021. A gem coin for a high-end set.

**LOT 294****5C 1935-S PCGS MS67+ CAC**

A truly SENSATIONAL SUPERB GEM tied for FINEST graded at either service and offering one of the most exceptionally vibrant luster we have seen on any 35-S nickel. This coin looks like it was just carefully removed from the dies moments ago!

The luster is strong and bold. Sensationally icy brilliance glows with a white hot, bold intensity that is rarely seen. The surfaces are clean and free of any distracting marks. The eye appeal is amazing, one of the flashiest we have seen! WOW!

PCGS 78, NGC 39, CAC 15. There are just 12 graded MS67+ and NONE are graded finer. The current Collectors Universe value is \$10,000 and the last two sold for \$6,600 and \$7,500. Bound for the finest of Buffalo nickel sets, this SUPERB GEM is worthy of a near record bid!

PCGS# 3976 | EST: \$7,000+

**LOT 295****5C 1937-D PCGS MS67+ CAC**

While not the highest numerically graded, this SUPERB GEM is of the finest in quality and eye appeal. Tied for second highest graded, there are none graded higher than MS68. Intense, blazing nickel-silver luster radiates with a white hot brilliance across the SUPERB surfaces. The eye appeal is amazing.

PCGS 218, NGC 158, CAC 66. PCGS has graded just 37 in this SUPERB grade with just 6 finer. The most recent example to sell was not CAC and brought \$2,400 in June 2021. The current Collectors Universe value is listed at \$3,000 and it jumps to \$25,000 in MS68. What a fabulous SUPERB GEM that will delight any collector and bound for a superb set.

NOTES

**LOT 296****5C 1937-D 3 LEGGED. PCGS AU58**

A very high end AU example of this always popular variety. Rich nickel-silver has a robust hint of iridescent peach-rose gold tone. A few light scratches are seen on the buffalo but they are mostly hidden under the iridescent toning; these have minimal impact on the otherwise outstanding eye appeal.

PCGS 1016, NGC 1363. Four have sold in 2021 ranging from \$1,680 to \$2,340. The current PCGS Price Guide value is listed at \$1,750. A wonderful example for the “everyman” Registry Set collector.

PCGS# 3982 | EST: \$1,500+

LOT 297

5C 1937-D 3 LEGGED. PCGS MS66+ CAC

A monster grade 3 Legged Buffalo nickel, tied for FINEST seen at PCGS and a blazingly lustrous one to boot! WOW. We have handled many examples of this famed Buffalo nickel variant, but only one in such a lofty state of preservation. This borderline SUPERB GEM is TOP OF THE POP.

Incredibly lustrous surfaces gleam and glow boldly with an intense, blinding brilliance. This is totally unlike the majority of this issue that are lacking brilliant luster, even in GEM grade. Light golden accents cling to the peripheral devices. The surfaces are divinely pristine and flawless. The eye appeal is off the charts!

One of the most famous of all U.S. coins, everyone has heard about the “rare” 3 Legged Buffalo nickel, a coin that is scarce in all grades, but in Gem Mint State as here, they are incredibly rare! This popular variety was created when an employee of the Denver Mint discovered that the dies were seriously clashed. In an effort to remove the clash marks, the inexperienced worker took an emery board and without realizing removed not just the marks, but also removed one of the buffalo’s legs.

PCGS 17, NGC 23, CAC 7. There are five graded MS66+ at PCGS and NONE FINER at that service. The only CAC-approved example sold in our December 2015 Regency Auction XV for \$88,125. The current Collectors Universe value is listed at \$95,000. With NONE FINER, this SUPERB GEM belongs in the FINEST of sets!

**LOT 298****5C 1938-D/S BUFFALO. PCGS MS66**

What a GROOVY GEM! This coin is all about the dramatic toning on both sides. An exceptionally brilliant luster. Rosy-orange, lilac-pink, icy-lavender, and apricot gold hues are vibrant and really captivate. The color rates a 9 on our 10-point color scale. The devices are sharply struck and the color enhances the depth of the strike. The eye appeal is AMAZING!

PCGS 2093, NGC 981. Pay no attention to the APRs and price guide values, this GEM will bring a record bid for the grade! Good luck!

PCGS# 3985 | EST: \$500+**LOT 299****5C 1938-D/S BUFFALO. PCGS MS67 CAC**

Satiny silver surfaces gleam with light gold and blue iridescence. Superb strike and luster with the D over S mint mark clearly visible.

PCGS 290, NGC 163, CAC 68. The price guide value listed by PCGS is \$750. Most recent auction record for a PCGS CAC coin was \$630 in February 2021. A thoroughly pleasing example of the last year of issue for the ever-popular Buffalo Nickel.

This is SUPERB GEM is tied for FINEST graded for this early date Jefferson nickel! It is spectacular in its eye appeal and stunningly high grade state of preservation.

An unbelievable strike has full, crisp, complete definition throughout the reverse, as well as in Jefferson's hair details. A steely-nickel silver with periwinkle and icy-blue

iridescence that is brought to life by a brilliant mint luster. The surfaces are exceptionally smooth and clean, virtually flawless, even under intense scrutiny. A pale blue dusting over the silvery-nickel luster adds boldly to the eye appeal. The quality and eye appeal of this Registry Set contender are off the charts.

PCGS 8, NGC 0. We sold another example in our June 2019 Regency Auction for \$18,213 and the PCGS Price Guide value is listed at \$18,500. This remarkable coin is much nicer than the one that sold in 2014 for \$23,500. Good luck!

LOT 312

H10C 1795 PCGS MS66 CAC

A MAGNIFICENT jewel! Truly on the cusp of a full SUPERB GEM grade, the eye appeal on this early half dime is off the charts! There are not many times in your numismatic life when you can buy a 226 year old obsolete SUPERB GEM coin-period.

This spectacular coin is one of the FINEST LM-9s that exist. While listed as Rarity-4, this is one of the more available of the 10 different 1795 die marriages, it is VERY RARE at this lofty state of preservation.

This GEM has an exquisite and brilliant luster that highlights the majestic toning on both sides. The obverse has a pale peach-rose-gold in the centers flowing to blue and deeper orange at the rims. The reverse is awash in a dazzling blue, with splashes of teal, violet, and coppery-orange. The obverse is razor sharp in the centers, weakening the definition at the dentils. The reverse has some minor adjustment marks that were not fully struck out, some areas are very sharp, while again, others are more blunt in definition. The obverse is shattered with multiple die cracks, clashes, and other characteristics that add much to the charm of this GEM.

PCGS 9, NGC 7, CAC 6. We sold the two most recent PCGS MS66 CAC 1795 half dimes, realizing \$79,313 in December 2019 and \$76,375 in September 2018. The current PCGS Price Guide value is \$87,500 and the CAC CPG value is \$93,800. Just a handful have ever graded finer, and few can match this GEM in terms of stunning visual allure. This is an ideal coin for a SUPERB type set or special box of 20. Bidding will be fierce for this lovely PQ GEM!

LOT 314**H10C 1838-O NO STARS. PCGS XF45+**

Only 70,000 half dimes were struck at the newly opened New Orleans mint in 1838, most of these went directly into commercial channels. A shortage of coinage out west and in the south made sure that most remained in circulation for a long time, and most known examples today are heavily circulated. This is the SOLE XF45+ graded by either service. Light wear is seen on both sides giving this lovely coin a "circ-cam" look. VERY RARE any finer.

value is listed at \$2,750. No XF45 has sold since 2012 and no AU50 sold since 2013. Clearly these do not appear with any frequency. What a great collector quality coin worthy of a really neat collection. Good luck!

H10C 1840 DRAPERY. PCGS MS66

The second FINEST graded at PCGS, the with Drapery variety of 1840 half dimes are much more challenging than the No Drapery sibling.

This is a remarkable GEM with incredible, totally original toning and brilliant underlying satiny luster. Sharply struck devices stand out against the smooth, problem free surfaces. The eye appeal is excellent, we have looked this GEM up and down with a strong glass and are unable to see why CAC did not bean this beautiful early Seated half dime.

PCGS 2, NGC 3. Only a single example has ever sold in auction, over a decade ago for nearly \$10,000. The current PCGS Price Guide value is listed at \$10,000. LOT 318

H10C 1844 PCGS MS65

A beautiful GEM 1844 half dime, struck from the FS-301 die variety, which is noted for its boldly repunched date; the first 3 digits of the date were not punched in the correct position (the 1 was too high, 84 too low), then repunched in their correct position. Though the variety is not noted on the holder, this example is clearly

one of the finest known (PCGS has attributed 1 in MS65); Gene Gardner owned the finest NGC-graded example (an MS66 CAC). A warm, glowing luster clings to the surfaces of this GEM, serving as a profound back light to the wonderful antique album-style toning. The devices are exceptionally well struck up and the surfaces are wonderfully preserved with nary a mark worthy of mention to be found anywhere, even with the aid of a strong glass. The eye appeal is tops, we do not know why CAC did not bean this beautiful early example of the type. Needless to say, it passed muster with us!

PCGS 17, NGC 28. The current PCGS Price Guide value is listed at \$1,250 but this coin has a similar look to the PCGS/CAC coin that sold in the recent ANA auction for \$2,880.

H10C 1853 ARROWS. PCGS MS67+ CAC

This is a DROP DEAD GORGEOUS SUPERB example of this short lived sub-type, and is TOP POP, tied for FINEST graded at PCGS and NGC.

Absolutely PRISTINE surfaces are flawless to the naked eye and even under careful scrutiny with a powerful loupe you will be unable to find any kind of flaw anywhere. Satiny luster blooms all over the fields and the sharply impressed devices. Both sides have a glorious, delicate iridescent patina. Soft pastel peach-rose, lilac, and sky blue colors are all the more brilliant as the light hits the surfaces. The eye appeal is exceptional in every way.

PCGS 16, NGC 24, CAC 6. There are five in MS67+ and NONE FINER. We sold the only two MS67+s that ever sold in auction, one in May 2019 for \$27,025 and one for \$20,563 in February 2021. The current PCGS Price Guide value is listed at \$22,500. This is a wonderful example of this short-lived type, worthy of the FINEST of sets. This incredible AU55 is well deserving of its GOLD CAC sticker. This magnificent "GEM" AU is a twin to the AU58 CAC we sold in October 2020, which boasting amazing color and quality and was called a monster. Distinct rainbow toning frames the obverse and a gentle iridescent gold dusts the reverse. Nice luster gleams through on both sides. The eye appeal is superb!

PCGS 59, NGC 27, CAC GOLD 1. The beautifully toned AU58 in our October 2020 sale realized \$793. We know this coin will likewise bring a strong bid.

PCGS# 4400 | EST: \$350+**LOT 323****H10C 1860 PCGS PR65 CAC**

A memorable well-struck original gem with classic blue-gold concentric toning that is the hallmark of careful long-term storage in a cardboard or paper holder. The fields sparkle with prooflike luster.

PCGS 21, NGC 19, CAC 11. PCGS price guide value is \$1,250. Proof mintage of 1,000. We sold the current coin at auction for \$925 in April 2017, and there is more demand for beautifully toned CAC approved gems now. A wonderful example of the type that will elicit competitive bidding.

**LOT 324****H10C 1867 PCGS PR66 CAM CAC**

A superb gem proof in all respects: strike, luster, cameo, toning and eye-appeal. Frosted devices are surrounded by mirrored surfaces that are white in the centers with attractive golden blue toning at the rims. Difficult to imagine a prettier Seated Half Dime.

PCGS 10, NGC 9, CAC 8. Only 8 graded finer. The PCGS price guide lists the value as \$2,650. Last PCGS CAC coin sold at auction in August 2017 for \$2,174. A very reasonable price for a 150-year-old beauty.

**LOT 325****H10C 1870 PCGS PR65 CAC**

This is a wonderful and totally original GEM with a great pedigree! Rich watery mirrors beam from below a layer of rich multicolored patina imparting a SUPERB eye appeal.

Ex. John W. Garrett Collection; Stack's March 1976, part of lot 304; Blue Moon Collection, Stack's Bowers, March 2017, lot 2035; Legend Rare Coin Auctions' August 2018 Premier Session, lot 35.

Only 1,000 Proofs were struck. PCGS 23, NGC 30, CAC 7. This coin sold for \$1,200 hammer in our August 2018 sale and \$1,293 in the Blue Moon sale. The PCGS Price Guide value is listed at \$1,200. A beautiful coin like this with its great pedigree is worthy of a great type set or Proof half dime collection.

LOT 328

10C 1835 PCGS MS66+

Legend Rare Coin Auctions is honored to offer the FINEST CERTIFIED 1835 Capped Bust dime regardless of variety. Fresh to the market, consigned to us after it was submitted to PCGS for grading when it was pulled out of an old Wayte Raymond board. Long term Wayte Raymond storage and a kiss from Mother Nature's magic resulted in the most fabulous toning pattern that graces both sides of this GEM!

Concentric rings of blue, green, gold, with splashes of violet, magenta and orange frame both sides. The central obverse has a blast of brilliant untoned silver that makes the surfaces sing with life. A lively underlying luster glows boldly under the colors. Sharply struck devices stand out nicely with crisply defined details. The only flaw we see of any kind is a tiny tick above star 8. This is so minuscule, you cannot see it without the assistance of a strong glass. The eye appeal is incredible, one of the most beautiful, old time looking Capped Bust dime of any date we have had the pleasure of offering. Unbelievable quality and eye appeal.

JR-8, Rarity-3. This is clearly the FINEST KNOWN from these dies.

PCGS 1, NGC 0. There are none finer at either service, although at some point there was an NGC MS67, which last sold in Rarcoa's session of Auction '90 for \$46,200, which stands as a world record. Nicer than any MS66 we can find as having sold previously, so there are no real comps for the date. Finer and more beautiful than the Pogue coin. The Eliasberg-Pogue 1832 dime, graded MS66+ sold for \$49,350 in February 2019. This is destined for the FINEST of type or Capped Bust dime collections. This is a sensational borderline SUPERB GEM that will see fierce bidding when it crosses the block. Good luck, you will need it if you plan to bring this prized Capped Bust dime home!

LOT 329**10C 1837 NO STARS, LARGE DATE. PCGS MS65+ CAC**

The year 1837 was a transitional year at the mint, switching from the Capped Bust to Seated Liberty design. The first Seated dimes had no stars on the obverse making Liberty the focus of the design type.

the figure of Liberty. The surfaces are beautifully toned with lime-green and pale sapphire blue on both sides. Sharply struck devices stand out on both sides, the obverse has two sharp die cracks at 4:30 and 7:00 converging in the central portion of

Vibrantly lustrous surfaces beam with a satiny brilliance on both sides.

Offering a similar toning pattern as the Pogue example that brought \$11,750 in March 2017. The current Collectors Universe value is listed at \$10,000. Anything finer will cost \$15,000 or more with CAC approval. What a great type coin! Bid accordingly!

PCGS# 4561 | EST: \$8,500+

**LOT 330****10C 1851-O NGC AU58**

The 1851-O dime is an under appreciated rarity in the series. VERY RARE in any Mint State grade, only 11 have been graded as such by PCGS and NGC combined, this CHOICE AU piece is a great coin for the collector. Only 400,000 were struck, and since these were struck heavier, pre-Act of 1853 standard, many of these got melted down as their silver content exceeded the face value. Mottled lilac, steel, and pewter tones are seen on both sides. Slight rub on the surfaces account for the grade. Some typical striking weakness is seen on the head and ribbon on the wreath, normal for the issue. There are some ancient ticks acquired during its brief stay in circulation, they have minimal impact on the visual effect.

PCGS 3, NGC 7. The most recent example to sell realized \$2,640 in February 2021 and the current Collectors Universe value is \$3,250. As stated, this date is VERY RARE any finer, and we know this coin will delight any collector looking to add a high grade example to their set.

PCGS# 4596 | EST: \$2,000+

**LOT 331****10C 1867 NGC MS67**

A very difficult KEY DATE with just 6,000 originally struck. This richly toned SUPERB GEM is tied for FINEST graded at both services.

Flashy, brilliant, semi-Prooflike lustrous fields are incredibly smooth and free of any distracting marks or lines; only with the aid of a very powerful glass do any die roller lines come into focus (mint made) and a couple of microscopic ticks are found with the aid of a very strong glass, but these are not distracting at all. The surfaces are awash in a gorgeous and original blend of blue, gold, and rose hues. Every detail is expertly struck and the eye appeal is exceptional.

PCGS 4, NGC 2. The last time this coin sold was back in 2007! The other NGC MS67 last sold in 2011. The only recent APR is a PCGS/CAC coin in the 2017 FUN auction for \$12,925. If you collect the finest graded, look no further than this wonderful SUPERB GEM.

10C 1875 PCGS MS66+

With a mintage of over 10 million the, 1875 dime is a relatively common coin, even in Mint State grades. Gems are scarce and in this lofty state of preservation, these are very rare. Frosty luster blooms boldly below a rich melange of toning on the obverse that melds into the peripheries of the reverse. Some striking softness is seen on the reverse wreath, but there are no serious contact marks of any kind and the surfaces are generally very clean.

at PCGS, MS67+ finest. The most recent example to sell was CAC approved and sold for \$2,640. The current PCGS Price Guide value is listed at \$1,250 and it jumps to \$4,500 in MS67. A neat type coin or example for a high ranking set.

LOT 333

10C 1876-CC NGC MS66

Ex Eliasberg, as noted on the insert.

Wide CC, Type 1 Reverse variety. A totally original GEM from the most famous of all collections: Eliasberg. Rich olive-russet patina graces the obverse, while the reverse is a more pearlescent silver with deeper peripheral accents. Sharply struck from clashed dies, the reverse showing most of these. Graded MS66 by Bowers & Merena when sold raw, and so graded by NGC shortly thereafter, this coin is still in an older generation NGC holder.

Ex. Louis E. Eliasberg Collection, Bowers & Merena/ Stack's, May 1996, lot 1213; Bowers & Merena, September 1998, lot 404.

PCGS 23, NGC 20. Non-CAC examples have sold in the general \$1,500-\$3,000 range and Collectors Universe lists the value at \$3,000. What a neat CC mint dime for the collector who appreciates the important Eliasberg pedigree. Good luck.

LOT 335

10C 1874 ARROWS. PCGS PR67

From our August 2020 Regency Auction, where it was described as:

Both sides of this GEM have a lovely iridescent patina with rich blue, rose, gold, and violet colors on both sides. The fields show off a wonderful watery reflection on the obverse, while the reverse has a blazing, bold, and blinding reflection that taken on its own would probably warrant a CAM designation. The strike is bold, and there are no distracting marks to be found anywhere. The eye appeal is very high end and extremely rare in such a fine state of preservation.

The Arrows at the date were added, as they had been two decades earlier, to signify a weight change. The coinage act of 1873 raised the silver content of the dime, quarter, and half dollar in an effort to absorb some of the silver that poured from the Comstock Lode in Nevada."

PCGS 2, NGC 1. This coin realized \$15,275 in August 2020 and for \$19,388 in our December 2019 Regency Auction. The current PCGS Price Guide value is \$21,000. Just a single PR67+ is finer, a coin that brought \$38,400 in 2018. This SUPERB piece is worthy of the finest Seated dime set.

10C 1881 PCGS PR65+

A resplendent toned GEM Proof Seated dime. Brilliantly flashy reflective mirrored fields are coated by a stunning mix of totally original color. The devices are sharply impressed and stand out boldly from the watery reflection. Beautiful blue and orange-gold tone kisses both sides. A few tiny lines on the reverse are noted but have zero impact on the gorgeous eye appeal.

Only 975 Proofs were struck. PCGS 1, NGC 0. The current PCGS Price Guide value is listed at \$1,200. A great looking coin like this will sell for a very strong bid. Bound for a great set of this series, which with a mintage of under 1,000 seems undervalued.

**LOT 338****10C 1884 PCGS PR67 CAC**

A fabulous Proof Seated dime that is SUPERB in every respect! Exceptionally deep mirrors beam brilliantly all over. Exhibiting bold clarity, cleanliness, and of course bold reflectivity, the fields have a liquid mercury look. The obverse has a gorgeous mix of original forest green/amber/rose/pale violet colors. The reverse obviously was laying on felt and thus has darker shades of the same colors. Miss Liberty and the details are frosty and have crisp full strikes. The eye appeal is beautiful!

Only 875 Proofs were struck. PCGS 14, NGC 21, CAC 11. This SUPERB GEM sold for \$2,703 in our December 2017 Regency Auction. The current PCGS Price Guide value is listed at \$3,500. serious marks from its short stay in commerce can be found anywhere even using a strong glass. The eye appeal is wonderful on this lovely AU coin which retains a wealth of original luster that clings to the lightly toned surfaces.

PCGS 68, NGC 19, CAC 12. The last PCGS/CAC AU53 sold back in our January 2018 Regency Auction XXV--that was nearly four years ago. Recent non-CAC records range from \$6,900-\$7,800. The CAC CPG value is \$10,000 and the Collectors Universe value is listed at \$8,500. We have no doubt this lovely and pleasing example will attract fierce bidding competition. This is a great example for the collector who wants a high grade piece, but does not want the \$15,000-\$20,000 price tag of a CAC-approved Mint State piece. Good luck.

LOT 344**10C 1921 PCGS MS65+ FB CAC**

After the First World War, the return to normalcy resulted in a deep economic recession. The resulting crisis led to the lower mintages for all denominations except Morgan dollars. The 1921 is a semi-KEY date in all grades, and is especially scarce in Mint State.

The presently offered GEM plus graded example has a thick frosty satin luster that gleams boldly all over. The surfaces have a pearly fresh silver iridescent tone with accents of soft gold.

PCGS 82, NGC 62, CAC 19. There are four graded MS65+ FB. There has not been one sold since July 2018 and it was NOT CAC. More recently a PCGS MS65 FB CAC realized \$7,200 in February 2021. LOT 350

20C 1878 PCGS PR64 CAC

The final year of this very short lived series had a Proof only mintage of just 600 pieces. These are very scarce in all grades, and CAC happens to be quite tight when it comes to approving them. This is a remarkable quality coin for the assigned grade, housed in an early generation blue tag holder and displays distinct claims to an even loftier grade (before the days of 3rd party grading, it would not shock us if it had been cataloged as a GEM Brilliant Proof).

The surfaces are uber flashy and reflective highlighting the rich aqua-teal blue that blankets the entire obverse and at the peripheries of the reverse and tangerine-apricot in the centers. Sharply struck devices stand out boldly against the fields, but the rich toning obscures any Cameo contrast. The originality and eye appeal are tops and this cherry double dime is an excellent example for a Proof type set.

Only 600 Proofs were struck of this final Proof-only issue. PCGS 106, NGC 89, CAC 11. The most recent example sold in the 2021 ANA auction for \$6,900. The current PCGS Price Guide value is listed at \$6,250 and the CAC CPG value is \$6,320, but this exceptional FRESH example should bring well in excess of those levels. NOTES

LOT 351

25C 1818 PCGS MS65 CAC

An incredible ORIGINAL GEM B-3 which ranks among the Condition Census specimens of this Rarity-3 die marriage. The die variety is interesting, as it is the same obverse die used on B-1, the 1818/5 overdate, but in this use of the die, the surfaces were lapped, removing most traces of the underlying 5. With the aid of a strong glass, you can still see vestiges of the upright of the 5 on the upper curve of the 8. Sharply struck from a middle die state with bold clashing of the dies and the small die crack from the rim to the lower arrowhead, through the shafts, and into the field.

A sultry, satiny luster glows boldly on both sides giving life to the pearly-gray, pale gold, and iridescent lilac toning. The definition is sharp and crisp from an exacting blow from the screw press. This totally original GEM is incredible! A fantastic early Bust quarter, perfect for type or date purposes.

PCGS 24, NGC 21, CAC 5. The most recent PCGS/CAC MS65 sold in our December 2019 Regency Auction for \$30,550. The PCGS Price Guide value is listed at \$32,500 and the CAC CPG value is listed at \$36,000. PCGS has graded just five finer; and the last PCGS/CAC MS66 sold for \$67,563 nearly eight years ago! 25C 1822 25/50C. PCGS VF35 CAC

The B-2, corrected 25/50C reverse variety is a very RARE and challenging Red Book listed variety that while listed as Rarity-5 in the reference works, is exceptionally difficult to find in any grade. Most survivors are lower grade, and this CHOICE VF is a wonderful, collector oriented example. The 25/50 feature is readily visible to the naked eye.

This coin displays problem-free moderate wear and is a very handsome coin as such. Both sides show a “circ-cam” look, with deeper toned fields and lighter high points of the design types. Free from any damage, lines or anything else that would distract from the outstanding eye appeal.

PCGS 2, NGC 2, CAC 1. The current PCGS value is \$35,000. But who knows what that level is based on, as no VF35 has sold since 2004! In the 2021 ANA auction a VF30 that had a very noticeable pin scratch across the obverse sold for \$21,600 and a VF20 sold in the 2017 ANA auction for \$22,325. We can say with all confidence that this is neither of the NGC VF35s that sold in 2016. This is a VERY IMPORTANT opportunity for any collector of this popular series. What a fantastic “GEM” AU example of this lower mintage date. VERY RARE in any Mint State grade, the presently offered AU58 is high end for the assigned grade and with its gorgeous mix of multicolored toning, this coin will make a wonderful addition to any Seated Liberty set. Underlying luster amplifies the blue and orange tones and sharply struck up devices. The eye appeal is amazing.

LOT 356

25C 1860-O PCGS MS66 CAC

This is the SINGLE FINEST example of this scarce antebellum date quarter that is VERY RARE in any grade above MS63. To give an idea of the rarity, Eliasberg's example was a 65 and is the second finest known and Norweb had an AU58.

Totally original toned, this GEM is marvelously preserved on both sides. Even with the aid of a strong glass, you will find zero imperfections worthy of mention. The surfaces are wonderfully satiny and have a shimmering texture below a layer of iridescent earthen tones. As you rotate the lustrous surfaces in a light, shades of powder blue, soft olive, and light golden accents mingle with an antique pearly-tan dominant patina. The strike is rather sharp in overall definition and the eye appeal is exceptional.

Only 388,000 were struck for circulation, and no quarters were struck at the southern most branch mint again until 1891 at the end of the series.

PCGS 1. NGC 0, CAC 1. The current Collectors Universe value is listed at \$25,000. This coin has not been offered in nearly six years, making this a very important opportunity for the owner of the FINEST Seated Liberty quarter collection. Do not let this opportunity pass you by!
Good luck.

**LOT 358****25C 1880 PCGS MS66 CAC**

This is a very popular low mintage date in a GEM grade and PQ state of preservation. Flashy, semi-Prooflike luster is exceptionally brilliant when rotated in a light, especially on the untoned reverse. The obverse is gently kissed with a hint of iridescent patina. Sharply struck with thickly frosted devices, the coin has a fantastic look. Only 13,600 examples were struck for circulation and this one is in an optimal grade for the collector.

PCGS 33, NGC 26, CAC 12. DO NOT LET the Pops fool you! The last PCGS/CAC MS66 hammered for \$2,600 in our July 2016 Premier Session Internet Auction---that was over five years ago!! WOW that is a long time. The current CAC CPG value is \$3,880 and the PCGS Price Guide value is \$3,000. This GEM will certainly see very strong bidding when it crosses the block! Good luck!

**LOT 359****25C 1880 PCGS MS67 CAC**

This is a gorgeous SUPERB GEM example of this low mintage late date Seated quarter. Only 13,600 examples were struck and this one ranks near the top of the pop, with just four examples graded finer.

A sensational, essentially Prooflike luster booms all over the fields. The razor sharp design elements are thickly frosted. Framed by a vivid teal-blue at the rims, which melds into a light peach-amber, then into rich silver-white. The surfaces are essentially flawless and the eye appeal is the definition of superb.

PCGS 14, NGC 10, CAC 11. The most recent example sold in November 2017 for \$5,760. The current CAC CPG value is listed at \$7,550 and the current Collectors Universe value is listed at \$5,750. Just four are graded finer at PCGS, making this an ideal coin for the advanced collector. Good luck.

OMG! How does this coin even exist? To call it SUPERB, pristine, perfection, etc cannot even begin to convey the absolutely amazing technical and visual quality. WOW!

This coin is clearly one of the FINEST KNOWN 1884 Proof quarters. The flashy, watery mirrored fields are totally without flaw, not even with a strong glass are you able to locate a line, a tick, or anything else on the glassy smooth surfaces, mint made or otherwise. Both sides are awash in totally original, rich toning; the obverse has a hint of peripheral blue and orange tone, while the majority of the surface has a silver-rose iridescent patina. The reverse is much deeper and richer in color with green, rose, gold, azure, and tangerine hues. Every detail is needle point sharp, crisply defined, from an exacting blow. Housed in an old green tag holder, this magnificent coin is a standout, drop dead gorgeous example for type.

A sharply struck and marvelously preserved SUPERB GEM. A band of rainbow toning arcs its way around the upper obverse rim and leaves the remaining surface pearly-silver. A rich thick mint frost gives this early Washington quarter a great look, accenting the sharp devices and stunning surface quality. The eye appeal is great.

PCGS 37, NGC 11. There are just five graded finer. The current PCGS Price Guide value is listed at \$1,500. There is a wide range of APRs, the most recent being a CAC approved coin we sold in August 2020 for \$2,703 and in the same month a non-CAC coin sold for \$975. The only MS68 graded by PCGS to sell in auction brought \$7,200 in March 2021. This fantastic coin belongs in a top tier Registry Set.

A lovely CHOICE + Mint State example of this KEY date. Wonderfully frosty and brilliantly lustrous with a hint of iridescent toning. Close examination with a strong glass will reveal a few tiny ticks and lines, but they do not detract from the eye appeal or quality and are taken into account in the MS64 grade.

PCGS 678, NGC 228. Recent examples have sold in the \$1,800 to \$2,275 range and the current PCGS Price Guide value is listed at \$2,150. VERY scarce finer and VERY RARE in any grade above MS65. Good luck.

WOW, WOW, WOW! This is a stunning, beautifully toned SUPERB GEM, that is sitting at the absolute TOP OF THE POP, tied for FINEST GRADED!

The obverse is framed by a band of rainbow tone before yielding to a pearlescent silver brilliance in the center. The reverse is a stunning array of vivid Easter-egg pastel hues. Pinks, golds, greens, and purples swirl boldly across the lustrous and well struck surfaces. The surfaces are generally clean, save for a tiny reeding mark on Washington's neck. Other than that, the surfaces are PRISTINE and flawless. The eye appeal is monstrous!

PCGS 62, NGC 111, CAC 38. There are 10 in this lofty grade with NONE FINER. The current Collectors Universe value is listed at \$7,250. A coin worthy of the FINEST of Registry Sets. Good luck.

While the 63-D quarter is common in most grades, it is surprisingly RARE in MS67 and excessively so any finer. This MS67+ is tied for second highest graded with just seven graded at this lofty state of preservation with a single MS68 finer.

Incredibly satiny luster radiates boldly with a strong mint brilliance on both sides. A band of sunset orange-gold at the lower obverse provides a contrast point to the otherwise brilliant shimmering silver

luster. Sharply struck and pristine, this is a sensational coin for the collector.

PCGS 35, NGC 51, CAC 10. There are a mere 7 in MS67+ and just a single MS68 graded finer. The most recent PCGS/CAC example sold in our February 2021 Regency Auction for \$8,519 the one before that was sold 8 years ago for nearly \$16,000! The current Collectors Universe value is listed at \$13,000. Bound for an amazing Washington quarter set, if you are building one, do not let this one pass you by!

The B-13, BB-151 is a challenging Rarity-5 die pair, the RAREST of the year with an estimated 40-75 examples extant. While not specifically listed in the Bowers 2013 list of Notable specimens, this coin ranks toward the lower end of the Condition Census, tied with the Miller-Hesselgesser, Reiver-Queller, and Smith-Bolender-Ruby coins.

This is a very pleasing CHOICE XF. Smooth, problem free minor

circulation on both sides. A remarkable amount of retained luster clings to the protected areas of the design elements. Handsome light dove-gray with accents of pewter and gold that are a delight to behold. Only some minor ticks and light marks from its brief stay in early federal commerce, none of them are distracting to the naked eye. Wonderful quality.

\$1 1857 PCGS PR65 CAC

This is a GORGEOUS GEM example of this VERY RARE No Motto silver dollar Proof date. An estimated 50-100 Proofs were struck, and precious few are known in GEM or finer grade.

Incredibly reflective, glassy mirrored fields gleam in the light from below a rich layer of multicolored toning. Deep blue, violet, and silver-gray toning dominates with orange-gold toning toward the centers, surrounding the sharply struck up devices. The surfaces are exceptionally clean, even for the assigned GEM grade. While the toning is deep and rich, it is not dark, nor does it obscure the amazing reflection. The eye appeal is AMAZING!

Only 50-100 Proofs were struck. PCGS 3, NGC 3, CAC 3. No CAC-approved example has ever sold in auction. Only two are finer in the designation and neither has ever as well. Ex. RSD, as noted on the insert.

This is an AMAZING 79-CC dollar, to call this majestically toned coin a GEM is an understatement. We absolutely love this coin! The quality of this coin is SUPER HIGH END, so much so, its quality is off the charts! It's obvious to us that Mother Nature took a blank canvas that just happened to be a rare GEM 1879-CC \$1 and made it quite special.

Bold semi-prooflike mirrors dominate both sides. You do not have to imagine them. We looked this coin over really hard and are thrilled that there are no imperfections of any size, anywhere. We think PCGS showed this coin no respect when it was graded (we make NO promises). The mirrors and luster have a tremendous flash you can see from a distance. The obverse has gorgeous totally original colors of sky blue/green/violet/gold. We unhesitatingly rank all the colors a 9 on our 1-10 color scale (10 is the best). There is no specific kind of pattern, Mother Nature just let the colors flow (79-CCs with color typically come splotchy or mottled). The reverse has bold contrast and a touch of gold by the rims. Miss Liberty and the details are all thickly frosted and have full strikes. The eye appeal will mesmerize you!

PCGS 105, NGC 42, CAC 35. This exceptional GEM is unlike any other you might encounter! When this coin first hit the bourse floor back in 2013, we out bid two other dealers representing people in order to buy this magnificent GEM, back then Legend Numismatics paid \$48,000. We sold it in our October 2019 Exclusively Legend Regency Event auction for \$43,475. Toss out any other pricing guides, they are USELESS on a monster GEM like this! Good luck.

PCGS# 7092 | EST: \$500+**LOT 420****\$1 1879-S PCGS MS65 CAC**

This is an exceptional, polychromatic toned GEM 79-S dollar. Cranberry-red and deep purple hues dominate, but ample magenta accents blend with tangerine-rose, gold, and emerald-green hints that cling to the recesses of the design. Clearly this GEM came into contact with the canvas bag at one time, you can see some textile toning dots from the rim at BU in PLURIBUS to the top of the cotton bolls. The colors rate a 9.5 out of 10 on our color scale. The luster really brings out the gorgeous colors. The grade accounts for some minor contact marks that are seen in the color but do not detract from the monster eye appeal.

Housed in an old green tag holder, this GEM is fresh and will see very strong bidding. It would not be a shock if our estimate proved extremely conservative!

This is the EPITOME of what a SUPERLATIVE quality Morgan dollar should look like! Not only is it tied for FINEST graded, it is a marvelous coin for type or date purposes!

Incredible, bold cartwheel luster rolls across the surfaces on both sides. The fields offer a distinct S-mint semi-reflective, semi-Prooflike flash that is a delight to behold and is blinding when rotated in a light. The sharply struck devices possess a thick, creamy, frosted texture that contrasts boldly with the icy-fresh brilliance on the obverse, giving that side a generous nearly Cameo-like look. Needless to say the surfaces, both fields and devices are devoid of any serious contact, virtually PRISTINE, and the eye appeal is simply AMAZING!

PCGS 168, NGC 194, CAC 65. There are only 15 in MS68+ at PCGS and NONE graded higher. The most recent example sold in our October 2020 Regency Auction for \$28,200 and the current PCGS Price Guide value is listed at \$34,000. This is truly a great early Morgan dollar bound for a WORLD CLASS type or date set!

\$1 1880-O 80 OVER 79. PCGS MS65 CAC

A SENSATIONAL GEM example that sits at the TOP OF THE POP for this major Morgan dollar overdate variety. The VAM 4 variety, a TOP 100 VAM, offered here has a "micro" O mintmark.

Blazing cartwheel silver brilliance rolls strongly over the surfaces on both sides. Sharply struck with bold frosty devices that at certain angles give this high end GEM a near Cameo- PL look. A narrow band of rainbow color frames the obverse, creating a gorgeous halo effect. The eye appeal is stunning.

PCGS 3, NGC 0, CAC 1. This is the Jackson Hole coin, last sold in auction in April 2007. The current CAC CPG value is \$22,800 and the PCGS Price Guide value is \$20,000. NONE are finer at either service, making this the ideal coin for any WORLD CLASS Morgan dollar set. An opportunity like this may not appear again for some time. Do not let it pass you by! Good luck.

**LOT 423****\$1 1880-S NGC MS63***

A sensational beautifully toned coin that is a true luster bomb! Bold swaths of sky blue, rich gold, and hints of tangerine-magenta that covers the entire surface of the obverse and just a portion of the lower reverse periphery. The obverse rates an 8.5 on our 10-point color scale. The strike is bold and this really CHOICE piece is worthy of a very strong bid and placement in a fantastic toned dollar set!

PCGS# 7118 | EST: \$800+

**LOT 424****\$1 1880-S PCGS MS66+ CAC**

What an incredible toner! This beautifully toned 80-S would have been right at home in the Northern Lights and Roadrunner Collections that we had the pleasure of selling in the past.

We rank the colors a 9+ on our 1-10 color scale (10 is the best). Shades range from a deeper salmon-rose pink hue to brilliant untoned silver at the very top of the obverse. Between are peach, gold, aqua, teal, sky blue, crimson, and magenta colors. The luster is bold and flashy with a semi-reflective brilliance that really accentuates the colorful surfaces. The devices are sharply struck up and the cheek is wonderfully clean. The eye appeal is truly sensational!

A coin like this will delight any serious collector. With the full spectrum of color on the obverse, even the most fastidious connoisseur will fall in love. Good luck.

PCGS# 7118 | EST: \$2,000+

**LOT 425****\$1 1880-S PCGS MS67**

A wonderful toned MS67! This is an interesting SUPERB GEM. We have handled so many GEM 80-S dollars over the years, but this is the first that this cataloger can recall seeing with a dramatic die crack on Liberty's face. The colorful surfaces radiate with a brilliant cartwheel luster. Blue/green tones dominate the palette, accented by golden-orange and magenta. The color rates an 8.5+ on our 10-point scale. The devices are sharp and crisp, and the eye appeal is superb, despite some very minor contact seen under the color which is what precluded CAC approval. We still very much like the coin.

A coin like this will see strong bidding from the toned dollar collector, and our estimate will prove conservative.

PCGS# 7118 | EST: \$1,200+

**LOT 426****\$1 1881 PCGS MS65**

Unlike the ubiquitous 81-S, the Philadelphia mint 1881 Morgan dollar is not often seen with great color. This GEM is a gorgeous exception. Pleasant pale iridescent teal-blue graces the center, fading to a very soft clover/emerald green before melding into gold and magenta in areas on the rims. The reverse is framed by a halo of deeper gold, yielding to a brilliant untoned silver center. The obverse rates an 8 on our color scale. Boldly struck and generally clean, the eye appeal is quite nice.

PCGS 1360, NGC 734. The PCGS Price Guide value is \$475 but a coin like this is worthy of a significant premium for its great eye appeal. Those who know toned dollars know this is a tougher date to find. Good luck.

PCGS# 7124 | EST: \$650+

**LOT 427****\$1 1881-CC NGC MS64**

WOW! When was the last time you saw an 81-CC that looked like this?! This GEM is a blazer with bold cartwheel luster that blooms all over with a brilliant swirling finish. Blues, roses, teal, violets, and other iridescent hues are amplified by the intense luster. The obverse color rates a 9+ on our 10-point scale, and the reverse has a similar palette of color that frames the periphery. The eye appeal is amazing! Housed in an old NGC “fatty” holder.

A contender for any collection of toned dollars, this is a date that rarely is seen with such a vivid blend of color. This coin has it all for the collector who demands quality and eye appeal.

PCGS# 7126 | EST: \$1,500+**LOT 428****\$1 1881-CC NGC MS64 CAC**

The 81-CC is a lower mintage Morgan dollar date that saw 296,000 struck; thanks to the GSA hoard, this date is readily available, but always popular. Brilliant frosty luster and radiating satiny bloom. A blush of the slightest gold at the date keeps from being fully white. Crisply defined devices are devoid of serious contact, just a hint on the cheek. The eye appeal is essentially that of a full GEM.

PCGS 8708, NGC 3992, CAC 483. The CAC CPG value is \$986 and the Collectors Universe value is \$800.

PCGS# 7126 | EST: \$600+**LOT 429****\$1 1881-O PCGS MS64**

The 81-O is a rare date to find with any kind of attractive toning. This near-GEM example has a sensational swath of crescent toning that covers 70% of the obverse, leaving an “eye” shaped eclipse of brilliant silver behind Liberty’s head. The 70% toned portion begins at the left rim with a narrow band of teal melding into a brilliant azure, then peachy-rose, and then finally to a thin line of gold. The color rates an 8.5 on our 10-point color scale. While there is some minor contact on Liberty’s cheek, these are appropriate for the assigned grade, we are unsure why CAC did not bean this near-GEM beauty.

The 81-O is a scarce date in GEM, and beautifully toned examples are rarer still. Worthy of a strong bid!

PCGS# 7128 | EST: \$650+**LOT 430****\$1 1881-S PCGS MS63 CAC**

Though PCGS graded this beautifully toned 81-S only a 63, the eye appeal is off the charts! The entire obverse is richly blanketed in a wonderful, swirling mix of purple, magenta, aqua, olive, and emerald tones. The color ranks as a 9.5 on our color scale. We can tell you that this is a MONSTER of a 63, with just a little chatter on the obverse, the reverse is nearly GEM quality with distinct reflective tendencies in the brilliant cartwheeling luster.

If Roadrunner was still building his set, this coin would fit right in. You have a chance to put away a really gorgeous toned dollar, don’t let it pass you by.

PCGS# 7130 | EST: \$600+

**LOT 431****\$1 1881-S PCGS MS64**

This is a sublimely toned near-GEM 81-S dollar. Bands of gorgeous purple, rose, gold, and soft verdant hues. Sharply struck with crisp devices that are frosty and supported by a bold cartwheel bloom that enlivens the color that we rate an 8.5 on our 10-point scale. Worthy of a very strong bid for a toned MS64 and will see itself right at home in any collection of beautifully toned Morgans.

PCGS# 7130 | EST: \$500+

**LOT 432****\$1 1881-S PCGS MS64 CAC**

Another gorgeous reverse toned 81-S. Disregard the assigned grade, this is a wonderful GEM. Again, brilliant bands of rainbow toning covers about 1/3 of the upper reverse, before blending to a blush of iridescent yellow-green tone mingles with apricot rose. Between the two areas of toning is a splash of untoned, brilliant silver. What a neat toning pattern! We really love the look, and we rate the color as an 8.5 on our 10-point color scale. The surfaces are beaming with a sensationaly brilliant cartwheel bloom that accents the nearly GEM quality surfaces and adds to the exceptional eye appeal. Bound for a fine collection of toned dollars and bidding will certainly be strong.

PCGS# 7130 | EST: \$300+

**LOT 433****\$1 1881-S PCGS MS64+ CAC**

Here is WONDERFUL GEM reverse toned 81-S. You know that for us to offer a reverse toner, it has to be amazing, and this one certainly is! Incredible bands of sensational gold and violet meld into magenta, green, and deep purple-blue tones. The color rates a 9+ on our color scale. Well struck and vibrantly lustrous giving this GEM a beautiful look. Worthy of a very strong bid from anyone who collects beautifully toned dollars.

PCGS# 7130 | EST: \$750+

**LOT 434****\$1 1881-S PCGS MS65**

WOW what a cool GEM 81-S toner! Most of the obverse is awash in a deep, eggplant purple, before yielding to a tiny arch of rainbow toning that highlights the date. Gentle accents of pink, rose, and pale green melt into the deep purple, giving depth and definition to the color, keeping it from being too dark. Boldly lustrous surfaces also bring out the subtle accents of color. We rate the color an 8+ on our color scale. The reverse is mostly untoned silver, showing just some subtle accents at the peripheries. The details are sharply struck and the eye appeal is SUPERB! We know a toned dollar like this will delight any collector of toned dollars and will see very spirited bidding.

PCGS# 7130 | EST: \$1,000+

**LOT 435****\$1 1881-S PCGS MS65**

A wonderfully toned GEM 81-S boasting a full strike and exceptionally radiant mint luster. Bold cartwheels enliven the multicolored toning that shows some subtle textile “toning dots” when viewed at certain angles. Shades of orange, pink, blue, gold, and deep eggplant purple rate 8.5 on our color scale. A few old bag marks are seen, which account for the assigned grade, but have zero impact on the outstanding eye appeal.

PCGS# 7130 | EST: \$500+

**LOT 436****\$1 1881-S PCGS MS65+ CAC**

WOW! We wish all reverse toned dollars looked like this one! First off, you know that if we offer reverse toned dollars, they have to be off the charts fantastic; this one is out of this world! This is clearly one of the finer end roll toners we have seen with the color on the reverse. The color, which swirls around in no particular order, ranges from electric lime-green to fiery magenta to royal violet, and all shades in between. Every color is even further enlivened by the blazing S-mint luster on this plus graded GEM. We rate the color a 9.5+ out of 10. We expect very strong bidding for this tie-dye, technicolor toned GEM, a coin worthy of any AMAZING toned dollar collection. Good luck.

PCGS# 7130 | EST: \$1,200+

**LOT 437****\$1 1881-S NGC MS66***

What an impressive looking MS66, a colorful PQ GEM that is certainly deserving of NGC’s coveted “*” designation for exceptional eye appeal. Mixed rainbow toning in an inverted arch that covers about 85% of the obverse. Magenta and purple hues blend together with accents of teal at the lower obverse, melding into apricot rose and tangerine-peach, coppery-gold, and sky blue, before yielding to a narrow band of gold then a burst of untoned silver where part of another coin sat on top of this one. We rate the color an 8.5+ out of 10 on our color scale. The luster is bold with a hint of semi-reflective flash on the untoned reverse.

Bidding for this GEM will be very strong. The color is quite attractive and will delight any collector of GEM toned dollars.

**LOT 438****\$1 1881-S PCGS MS67 CAC**

What a luster bomb! HOLY COW this coin is gorgeous!

Blazing cartwheel luster rolls smoothly across the SUPERB quality GEM surfaces on both obverse and reverse. Sharply struck up devices stand out with a rich frost. The obverse has beautiful bag tone, a swath of textile toning dots formed from where the canvas fabric came in contact with the silver surfaces. The clover green at the rim blends to soft sky blue and the most subtle pale golden-apricot hue. The remaining surfaces are bright, brilliant lustrous silver. Needless to say the eye appeal is exceptional!

PCGS 2654, NGC 4488, CAC 1012. This delicately toned SUPERB GEM has a visual allure that is beyond what is normally seen and is worthy of a strong bid--the published prices do not take this color into account. Bid accordingly.

A vibrantly lustrous SUPERB GEM that displays an attractive end of roll patina on the obverse. Clearly this marvelous and beautifully preserved 81-S sat against the end of a paper roll, you can see the angles where the paper folds were. The colors are more subdued, but as you rotate the coin and the luster catches the light lovely accents of blue, lilac, and gold mix with pewter and deep silver tones. The eye appeal is quite nice. The reverse is untoned and has a bold and flashy, almost PL luster. Every detail is razor sharp in its execution and crisply rendered from an exacting blow from the dies.

PCGS 3044, NGC 4654, CAC 1012. PCGS has graded 390 in MS67+. There is a very wide range of recent APRs and the PCGS Price Guide value is \$1,600. This is a lovely SUPERB GEM perfect for a type or date set.

\$1 1881-S PCGS MS68 CAC

The word SUPERB barely conveys the outstanding visual allure and technical quality of this spectacular MS68 1881-S Morgan dollar. It really is VERY HIGH END and has a gorgeous look!

Bold, rolling cartwheels swirl strongly on both sides. The luster brings out the lovely pastel apricot-peach, tangerine-orange, and icy-clear gold iridescent toning that dominates with accents of magenta and light blue on the obverse. The color rates an 8.5+ on our 10-point color scale. The reverse is untoned, save for the slightest touch of the faintest clear gold that is dusted on the subtle reflectivity of the luster in the fields. The eye appeal is exceptional and unmarred by any serious marks; there are none in the prime focal areas of the design.

10-point color scale. The reverse is untoned, save for the slightest touch of the faintest clear gold that is dusted on the subtle reflectivity of the luster in the fields. The eye appeal is exceptional and unmarred by any serious marks; there are none in the prime focal areas of the design.

PCGS 213, NGC 336, CAC 123. This fabulously toned dollar is bound to achieve an extremely strong price when the hammer falls, it would not shock us if the Collectors Universe value of \$6,000 is surpassed. This stunning SUPERB GEM's quality and eye appeal will place it into a sensational collection of toned dollars.

\$1 1882-O PCGS MS64 CAC

Unlike the 83-O and 84-O, the 82-O is not a date that is readily found with any kind of special toning. This one is different.

While the obverse is frosty and silver white, the reverse is blanketed by a wonderful mix of green, gold, blue, and orange covering the entire surface. The color rates as 8.5+ (very close to a 9) on our 10 point color scale. Well struck for the date, this near-GEM has a sensational look. We can tell you if this color was on the obverse, it would bring multiples of what this gorgeous reverse toner will. If you like this color palette (and we do very much) you need to bid aggressively to bring it home. Good luck.

PCGS# 7136 | EST: \$500+

The present borderline SUPERB GEM boasts an exceptionally brilliant cartwheel luster. The devices are razor sharp in strike with impeccable cleanliness seen on the devices. The surfaces are devoid of any serious marks, ticks, or lines, indeed were this a more common date, it would not shock us if this coin was in an MS67 holder.

PCGS 93, NGC 14, CAC 9. Only 14 are graded MS66+ at PCGS with just 8 finer. We sold an example in our March 2019 Regency Auction for \$12,338. Ex R. Dier and Gold River Collections, as noted on the insert.

The 1882-O is surprisingly rare in this lofty state of preservation, and is extremely rare any finer. While more than 6 million were struck, this date was not saved in large quantities, and unlike other dates, the number of GEM or finer 82-O dollars number around 2,000 in all grades from 65 to 68+ combined between PCGS and NGC, with duplication no doubt included.

**LOT 445****\$1 1882-S PCGS MS64 CAC**

This is a really distinctive toned GEM 82-S dollar. Lusciously lustrous surfaces beam with a rolling cartwheel brilliance bring out the amazingly colorful tie-dye-like swirling bands of magenta, gold, tangerine, blue, and teal. An angular line of toning on the ultra smooth, frosty cheek suggests end roll placement. The color rates a 9+ on our 10-point color scale. The reverse is flashy and nearly semi-Prooflike with frosty sharp devices. The eye appeal is amazing and this coin is worthy of a very strong bid!

WOW, WOW, WOW! This is a simply AMAZING Monster toned 84-CC! Rarely do you ever see these outside of GSA holders, and even then, they do NOT have color like this! The swirling blues, greens, golds, magentas, oranges, and purples blend together all over the obverse. We rate the color a 9.5+. The surfaces are intensely lustrous, the underlying brilliance bringing every subtle color shift to its fullest, most vibrant effect, giving this coin a simply amazing look!

PCGS 8791, NGC 4423, CAC 639. A coin like this is worthy of a world class collection; it would have found itself right at home in the Roadrunner or Northern Lights Collections. Indeed, this coin's outstanding, colorful appearance makes it UNIQUE and worthy of a very strong bid. It would not be a shock if the final hammer price was multiples of our estimate.

Ex Battle Creek Collection, as noted on the insert.

This is one of the most spectacular toned reverses we have ever offered and it is from one of the most famous old time toned dollar collections. Intensely brilliant luster booms all over, especially brilliant with hints of delicate reflective, semi-PL flash on the reverse. This wonderful brilliance truly enlivens the stunning color! Wavy bands and splashes of rainbow iridescent toning dominate the reverse, with stunning neon pinks and purples blending with Caribbean aqua teal, tangerine-orange, and lemon yellow. We rate the color as a 9.5.

This GEM is truly magnificent in every way. The Battle Creek Collection was sold in several parts by Superior in the early 2000s and precious few are seen on the market in their original NGC-encapsulations. Truly a wonderful example that will see very spirited bidding from the toned dollar cognoscenti.

What a neat elliptical shaped toning pattern on this SUPERB GEM 85-O! A frame of colorful rainbow toning surrounds an egg-shaped blast of frosty untoned brilliant silver that seems to focus a spotlight on Liberty's face. The color is really neat and brought out by a brilliant frosty luster. Well struck and well preserved, the surfaces are generally clean and the eye appeal is top notch!

PCGS 392, NGC 615. This beautifully toned SUPERB GEM is worthy of a very strong bid, it would not be a shock to any of us if it surpassed the current PCGS Price Guide value of \$1,500. RARE any finer, this is a gorgeous coin for the toned dollar collector.

**LOT 458****\$1 1887 DONKEY TAIL. VAM-1A. PCGS MS62 CAC**

One of the more famous and important of the Top 100 VAM varieties, the Donkey Tail is quite scarce in all grades and VERY RARE in Mint State. Indeed, this MS62 is among the 10 FINEST KNOWN at PCGS, with the finest at MS63. So named because of the die break off the D in DOLLAR.

Satiny mint frost glows boldly under the iridescent pearly-silver-rose patina. Somewhat flat on Liberty's ear, but otherwise the strike is bold. Some minor scuffs are seen and account for the modest grade, but they have virtually no impact on the outstanding eye appeal.

PCGS 4, NGC 1. CAC does not break out varieties. The current Collectors Universe value is listed at \$6,250. Only six are finer with MS63 at the Top grade. Morgan dollar specialists take heed and bid accordingly.

PCGS# 7172 | EST: \$3,000+

**LOT 459****\$1 1887 PCGS MS64**

With a mintage of over 20 million, there is nothing rare or scarce when it comes to 1887 Morgan (PCGS has graded nearly 70,000 in MS64). However, this MS64 has a very interesting toning pattern. Two coins clearly sat on the surface, leaving just a swath up the middle with two convex curves on either side, creating a double crescent pattern. Deeper shades of blue and green dominate with rose, gold, and fuchsia at the edges. The color rates an 8+ on our 10-point scale. The coin is accurately graded with just hints of contact in the lustrous silver field of the obverse and the strike is bold, adding to the exceptional eye appeal.

PCGS# 7172 | EST: \$350+

**LOT 460****\$1 1887 PCGS MS64 CAC**

A lovely splash of rainbow toning covers about 25% of the obverse in front of Liberty's portrait. The surfaces are highly lustrous, enlivening the color and the silver surfaces are exceptionally lustrous. A borderline GEM, this coin has a fantastic eye appeal.

**LOT 461****\$1 1887 PCGS MS65 CAC**

Crazy, "funkadelic" end roll toning. The folds of the paper imparted one of the coolest geometric patterns of color we have ever offered. Reminiscent of such memorable toned GEMs we have offered with such names as "Twiggy" and "Gazer Beams".

The lustrous surfaces are adorned with crisscrossing angular bands of rainbow toning that leave neat swatches of original silver that beam through. You really have to look at this coin in the hand to truly appreciate the uniqueness of the toning pattern. Rich purple, deep moss, flashy magenta, and radiant golden-orange hues rate a 9 on our 10-point color scale. Well struck and generally clean over all the coin is all there for the assigned grade and deserving of its CAC bean. The coolness factor of this toning pattern will vault this to another level.

**LOT 462****\$1 1887 PCGS MS65 CAC**

A gorgeous textile bag toned GEM 1887 Morgan dollar. Exceptionally brilliant mint luster blazes boldly with sweeping cartwheel luster on both sides. The obverse is awash in a vibrant verdant toning scheme with ample gold and pale blue, complimented by some faint rose, pink, and tangerine hues. As you rotate the coin the faint impressions from the canvas bag can be seen, adding to the eye appeal. The color is a 9+ on our 10-point scale and the eye appeal is augmented by a bold, crisp strike and white hot silver luster on the reverse. This is a WOW coin for sure and will entice any toned Morgan dollar collector. And, just one last quick note: this coin is housed in an old green tag holder.

PCGS# 7172 | EST: \$1,000+

**LOT 463****\$1 1890-O PCGS MS65**

The 1890-O with a mintage of over 10.7 million is a surprising rarity in GEM and higher grades. Large quantities were likely stored in Treasury vaults and melted down after the passage of the 1918 Pittman Act. Not only is this date rare in this grade, but it is also a date that does not come with pretty toning. This GEM has a fabulous verdant pastel tone, with hints of blue, rose, orange and gold that accent the soft olive-clover, sea-green that graces the entire surface of the obverse, save for some dappled splashes of original silver surfaces. We rate the color an 8 on our 10-point scale. Pale gold on the reverse accents the lustrous GEMMY surfaces. The strike is bold, with only a hint of softness at the centers.

PCGS 830, NGC 210. Ignore the published figures and APRs. RARE any finer, this coin has it all for the collector working on a set of toned Morgan dollars. Remember, this date rarely comes with any kind of attractive toning.

PCGS# 7200 | EST: \$2,000+

LOT 464**\$1 1891-CC PCGS MS62 CAC**

This is a wonderfully original reverse toned CHOICE 91-CC dollar. Incredible color graces the reverse in shades of tangerine and rose hues. We rate the color 8.5 on our 10-point scale. The obverse is white and untoned. This coin is conservatively graded in our opinion and we would not be shocked if this coin ended up one day in a higher grade holder (no guarantees). The 91-CC is not a common date with this kind of color and worthy of a great date set!

PCGS 3821, NGC 1291, CAC 130. The CAC CPG value is \$972, but this gorgeously toned CHOICE example is worthy of a very strong bid.

PCGS# 7206 | EST: \$1,000+

LOT 465

\$1 1892-CC PCGS MS66+ CAC

Not only is this GEM 1892-CC high grade, it is absolutely among the FINEST graded by PCGS (Pop 5; 3 finer); it is among the most beautiful! WOW! Indeed, we believe this coin to be more beautiful than the Sunnywood-Simpson coin that we have had the honor of selling before--that speaks VOLUMES to the quality and eye appeal! The 1892-CC is a date that is VERY RARELY seen with color and this one is a MONSTER for the date!

This is a STUNNING example! Offering a bold, crisp strike with essentially full details (you can ignore the hint of softness on Liberty's hair curl above her ear. The dies had clashed and cracked when this borderline SUPERB GEM was struck. Exceptionally lustrous surfaces have a bold cartwheel flash with some semi-Prooflike brilliance on the reverse. The obverse is awash in a swirling melange of blues, golds, oranges, and violets in varied hues, while some subtle hints of the original silver peaks through when rotated in a light. The reverse is essentially untoned, save for some toning by ONE DOLLAR on the lower reverse. For the date, (which does not come with such dramatic color) we rate the toning a 10 out of 10! Were it not for a tiny tick on the reverse, this coin would have possibly graded even higher, but the eye appeal is unaffected and the quality is amazing.

PCGS 45, NGC 16, CAC 12. There are just five graded MS66+ at PCGS. The most recent example to sell in auction brought \$42,300 in our October 2019 Exclusively Legend event. That coin had an extensive pedigree including Bill Spears' Greatest CC Set of All Time; PCGS Tour Set; the NFL Set; Michael Casper Collection; Arno Collection; Sunnywood Collection; Simpson Collection; the CC Collection That Should Not Exist. This coin's earlier pedigree is unknown but was sold as part of the Ralph and Lois Stone Collection, which hammered at \$40,000 in May 2018. The current PCGS Price Guide value is listed at \$50,000 and it doubles to \$100,000 in MS67. Worthy of the finest of TONED Morgan dollar sets, if this coin had been around when Sunnywood was building his set, this coin would have been in it. Good luck!

PCGS# 7214 | EST: \$42,000+

**LOT 466****\$1 1894-O PCGS MS62 CAC**

A totally original and problem free BU example of this semi-KEY date that displays distinct claims to a CHOICE designation. Rich pearly-gray with soft golden accents at the rims, the underlying luster blooms giving depth to the antique patina. Well struck for the issue, there is only a touch of scattered contact and old lines that account for the assigned grade.

PCGS 388, NGC 201, CAC 10. Recent NON-CAC PCGS-graded examples have sold in the \$3,000-\$3,500 range. The last CAC-approved example sold back in 2019, and the market for dollars is much stronger today, making records prior to 2021 irrelevant. The current CAC CPG value is \$4,310. VERY SCARCE finer. An affordable Mint State example for the collector that demands PCGS/CAC examples.

PCGS# 7230 | EST: \$3,000+

**LOT 468****\$1 1896 PCGS MS65 CAC**

What a gorgeous GEM! From subtle silver blue and in the center to brilliant gold and tangerine then a blush of magenta at the rims, this coin has a wonderful palette of color that rates a 9 on our 10 point color scale. Every hue is brought out by a full brilliant cartwheel luster. The eye appeal is tops and worthy of a strong bid.

PCGS# 7240 | EST: \$750+

**LOT 467****\$1 1896 PCGS MS64+**

A splash of wonderfully colorful rainbow toning covers about 20% of the obverse behind Liberty's head and into the top of the headband. We rate the color an 8 on our 10-point color scale. The surfaces are really nice, we are not sure what CAC was thinking in not awarding this near-GEM a bean. Worthy of a strong bid, good luck.

PCGS# 7240 | EST: \$350+

**LOT 469****\$1 1896 PCGS MS66+ CAC**

This is such an AMAZING Monster Toned dollar, you really need to see it in hand, as the photos and description cannot do it justice!

The entire obverse is awash in color. Depending on the angle the light hits the lustrous surfaces, different color blends will pop. Straight on, you see gold and deeper, earthy blues and greens; tilt the coin one way, and magenta and orange hues come to the fore; turn it a different way and the greens pop with lots of aqua teal. What really does it for this SUPERB toner though is the orange-gold that found its way into the depths of Liberty's hair curls, which glow like fiery embers. We rate the color a 10 on our 10-point scale. The reverse is mostly untoned with just a delicate splash of gold at the lower right rim. The typical 1896 strike is seen with generally nicely impressed details overall, with just some minor weakness on the hair above Liberty's ear. A couple of very minor traces of contact are all that keep this MONSTER from an even loftier grade.

This is a coin that will attract fierce and spirited bidding when it crosses the block. It would not come as a shock if this coin realized a RECORD price for the assigned grade. Bound for a world class set like Roadrunner or Northern Lights, so bid accordingly.

PCGS# 7240 | EST: \$3,500+

coppery-red at the extreme periphery. The surfaces are ultra clean and the eye appeal is sensational!

PCGS 18, NGC 5, CAC 5. This coin is ex Perfection Collection, selling for \$9,300 in the 2019 ANA auction. Both the CAC CPG and PCGS Price Guide values are listed at \$7,500. Just four have graded higher, including a 67 DMPL that has not sold since 2008. This is a sensational and important GEM for the collector who demands the best! Good luck.

NOTES

LOT 471

\$1 1899-S PCGS MS67 PL CAC

A blazing Prooflike SUPERB GEM, arguably the FINEST KNOWN example of this conditionally challenging date in the designation and among the FINEST of the date regardless of the designation! Just one look at this AMAZING example and you will see just how special it is!

Extremely bright and brilliantly reflective fields flash boldly. The strike is sharp all over on both sides. The silver is remarkably untoned with just a hint of icy pearlescent silver iridescent toning. The eye appeal is amazing in every way!

PCGS 2, NGC 0, CAC 1. This is the ONLY one to ever appear in auction, both times as part of important Morgan dollar collections: Anne Kate and Larry H. Miller. It sold most recently for \$28,800 and the current Collectors Universe value is listed at \$32,500. With NONE FINER in the PL designation and the last non-PL PCGS/CAC coin sold for nearly \$50,000 in our May 2018 Regency Auction, this marvelous coin should bring a very strong price this time around. Good luck!

PCGS# 7263 | EST: \$28,000+

**LOT 472****\$1 1903-O PCGS MS66 CAC**

At one time, the 03-O was counted among the RAREST of all Morgan dollars in Mint State--that was before a number of original bags came out of Treasury vaults in the 1960s. Today, they are fairly available, but scarce in MS66 as here. The present GEM is boldly struck and very lustrous with a wonderfully dappled multicolored patina, imparted by long term envelope storage. The eye appeal is superb.

PCGS 818, NGC 365, CAC 219. The most recent example sold for \$1,140 in June 2021. The current CAC CPG value is \$1,370 and the PCGS Price Guide value is listed at \$1,250. Scarce finer this is a date that rarely comes toned, and this one belongs in a really nice set of toned dollars by date. Good luck!

PCGS# 7286 | EST: \$1,200+

**LOT 473****\$1 1904-O PCGS MS65**

This is a GLORIOUS album toned GEM example of this final New Orleans mint Morgan dollar. Both obverse and reverse exhibit beautiful, concentric rings of rainbow color which is enlivened by the strong mint brilliance. The color rates a 9 on our 10-point scale and is quite lovely. We are not sure why CAC did not bean this GEM, it certainly looks like it should have in our opinion.

This truly remarkable example is worthy of a high end collection of toned Morgan dollars. Do not let this one pass you by!

PCGS# 7292 | EST: \$1,200+

**LOT 474****\$1 1904-O PCGS MS65**

A lovely example of this last New Orleans Morgan dollar issue. The obverse is awash in swirling toning that covers the entirety of the lustrous GEM surfaces. Apricot, orange, sky blue, pale yellow-green, lilac-rose, teal-blue, and bold royal purple hues meld nicely together in a swirling pattern, which rate an 8.5+ on our 10 point color scale. The devices are crisp and the surfaces are nice for the grade, with few contact marks. It is a head scratcher why CAC did not bean this GEM, but we certainly like it. Bidding should be strong for this wonderful 04-O and we suspect our estimate will prove quite low when the hammer finally falls.

PCGS# 7292 | EST: \$600+

**LOT 475****\$1 1904-O PCGS MS65 CAC**

Lovely old envelope toning graces both sides of this LUSTROUS GEM 04-O. Pale pastel blue, gold, pewter, and rose hues are gently dusted across both sides. Well struck, this is a wonderful example of the last New Orleans mint Morgan dollar and worthy of a premium bid!

PCGS# 7292 | EST: \$300+

**LOT 476****\$1 1904-O PCGS MS67**

SUPERB quality surfaces radiate with a swirling satiny luster on the obverse and semi-Prooflike brilliance on the reverse. The obverse is deeply and darkly toned in a rich purple-blue with green and gold accents. Clearly an end roll toner, as there are crossing bands of brilliant untoned silver that shows where the paper was folded over. The reverse has a dusting of pale clover in the center and deepens to teal and rose closer to the rims. The obverse is an 8.5+ and the reverse is an 8 on our 10 point color scale. The luster is bold and brings life to the gorgeous tones. Sharply struck for the date. RARE this fine, extremely so any finer.

PCGS 86, NGC 141. Do not let the Pops fool you, GEM toned 04-O dollars command strong bids from specialist collectors. The PCGS Price Guide value is listed at \$4,500 and this SUPERB GEM should bring well in excess of that level. Only a half dozen in MS67+ are graded finer. Worthy of a great set of toned Morgan dollars. Good luck!

PCGS# 7292 | EST: \$4,500+

Both sides are attractively toned, clearly this coin was carefully stored in an old envelope, which allowed it to take on a wonderful, even toning. A dominant olive-tan hue is dusted over the centers with dappled pastel rose, lilac, gold, pink, and green hues. The peripheral areas are somewhat deeper, framing both sides. For the date, we rate the color 8+ on our 10 point scale. The strike is bold and crisp with sharp central devices and the surfaces are very clean.

PCGS 21, NGC 13. This is a very rare opportunity for the toned dollar collector. We suspect this SUPERB GEM will bring more than the \$12,500 listed in the PCGS Price Guide. The surfaces are cleaner than the one we sold in 2019 for \$14,688.

LOT 477**\$1 1921 MORGAN. PCGS MS66**

One of the hardest Morgan dollar dates to find with any kind of color, let alone SUPERB rainbow toning as seen on this Premium GEM!

Spectacular bands of concentric color arch boldly around a swath of gold that is splashed in the central portions of the obverse. Starting from the left periphery the colors range from deep brick/magenta red color to orange-salmon, teal-blue, violet-rose, to a flaming tangerine-gold. We rate the color a 9+ overall, but for the date, this coin is a 10 (1921s come more like Peace dollars in terms of toning than Morgan dollars 1878-1904 due to the way the planchets were rinsed prior to striking). The bold luster makes the colors gleam with a bold vivacity throughout. With the aid of a strong glass you will find some minor traces of contact scattered about, but they do not detract from the glorious visual allure imparted by the outrageous toning.

VERY RARE any finer despite a huge mintage of over 44 million. With out a doubt in our opinion, this is the WILDEST TONED 1921 Morgan in existance! Northern Lights would have killed for this coin-even tho it did not bean. Regardless, do not let this GEM Toned 1921 slip past you. Good luck.

PCGS# 7296 | EST: \$3,500+

LOT 478**\$1 1921 MORGAN. PCGS MS67**

The mint stopped striking Morgan dollars in 1904, and in 1918, millions of silver dollars that were sitting in storage were melted down into bullion to the auspices of the Pittman Act. Following the mass melting, in 1921 the mint began striking dollars again. Over 44.6 million dollars fell off the presses in Philadelphia, but these are VERY RARE in SUPERB GEM grade. Indeed, at this lofty state of preservation, PCGS has graded only 21 pieces. The 1921, is also a rarity with any kind of attractive toning.

PCGS# 7296 | EST: \$10,000+

LOT 479**\$1 1903 NGC PR67 CAC**

What a gorgeous SUPERB GEM 1903 Proof Morgan! The quality is incredible and the eye appeal superior to the vast majority known. WOW! After 1901, for reasons unknown, the mint changed the method of preparing Proof dies. Prior to 1901, the devices were protected to leave them with a frosted texture, surrounding the reflective mirrored fields. After 1901, the mint polished the entire surface of the dies, not just the fields, giving the devices a glossy-reflective texture and not the frosted cameo look as seen on earlier issues.

The present exceptional quality PR67 has absolutely flawless mirrors and surfaces that gleam from below a thick, rich layer of deep azure and verdant toning. Accents of amber, gold, and original silver gleam when the light hits the stunning underlying reflective brilliance. You need to see this SUPERB GEM in hand to get the full effect of the eye appeal!

Only 755 Proofs were struck. PCGS 11, NGC 25, CAC 7. This coin is the ONLY CAC example of this grade to sell; most recently it sold in the 2020 FUN auction for \$11,400. The current CAC CPG value is \$13,500 and the Collectors Universe value is \$15,000. Needless to say this coin is VERY RARE any finer. Bound for a great set of Proof Morgan dollars and we would not be surprised if this coin brought a record bid for the grade.

PCGS# 7338 | EST: \$11,000+

Sharply struck devices stand out boldly. Really the only thing in the fields other than the die polishing lines are some areas of iridescent white tone on the reverse. The eye appeal is sensational.

PCGS 3, NGC 0, CAC 251 (all varieties). No PCGS MS65 example of this variety has ever sold in auction (per PCGS CoinFacts), but a non-CAC MS64 sold in August 2018 for \$840 and a non-CAC PCGS MS66 sold in the 2019 FUN auction for \$19,200. The PCGS Price Guide value of \$5,000 seems like a reasonable value for this GEM, but only the final two bidders will determine what it is truly worth. Bound for a really neat collection of Peace dollars, which have been hot as of late. Good luck.

PCGS# 7356 | EST: \$5,000+

**LOT 481****\$1 1921 PEACE HIGH RELIEF. PCGS MS65+**

A sensational GEM 1921 Peace dollar. Bold satiny luster graces both sides, accenting the pearly silver brilliance in the centers and framed by the tiniest hint of color at the rims. Generally well struck save for a touch of weakness at the central hair details. Nary a mark worthy of mention can be found even with the aid of a powerful loupe. The eye appeal is excellent. With the centenary of this type being celebrated with 2021 Peace dollars issued by the U.S. Mint, these have become especially popular this year. As a one year type struck in high relief, the 1921 is always in demand, more so now than ever.

PCGS 83, NGC 61. The last one sold nearly two years ago for \$3,000 and the Collectors Universe value is listed at \$5,250. Scarce finer, this is a beautiful example of this first year of issue. Bidding will be strong when this GEM crosses the block.

PCGS# 7356 | EST: \$3,200+

**LOT 483****\$1 1922 PCGS MS65+ CAC**

A sensational GEM album toned Peace dollar. Both sides are intensively lustrous with bold radiating cartwheels. Both sides have beautiful peripheral toning. The obverse halo has golden and orange hues that as you tilt the lustrous surfaces in a light, hints of violet and blue come out. The reverse toning is similar, the frame going a little deeper into the surfaces and the purples and the greens are bolder. The eye appeal of this GEM is absolutely amazing. Unmarred by any serious marks or other issues, the eye appeal is exceptional for this issue and grade.

This impressive GEM is bound to bring a record price for the assigned grade. Truly a special Peace dollar, one that will delight any collector of toned Peace dollars.

PCGS# 7357 | EST: \$1,250+

**LOT 482****\$1 1922 NGC MS65***

Ex Binion Collection, as noted on the insert.

The Binion Collection, a hoard of silver coins owned by former Las Vegas casino magnate, Ted Binion made quite the splash when it hit the market about two decades ago. About 100,000 silver dollars were included, in all grades. Some of these coins, such as the presently offered GEM Peace dollar had acquired beautiful toning. The reverse has a swath of rainbow toning that covers about 20% of the lower portion of that side. Gorgeous gold fades into the brilliant silver surfaces, while hues of blue-green, indigo, and crimson sit below the orange-gold. The surfaces are very lustrous with an intense brilliance.

The eye appeal of this GEM is wonderful and the story of the Binion hoard offers intrigue to the collector. Good luck.

WHOA! Look at all the colors! A stunning array swirls blissfully all over the satiny smooth surfaces of this GEM 1922 Peace dollar.

An intriguing mix of rose, apricot, gold, violet, pale blue, soft peach, warm pink and emerald green tones swirl in a vibrant blend we rate a 9 out of 10 on our color scale. A bold and brilliant luster rolls smoothly all over the surface enlivening the color. Sharply struck up, the details are crisp. There are a few tiny ticks under the color, but these are appropriate for the assigned grade and have limited impact visual allure!

This is a killer, knock out, stone cold borderline SUPERB GEM Peace dollar! Everything about this blast white, lustrous coin is exceptional and amazing! First the luster is thick and frosty with near blinding vibrance. The surfaces swirl with a bold cartwheel effect. Totally untoned, the surfaces show just a few minor ticks, none of which are worthy of singular mention. The eye appeal is truly spectacular.

PCGS and NGC combined have graded 6,529 in MS66 and MS66+ and CAC has approved 948. RARE finer. The most recent PCGS MS66+ CAC to sell realized \$840 in May 2021 and the current Collectors Universe value is listed at \$775. golds, oranges, purples, greens, and blues rate a 9+ on our 10-point color scale. The reverse has a less dramatic mix of deeper dove-silver and a blush of rim toning. Every detail is razor sharp and any tiny tick is hidden under the magnificent toning.

Take a look at the beautiful toning that graces the obverse. This looks like a GEM Morgan dollar toner, not a conditionally rare Peace dollar toner. Indeed the swirling mix of reds, golds, oranges, purples, greens, and blues rate a 9+ on our 10-point color scale. The reverse has a less dramatic mix of deeper dove-silver and a blush of rim toning. Every detail is razor sharp and any tiny tick is hidden under the magnificent toning. This GEM has a dramatic visual allure!

Here is a late date Peace dollar that RARELY comes with any color. This coin is beautifully toned on both sides with tangerine, rose, magenta, hints of green, blue, and violet in a pointillist toning pattern Satiny lustrous surfaces radiate boldly, giving this VERY CHOICE and beautiful coin a great look. We rate the color overall as an 8+ but for the issue its certainly higher. There are some minor ticks and marks which account for the grade, mostly hidden under the sensational toning. Needless to say the eye appeal is certainly AMAZING.

PCGS 2094, NGC 1276, CAC 59. This coin is worthy of a very strong bid and we expect that a record price for an MS63 will be achieved when this beauty crosses the block!

WOW, WOW, WOW! This has got to be the most beautiful Eisenhower dollar that exists! The quality and eye appeal is truly AMAZING!

Swirling bands of green, magenta, tangerine, and azure toning is brought out by the beautiful, brilliant mint luster. This coin's colors rate off the charts on our 10-point color scale. The vivacity of the lustrous surfaces unbelievable. These 40% silver clad Ikes were sold to collectors, and rarely do they have any kind of attractive toning. Often if they acquired any color, its is milky and hazy with a touch of gold. This is an AMAZING coin that would bring a RECORD price even if it was offered RAW!

We rank it SUPER HIGH END. Even in GEM grades, the luster is usually muted and the surfaces are toned in a dullish gray, silver hue. This magnificent Premium GEM is the exact opposite of what you normally

see graded MS66. Ultra satiny mint luster blooms all over the smooth surfaces. We cannot stress enough the cleanliness of this coin. In fact, only a single well hidden reeding mark on the reverse is what keeps this coin from MS67. Clearly this wonderful coin sat in the original packaging, undisturbed for years, where it was able to acquire a layer of totally original rich (but NOT dark), blue/green-reddish gold coloration all over. LOT 508

\$50 1915-S PAN-PAC. OCTAGONAL. PCGS MS65 CAC

The 1915-S Panama-Pacific \$50 slug is an American numismatic classic, one of the greatest designs ever struck by the United States mint. With the heft of nearly 2.5 ounces of gold, you really cannot help but have a true sense of WONDER when holding one of these rarities. Of the original authorized mintage of 1,500 coins just 645 survived the melting pot. Its status as one of the 100 Greatest U.S. Coins in the book by Jeff Garrett and Ron Guth make this a truly important and desired type coin. Featuring a classical themed design, the obverse shows the helmeted head of Minvera, the goddess of wisdom and her owl on the reverse. Dolphins are fitted into the angles, representing the wedding of the Atlantic and Pacific Oceans. The Panama Canal opening, which the Panama Pacific Expo honored, was one of the feats of human ingenuity and greatly expanded global trade. The \$50 designs, in round and octagonal formats hearkened back to the territorial issues of Wass-Molitor and Augustus Humbert.

This GEM Octagonal slug glistens with a glossy, satin mint luster that is bright and brilliant. Every detail is exceptionally well struck. A strong glass reveals one or two of the most insignificant ticks but they have no bearing either on the stunning eye appeal or technical quality. Truly, this GEM is one of the FINEST we have handled.

Only 645 were struck. PCGS 23, NGC 44, CAC 13. DO NOT let the pops fool you, only two PCGS/CAC MS65s have ever sold in auction, including one in April 2016 for \$205,625. \$5 1823 PCGS MS63+ CAC

Legend Rare Coin Auctions is proud to offer this VERY high-end classic early \$5 design. For an early half eagle, this 1823 is of exceptional quality, originality, and visual appeal. We consider this coin to be closer to MS64 quality than MS63. Truly a special example of this very difficult type. For the date, this wonderful early "Fat Head" five sits in the condition census for the date with fewer than a dozen graded in MS63+ or finer grades.

To start, this BD-1 (rated R-4+), has a very clean and satiny look. Only with a strong glass can you find a few very light ticks and giggles (lines). A surprisingly strong luster (this coin does NOT glow like a later date) shows off pretty and totally ORIGINAL deeper yellow gold colors. There are NO spots or discolorations. Miss Liberty and the details are frosty and have exceptional sharp strikes. The eye appeal is fantastic!

Only 14,485 half eagles were struck, of which perhaps 70-90 examples are thought to survive today. As with other dates of the type, the intrinsic value of the metal in the coin exceeded its face value. Enterprising individuals exported them, had them melted into bullion, and then brought the metal back in to the U.S., netting a tidy profit. As such, very few of each date survive, and it is a Type our sister company (Legend Numismatics) has chased all their careers owning no more than 4-5 total (all grades, different dates). The quality and ORIGINALITY of this coin are indisputable!

PCGS 7, NGC 3, CAC 3. There are three in MS63+ (which we think includes multiple submissions of the same coin looking for an MS64 grade). This coin last sold six years ago for \$70,500 as an MS63. There are no records for an MS63+ selling. There are perhaps ten coins total graded finer at both services combined.

**LOT 525****\$5 1855 PCGS MS62**

A CHOICE Mint State example of this scarce, early date Lib \$5. Just over 117,000 were struck, and most went right into circulation. David Akers noted these are RARE in AU or Mint State. Brilliant honey gold surfaces gleam with a strong, vibrant luster. There are accents of semi-reflective brilliance that add to the flashy look. The sharply struck devices are a delight to behold, with all the details bold. We note some light lines and contact but there is no wear or friction anywhere to be found. Despite the minor flaws, the eye appeal is sensational!

PCGS 8, NGC 4. A recent sale from February 2021 brought \$3,360, close to the current PCGS Price Guide of \$3,750. VERY RARE any finer, just a dozen have been graded higher at PCGS. David Akers wrote in his opus on gold coins, "I do not know of a specimen that would grade better than EF." Many known have issues that would preclude numeric grading, so this generally pleasing AU53 is a rare prize indeed.

the fields surrounding the devices. Typical for the issue the design elements have some weakness, especially on the mint mark. Scattered contact is seen, though evenly distributed on both sides, none of these are singularly distracting. The color is pleasing. This is a rare date and a great collector grade piece.

PCGS 5, NGC 11. The last NGC-graded piece sold nine years ago for \$6,463. More recently a PCGS AU50 sold for \$9,850 in May 2021. The AU53 Collectors Universe price is \$11,000. VERY RARE any finer. This is a great opportunity for the advanced collector. Good luck.

\$5 1891-CC NGC MS64 CAC

An incredible near-GEM Carson City half eagle! As the most available date, the 91-CC \$5 is often collected as a type coin to represent the mint in a gold type set.

The present VERY CHOICE example is wholly original and fabulously eye appealing. A rich frosty golden satin luster glows with a vibrant mint brilliance on both sides. A strong glass reveals some non-invasive scattered contact. The strike is sharp and the eye appeal is amazing.

PCGS 88, NGC 63, CAC 24. No NGC/CAC example has ever sold in auction, but the most recent NGC-graded example sold in March 2021, realizing \$7,800. NGC has graded just 17 finer, MS65 finest. Worthy of a great type or date set. Wonderful in every way, we know this near-GEM will see strong bidding.

PCGS# 8378 | EST: \$6,500+

**LOT 530****\$5 1909-D PCGS MS63 CAC**

Choice and original, this is a pleasing example for a type or date collector. Well struck and lustrous with a rich, deep orange gold tone, this \$5 Indian has a great look for the grade. There is some minor contact but the eye appeal does not negatively impact the CHOICE eye appeal.

PCGS 10790, NGC 8053, CAC 768. The most recent example brought \$1,200 and the current CAC CPG value is \$1,390. A great addition to any gold holding.

PCGS# 8514 | EST: \$1,100+**LOT 531****\$5 1912 PCGS MS65+**

This is a truly exceptional GEM 1912 half eagle. Tied for FINEST graded at PCGS with the Simpson coin for top honors, this is a truly remarkable high grade survivor of a mintage of 790,000.

First off, this coin sports a stunning golden hue that is kissed with peach, tangerine, and rose accents. Deeply impressed incuse devices show razor sharp definition throughout the design types. A brilliant golden sheen and exquisite luster gleams all over. Some minor scattered ticks and traces of contact can be found,

mostly in the dreaded field above the eagle on the reverse. These have little bearing on the eye appeal and are appropriate for the assigned grade. This is a truly exceptional quality and eye appealing GEM!

PCGS 4, NGC 1. The most recent sold for \$15,600 in April 2021 and the current PCGS Price Guide value is listed at \$17,500. NONE are finer at PCGS so this coin will find its way into a top ranking PCGS set. Good luck!

PCGS# 8523 | EST: \$14,000+**LOT 532****\$10 1891-CC PCGS MS61**

Intensely brilliant mint luster blazes boldly on both obverse and reverse. There is a hint of reflection in the fields, giving this coin a delightful semi-Prooflike look.

The devices are sharply impressed from an exacting blow from the dies. Vivid golden color radiates boldly and the eye appeal is superb for the assigned grade.

As a “common” Carson City mint \$10, this date and grade are perfect for someone looking to own a representative Carson City mint gold coin.

PCGS 530, NGC 601. These have sold in the \$2,160 to \$2,760 range and the current Collectors Universe value is listed at \$3,250. This is a fantastic coin that will see very strong bidding when it crosses the block.

**LOT 533****\$10 1897 PCGS MS64 CAC**

Deeply frosted with old orange gold toning from long years of storage. Some light contact is visible however surfaces are free of any significant marks.

PCGS 183, NGC 180, CAC 25. PCGS price guide value is \$2,000 and CAC price guide is \$2,500. Despite the date's common date status and 1 million mintage, relatively few survive in the upper mint state grades. A great coin for a gold type set.

PCGS# 8737 | EST: \$1,800+

**LOT 534****\$10 1901-S PCGS MS65+ CAC**

Abundant satiny mint frost radiates and glows vividly on this Premium Quality GEM "+" grade gold eagle. Well struck and wonderfully preserved, there are only a few tiny ticks seen on either side, but they are not detracting from the quality or eye appeal which is high end. The surfaces are totally original and free of serious abrasions resulting in a bold visual allure.

PCGS 1387, NGC 1341, CAC 172. PCGS has graded 105 in MS65+. The most recent sold in the 2021 ANA auction for \$3,600 and the current PCGS Price Guide value is \$3,500. The CAC CPG value is MS65 is \$4,380 and in MS66 is \$9,160. PCGS/CAC GEM gold is one of the hottest segments of the market, and the 01-S eagle is a "generic date" perfect for any gold type set or date set. Worthy of a wonderful collection.

PCGS# 8749 | EST: \$3,200+

**LOT 535****\$10 1901-S PCGS MS64+**

Original rose gold color with modest contact marks on satiny and frosty surfaces. Although considered a common date, a mere 1% of the 2.8 million minted have been graded MS64+ or higher.

PCGS 405, NGC 164. PCGS price guide value \$2,250. US gold is always popular and has been in strong demand — consider this a nice addition to a 4, 8 or 12 piece type set.

PCGS# 8749 | EST: \$1,600+

**LOT 536****\$10 1903-S PCGS MS65+ CAC**

A lovely GEM example that while considered a "generic date" is actually much harder to find in GEM grade than its mintage of 538,000 might suggest. Possessing a bold, golden luster, this GEM is sharp and clean and has a great visual allure!

PCGS 79, NGC 71, CAC 22. This is the only 65+ with CAC to ever sell in auction, back nearly six years ago. The CAC CPG value in MS65 is \$4,380 and in MS66 is \$9,190. This coin will certainly see very strong bidding when the hammer falls. Bound for a superb 20th century gold type set or short set of 20th century \$10 Libs.

PCGS# 8754 | EST: \$4,000+

details are exacting in their precision! WOW the eye appeal and originality are PQ!

PCGS 9, NGC 7. The current PCGS Price Guide value is listed at \$15,000 and the most recent APRs range from \$9,000 to \$21,600. With just five coins graded higher, this Premium GEM is worthy of a great set of \$10 Liberties.

LOT 538

\$10 1906-D PCGS MS64+

A brilliant Mint State 06-D \$10 that has very strong claims to a full GEM grade. Scattered light contact is seen with the aid of a glass, but they have very minimal impact on the frosty brilliant luster that glows vividly in the fields. Well struck, the details are bold and the eye appeal is quite nice.

PCGS 28, NGC 5. Two have sold in the summer of 2021, realizing \$2,640 and \$2,880. Prior to that, the last one sold in 2019 for \$3,840. Clearly the PCGS Price Guide value of \$2,500 is too low. Keep in mind that half a step up will reach the five-figures! A great value in our opinion, so bid accordingly.

LOT 539

\$10 1926 PCGS MS64+ CAC

Vivacious orange-gold patina is brought to life by a sensational GEM mint brilliance. Sharply struck up this coin has the initial appearance of an even higher grade, but close inspection reveals a tiny well hidden tick in the headdress and the eagle's wing. The eye appeal is great.

PCGS 5238, NGC 5104, CAC 382. There are 295 in MS64+ at PCGS. The most recent sold in the 2021 ANA auction for \$2,340 and the current PCGS Price Guide value is listed at \$2,600. VERY RARE any finer with CAC approval, There are 36 in MS65/65+ and 7 in MS66/66+. A great coin for a type set or choice set of Indian Head eagles. Gold bugs take note of this near-GEM.

LOT 540

\$10 1932 PCGS MS66+ CAC

WOW! What a fantastic quality example of this final collectable Indian Head date (the 1933 is extremely rare and virtually unobtainable to most collectors). Tied for second FINEST graded.

The surfaces are FABULOUS! A thick frosty texture emits a bold satiny luster that beams from all over. Both sides enjoy beautiful original and even colors of deeper yellow gold. There are NO spots or discolorations. Only using a really strong glass and looking around can you see a few very trivial signs of any contact. Miss Liberty and the details are sharply struck and have delicate frost. The eye appeal is phenomenal!

PCGS 160, NGC 157, CAC 33. There are 25 reported at PCGS in MS66+. The most recent example sold in our October 2020 sale of the Manasota Key Collection, which brought \$15,863. The current Collectors Universe value is listed at \$20,000. There is a SINGLE MS67 graded finer, a coin that has never sold in auction, and would bring a very strong bid today if it was to come to auction. This tied for second highest graded GEM is worthy of a world class collection and will bring a very strong bid when the hammer falls. Good luck!

PCGS# 8884 | EST: \$15,000+

LOT 541

**\$10 1803 BD-5, EXTRA STAR IN CLOUD. PCGS AU58
CAC**

Wonderfully original and very pleasing for the grade. Beautifully toned surfaces show off varied golden, orange, and reddish hues that outline the devices in the fields. The actual wear is barely perceptible on the highest points and appears as gentle friction on the devices and in the fields. A few ancient scattered ticks can be found with a strong glass and a few mint made adjustment marks can be seen. The reverse has a die crack from the rim at about 6:00 through the tail and up around the right side of the shield. The colorful, rich golden-orange-red tones make this an incredibly gorgeous looking early eagle.

This is an early gold specialists' type of coin! It is a VERY SCARCE die marriage, listed in Bass-Dannreuther reference as Rarity-4+ with an estimated 90-110 known in all grades. In an earlier die state, the extra reverse star is visible boldly on the last cloud, under the F of OF. This coin, struck from a later die state, shows only vestiges of the star, and you do need a strong glass to see it. It is said that Harry Bass was the first to describe the star in the cloud feature on an example he purchased in 1966. It is curious because the star punched on the cloud is a smaller size than those used on gold eagle dies. BD-5 is also the only collectible die pair for the Large Reverse Stars variety, with the BD-6 being a Rarity-7 die pair with about 6-10 known.

PCGS 8, NGC 1, CAC 1. No PCGS/CAC-graded piece has sold since November 2013. The current CAC CPG value is listed at \$48,300. VERY RARE in any Mint State grade, this is a very high end AU58 with a very rare look. For the early gold specialist, this coin has a lot to offer!

PCGS# 88565 | EST: \$35,000+

**LOT 542****\$10 1894 NGC MS60 PL**

Exceptionally flashy PL surfaces have a strong reflection in the fields. Razor sharp definition to the devices stand out. The assigned grade takes into account the numerous minor hits and marks that are exaggerated by the delicate nature of the Prooflike fields.

PCGS 0, NGC 15. None have sold in auction. Unpriced by Collectors Universe, in MS62 PL, the published price is \$2,000 and in this market where all that glitters is gold, this coin could easily surpass that level. Good luck.

PCGS# 88729 | EST: \$1,500+**LOT 543****\$20 1852 PCGS MS62 CAC**

Satin, frosty, lustrous, and brilliant, this early Philadelphia mint Type I double eagle has distinct claims to a CHOICE grade. Scarce in MS62 and downright RARE any finer. Sharply struck devices stand out nicely against incredibly lustrous surfaces. A warm, honey gold tone dominates the brilliant surfaces. Some minor, scattered contact marks are seen on both sides, accounting for the assigned grade. None of the marks have any impact on the outstanding eye appeal.

PCGS 43, NGC 25, CAC 11. Just two PCGS/CAC MS62 examples have sold in auction. One in March 2020 for \$10,800 and one five years ago for \$13,250. The PCGS Price Guide value is listed at \$12,500 and the CAC CPG value is \$13,000. Note: No CAC-approved MS63 has ever sold in auction and the last time a PCGS/CAC MS64 sold was nearly a decade ago, realizing over \$80,000! A great coin for type or date purposes! Good luck.

PCGS# 8906 | EST: \$11,000+**LOT 544****\$20 1853 PCGS AU58 CAC**

Nearly full mint luster abounds on this early Philadelphia Mint Double Eagle. A touch of wear is visible only on the highest points of the design, and contact marks are modest for a \$20 of this era. If the coin was placed into circulation, it was only for a limited time.

PCGS 140, NGC 295, CAC 49. The value is listed in the PCGS price guide as \$5,250 and the CAC price guide as \$5,030. Near mint state and worthy of a premium bid.

PCGS 28, NGC 16. The most recent MS62 to sell in auction realized \$16,800 and was a non-CAC NGC coin (February 2021). No PCGS-graded coin has sold since September 2015. The current PCGS Price Guide suggests a value of \$20,000. Only 4 coins are graded higher at PCGS, and the only MS63 graded by PCGS sold a decade ago. Clearly this is one of the best available to collectors. Do not let this opportunity pass you by! Good luck, bidding will be strong for this conditionally RARE issue. Good luck.

\$20 1875 PCGS MS62

Lustrous rose and orange gold with contact marks consistent with the grade. The design of Type 2 Double Eagles was similar to that of the first type issued from 1850 to 1866; the main difference is the motto "IN GOD WE TRUST" added within the stars above the eagle on the reverse. Type 2's were issued only from 1866 to 1876 and most were heavily circulated. 1875 is one of only a few dates of this type with availability in mint state.

PCGS 399, NGC 249. The PCGS price guide value is \$3,750, and an August 2021 auction recorded a price of \$3,600. A solid Mint State example of the popular Type 2 Liberty Dead design.

The present coin displays a full luster with a flashy, essentially Prooflike finish in the fields. Lively golden surfaces gleam all over. The sharply struck devices stand out nicely with a decent frost. There are some minor traces of contact and friction, which accounts for the assigned grade. The eye appeal is quite nice.

PCGS 254, NGC 481. The last one brought \$5,460 in April 2021 and the current PCGS Price Guide value is listed at \$6,500. This coin will certainly attract strong bidding from the collector of better gold coins. Good luck!

Despite a generous mintage of 1,251,326 pieces, this date is remarkably scarce in MS62 and EXCESSIVELY RARE any finer. Indeed, just four are graded finer at PCGS, all MS63.

This is a wonderful essentially CHOICE quality Mint State example. A rich mint luster glows in the fields under a totally original layer of rich orange patina. Sharply struck up, the devices are bold and frosty. The grade takes into account the few assorted

and scattered traces of ancient contact, but nothing is singularly distracting in anyway. The eye appeal is quite nice!

LOT 548

\$20 1890 PCGS MS62

Satiny luster and rich rose gold toning combine for outstanding eye appeal. Contact marks are typical for this large heavy gold coin and consistent with the assigned grade. Only 75,490 were struck for circulation, and while a modest amount remains in Mint State, the date is challenging to locate in MS63 or better.

PCGS 294, NGC 216. The PCGS price guide lists the value as \$4,000. The recent auction appearance for the date and grade recorded a price of \$4320 in August 2021. Tough to locate much finer and an excellent value for the grade.

A gorgeous GEM, one we are glad to offer again, as this beauty came from our October 2020 Regency Auction, where it was described as:

"For an MS65+, this coin is a rock star! We never ever see these like this. Its really is just a light frost break from MS66."

The surfaces have an intense thick satiny texture. A bold glowing luster beams from all over. Original colors of thick gold/pale greenish gold (on the reverse) are a delight to see. There are NO discolorations or spots. The originality of this coin is unquestionable. Miss Liberty and the details are frosty and sharply struck. The eye appeal is intense!"

PCGS 99, NGC 127, CAC 11. There are just 9 in MS65+ and a single MS66 graded finer. The current Collectors Universe value is listed at \$17,500. Prior to this coin selling, one sold for \$16,200. A really nice, original, lustrous coin that in the old days would have been called a GEM. The surfaces radiate with a golden brilliance. Sharply struck devices stand out and the surfaces are generally of high end quality. We love the way this coin looks.

This is a slightly better date in GEM, this MS64+ has a great look and is a great price point for the collector. The current Collectors Universe value is listed at \$3,750 and the CAC CPG value in MS65 is \$6,250. A great coin for the gold bug or type collector.

Super frosty and lustrous surfaces in orange-rose gold are unusually free of distracting marks for the date. Considered common in grades up to MS64, the date is relatively scarce in MS 65 and nearly impossible to locate any finer.

PCGS 639, NGC 472. The price guide value given by PCGS is \$4,500. A PCGS graded coin last sold for \$3,600 at auction in April 2020. Above average for the designated grade, and surprisingly without a CAC sticker, this coin is sure to inspire competitive bidding.

Ex Fairmont Collection, as noted on
the insert.

The 1902 is a famed low mintage Liberty Head double eagle, indeed the 31,140 is the lowest mintage in the 20th century for this popular type. Not only is the date scarce in CHOICE Mint State grade, but it is incredibly RARE any finer, with survivors grading MS63+ and finer numbering at exactly 20 combined between PCGS and NGC.

Warm original medium honey gold coloration is delightfully lustrous and frosty with a strong satiny brilliance. The devices are nicely rendered and the surfaces show some minor marks, but they are not heavily marred or hacked up in any way. The eye appeal is quite nice.

PCGS 3, NGC 0. None have sold in three years, since this coin sold. Since then, non-CAC MS63 (no +) coins have sold for more, with three selling in 2020 between \$7,200 and \$8,400. In MS63+ the PCGS Price Guide value is listed at \$12,500, and it jumps to \$45,000 in MS64. In fact, PCGS and NGC combined have graded 59 MS65's and only 5 MS65+, with none finer. For all practical purposes, MS64 is likely the best most collectors can hope to buy unless they wish to pay a substantial premium.

The coins were mostly MS65 and MS66 grade, with nearly 1,000 originally graded MS67, a couple hundred graded MS68, and remarkably there were ten that graded MS69!

This is a very lovely and vibrant SUPERB GEM Saint. Swirling mint luster graces both sides of this SUPERB GEM. Exceptionally well struck and free of any distracting marks. The color is a gorgeous, medium gold hue.

PCGS 804, NGC 872. Two sold in January 2021 for \$5,160. The current Collectors Universe value is listed at \$7,000. With any other “generic” date in this grade bringing double, these are perfect for the type collector or gold bug wanting a SUPERB GEM Saint. Good luck.

Exceptionally brilliant golden surfaces gleam brilliantly all over. The devices are all wonderfully sharp and crisp. Just a few minor ticks keep this from a full GEM grade, but the visual impact is essentially that of a higher grade.

PCGS 1729, NGC 920, CAC 106. NGC has graded only 38 in MS64+ and 160 finer. Only a single NGC MS64+ ever sold in auction, and was not CAC approved. A PCGS MS64+ CAC sold in June 2021 for \$3,240. LOT 565**\$20 1915-S PCGS MS65**

Surfaces are similar in appearance to the 1914-S, with substantial luster and deep orange gold toning. Mintage and survival rate in MS65 or better are somewhat lower than the 14-S with a resulting higher value.

PCGS 2,343, NGC 1,784. The PCGS price guide value is \$4,000. The most recent auction record was \$3,720 in August 2021. Only 2 coins have been graded MS67 and 440 pieces graded MS66, making an MS65 the highest available to collectors at a reasonable price.

PCGS# 9168 | EST: \$2,800+

LOT 566**\$20 1924 NGC MS67**

WOW! This is a lovely, original SUPERB 1924 Saint. While its status as the most common date in the series, they are anything but common in this lofty state of preservation.

Beautiful, lustrous surfaces have a bold, rich golden-orange patination over the sharply struck details and generally clean, defect free surfaces. The eye appeal is quite nice.

PCGS 122, NGC 215. Two examples sold

in June 2021 (the two most recent non-CAC NGC MS67s to sell) realizing \$12,000 and \$10,500. The current Collectors Universe value is listed at \$16,000. NOTE: the market for gold is strong and any MS67 Saint is a highly desirable coin.

PCGS# 9177 | EST: \$10,000+

LOT 567**\$20 1927 PCGS MS64 CAC**

What a beautiful MS64! While a generic date with over 100,000 graded between PCGS and NGC at this level, this one has to be among finest of them. Minimal traces of contact can be found anywhere on this brilliantly lustrous near-GEM. Strong details were rendered by an exacting blow from the dies. Dappled with orange and gold color, this coin oozes with originality.

\$2,585. With a PCGS Price Guide of \$2,400, and a CAC CPG value of \$2,650 this should certainly be a coin to consider for any gold holding.

PCGS# 9186 | EST: \$2,000+

struck on both sides, this highly original and beautiful GEM offers a high-end, wonderful look.

The idea tried on these patterns was to make a wider, but thinner planchet to avoid removing gold from the centers of the regular, thicker planchets and filling the void with lead or some other metal and pocketing the profit.

PCGS 2, NGC 1, CAC 2. This GEM is from our July 2018 Regency Auction, sold for \$9,988 as part of the Steven Cook Collection. The current Collectors Universe value is \$12,000. Since 2018, the market for GEM patterns has picked up with the recent sales of selections from the Bob Simpson Collection. For reference, the Simpson coin was a non-CAC PR63 BN that sold for \$7,200 in the 2021 FUN auction. It would not be a surprise if this GEM sold for more this time around. Do not let this opportunity pass you by!

PCGS# 12078 | EST: \$9,000+

**LOT 569
1C 1863 J-299. PCGS PR65 BN**
A popular “transitional” issue struck with the regular dies on a bronze planchet used from 1864-1909. Struck in medal turn, as opposed to coin turn, as typically seen. A Rarity-3 pattern, making it a great introductory level issue for those looking to “dip a toe” into the exciting world of pattern collecting.

Brilliant, watery mirrors belie some wonderful golden-brown and lilac, rose, and violet accents. The strike is bold and the surfaces are devoid of any serious contact, lines, or flecks. The eye appeal is wonderful.

PCGS 11, NGC 11. The most recent PCGS-graded examples sold in 2016, realizing \$1,540 and \$1,763. The current Collectors Universe value is listed at \$2,000. Just 9 are graded finer in the BN designation, including the PR66+ BN we sold for a record \$7,931 in October 2017. Worthy of an advanced Indian Head cent collection or burgeoning Pattern collection.

This GEM presents a great opportunity.

CAM CAC

Ex Simpson, as noted on the insert.

A rare Pattern Seated Liberty quarter, struck after 1866 for sale to collectors, it mates a regular Proof quarter die from 1863 and a with MOTTO reverse die (post 1866). Struck in silver with a reeded edge, this is a very challenging Rarity-7-

pattern with fewer than a dozen thought extant. These were struck for collectors and sold in sets with the motto GOD OUR TRUST on a ribbon and in the field and the adopted IN GOD WE TRUST on the ribbon.

Ultra deep, watery reflective mirrors in the fields are a delight to behold. The frosted devices stand out boldly accented by original shades of gold, violet-rose, and soft blue patina. The surfaces are full GEM quality and there are no distracting lines or marks of any kind. The eye appeal is superb.

PCGS 1, NGC 0, CAC 1. This coin sold for \$8,400 in January 2021 and the current Collectors Universe value is listed at \$10,000. From the FINEST Pattern collection of all time--SIMPSON. Now is your chance to own this important rarity.

PCGS# 407449 | EST: \$8,000+

light marks, from a gentle mishandling can be found with a strong glass and account for the assigned grade. Sharply struck. This is a wonderful looking coin for the grade, we think it will see very spirited bidding when it crosses the block.

PCGS 1, NGC 0, CAC 1. The PCGS Price Guide value of \$8,250 is all that is listed for this grade, as no PR63 BN ever sold in auction. The non-CAC PR64 BN in the Simpson Collection, brought \$7,800 in the recent ANA auction. This coin is nicer. Bid accordingly.

PCGS# 60508 | EST: \$7,500+

LOT 571

\$1 1863 J-346. PCGS PR63 BN
CAC

A totally original and CHOICE example of this low Rarity-7 “transitional” pattern. This variety pairs a regular Proof 1863 obverse die and a post 1866 with Motto-reverse die. These were struck for collectors in the late 1860s and early 1870s and were sold in off-metal sets. Struck in copper with a reeded edge.

Bold, flashy mirrors are a delight to behold. Mahogany brown with iridescent blue and rose tones. A few

light marks, from a gentle mishandling can be found with a strong glass and account for the assigned grade. Sharply struck.

This is a wonderful looking coin for the grade, we think it will see very spirited bidding when it crosses the block.

LOT 572

5C 1870 J-807. PCGS PR67 CAC
Ex Simpson Collection, as noted on
the insert.

A VERY RARE low Rarity-7 Shield nickel pattern, struck from regular issue dies on a thin planchet. It is speculated by pattern expert, Saul Teichman that these were struck on three cent nickel planchets. If all known examples were weighed, we would know for sure. This is the SINGLE FINEST example of exactly 7 that have been certified by PCGS and NGC combined.

Deep, ultra reflective mirrors beam boldly all over and are in a stunning state of preservation, devoid of any issues. The details are bold and fully struck from an exacting blow from the dies. Both sides are a blazing nickel-silver with bold cameo contrast. The eye appeal is amazing!

PCGS 1, NGC 0, CAC 1. This coin brought \$9,600 in January 2021 and the current Collectors Universe value is listed at \$12,000. There are NONE FINER, and this is a very RARE pattern Shield nickel that will fit into any world class Shield nickel set or in a specialized pattern cabinet. Good luck.

PCGS# 61051 | EST: \$9,000+

LOT 573

25C 1871 J-1102. PCGS PR67+ BN CAC

Ex Simpson, as noted on the insert. This is the FINEST KNOWN J-1102 quarter. Struck from regular Proof dies in copper with a reeded edge. Listed as Rarity-7+ with just four or five known specimens.

fields are more lustrous than reflective with a bold cartwheel swirl. Iridescent overtones are amplified over the reddish-brown bronze colored surfaces, similar to that of medals struck at the Philadelphia mint in that era. The surfaces are essentially FLAWLESS, this SUPERB GEM has an amazing visual allure!

PCGS 1, NGC 1, CAC 1. We suspect this coin is represented at both PCGS and NGC. Sold as part of the Simpson Collection in February 2021 for \$14,400. The current Collectors Universe value is \$16,000. With NONE FINER, this SUPERB GEM is worthy of a world class cabinet. Good luck!
